

**STUIFBERGEN BLOEMBOLLEN EXPORT B.V.**

**Spring 2019**

**New for 2019: Paeonia 'Red Sarah Bernhardt'**

**Bare Root Perennials Catalog**

June 2018

Dear Customer,

We are pleased to introduce our new 2018 / 2019 catalog of bare rooted perennials and summer flowering bulbs for container growing.

Please take a few moments to browse through the catalog and discover the wide range we offer. If you do not want to miss out on certain varieties and numbers please book them with us NOW! You always may add other varieties to your order later on. If the varieties you are looking for aren't listed you always may ask us for possibilities.

This year we are offering over 700 varieties and 44 new introductions, making this one of the most updated perennial catalogs in the market. All varieties are available with colorful picture and tag (see sample picture).

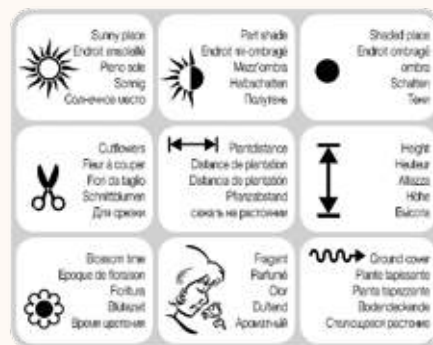

Due to a high level of efficiency and flexibility we are able to keep prices as low as possible. Please have a look at the prices and discover and convince yourself. Stuijbergen Export offers you high quality, not high prices.

We like to take this opportunity to thank you for your orders in the past and hope to be favored again for the upcoming season. Please help us by sending in your order as soon as possible, this enables us to update our orders with the growers much earlier. This especially applies to the new introductions. The index can help you out finding the varieties.

Looking forward doing business with you.

Kind regards,

Henk Stuijbergen

**Pot labels:**

Colourful pot labels are available for all varieties.

Actual size  
63 x 146 mm

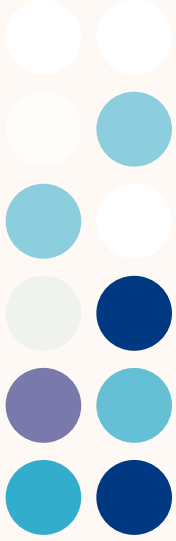

**Front cover variety:**

*Paeonia* 'Red Sarah Bernhardt' p. 60

**Rear cover variety:**

*Dicentra spectabilis* 'Gold Heart' p. 38

*Content* *Page*
