plant guide

3 Ways to Help You Select the Right Plant!

1 Plant Guide

Our 2018 Bordine's Plant Guide will help you select from the wide variety of Perennials, Trees, Shrubs, Evergreens, Roses and Fruiting Plants that we offer. Shop early in the season for best selection. This is also available to download at bordines.com if you would like to share it with family and friends.

SYMBOL KEY

- | | | | |
|---|--|---|------------------------------------|
|  = Sun | These plants need at least 8 hours of direct sunlight. |  = Butterfly | These plants attract butterflies. |
|  = Partial Shade | These plants need a minimum of 4 hours of direct sunlight and a maximum of 8 hours. Avoid hot afternoon sun. |  = Hummingbird | These plants attract hummingbirds. |
|  = Shade | These plants need less than 4 hours of direct sunlight. Avoid hot afternoon sun. |  = Fragrant | These plants have a fragrance. |
| | |  = New | This plant is new for 2018! |

LOOK FOR THESE ADDITIONAL SYMBOLS ON OUR PLANT SIGNAGE!

- | | | | |
|--|--|--|--------------------------------------|
|  = Deer | There are very few plants on which deer will not feed if other food sources are not available. However, these plants are ones that the deer are most likely to ignore. |  = Cut Flower | These plants make great cut flowers. |
|  = Wildlife | These plants provide food for wildlife. |  = Moisture | These plants tolerate moist soil. |

perennials

Perennials are plants that grow and flower for three years or more. Most perennials are considered 'herbaceous': they die back to the ground each fall, but the roots remain alive to produce new foliage in the spring. A wide range of sizes, forms, colors and bloom times are available to suit your needs. With careful planning, a perennial garden can provide color from early spring to late fall. Most perennials are low maintenance. They require little more than basic care which includes

fertilizing, mulching and a general overall grooming from time to time.

Everything you need to plan, prepare and plant a lovely perennial garden is available for you here at Bordine's!

More detailed information can be found on our care sheets, available in store or on-line at bordines.com.

PLANNING YOUR GARDEN

Planning Your Garden: It is important that you choose appropriate plants for the site. Is the garden in a sunny area or does it get a lot of shade? What type of soil do you have? A soil test will give

you specific information about your soil. Get to know which plants will tolerate your conditions or add amendments (sphagnum peat and composted manure) and whatever else is recommended to help improve the condition of your soil. Choose plants you wish to include in your garden so that you will have color throughout the growing season. Adding bulbs to your plan will give early spring color before your perennials are in full bloom. Many perennials also have very attractive foliage which adds interest to your garden when their bloom time is over.

PLANTING

Planting: Water the plant thoroughly before removing it from the container. Dig the planting hole as deep and twice as wide as the container from which the plant has been removed. Check the root ball. If the roots are matted, loosen the soil and roots so that the plant grows into the surrounding soil more easily. The plant should then be set at the same depth as it was planted in the container. Once the plant is set securely in the ground and the roots are well covered, water thoroughly with Root 'n' Grow Root Stimulator per package instructions. Water regularly until your plants are established. Some perennials such as Daylily, Iris or Peony require a precise planting depth. Placing these too deeply may result in fewer blooms. Also, pay close attention to the recommended spacing. Plants like Hosta can grow quite large compared to its size at the time of purchase.

DEADHEADING & CLEANING UP

Deadheading: This means to remove the faded flowers. Deadheading encourages the plant to produce more flowers and therefore lengthens the bloom time. Also, it improves the appearance of the plant and

the garden in general. Remove the flower stem as far below the leaves as possible without cutting off buds that may bloom in the future. Some plants with attractive seed pods or fronds like Rudbeckia, Sedum or Grasses can be left alone. They add interest to your garden during the winter months.

Cleaning Up: When the season comes to a close and frost has ended the growth of your plants, it's time to clean up. Most of your perennials can be cut back at this time to about 4-6" from the ground. Exceptions would be those that add winter interest to the garden such as Sedum, Coneflower and Grasses. It is a good idea to compost the cuttings from your garden. Separate any diseased debris first before adding to your compost pile.

Perennials Shade A-Z

Plant Name		Height	Spread	Flower Description	Bloom Time	Special Features
ARALIA , Sun King	☀️	24-30"	24-30"	2' long white spikes	2-4 weeks, July	Large, golden yellow-chartreuse foliage.
ASTILBE , Bridal Veil	☀️	20-24"	18-24"	White plumes	2-4 weeks, July	<p>Excellent cut flower! Astilbe provides intense flower color for the shade! Their foliage is quite attractive as well; dark, rich green and sometimes with a red hue! Be sure to plant Astilbe where they will receive morning sun and shade in the afternoon. Astilbe also does well in moist conditions. If the foliage ever dries out and becomes crispy, don't worry! Simply cut the plant back and water it. The foliage will be healthy and lush again in no time!</p>
Delft Lace	☀️	30-36"	18-24"	Apricot-pink plumes	4-6 weeks, June	
Deutschland	☀️	20-24"	18-24"	White plumes	2-4 weeks, late June	
Little Vision in Purple	☀️	12-16"	12-18"	Lavender plumes	2-4 weeks, late July	
Maggie Daley	☀️	20-24"	18-24"	Lavender plumes	2-4 weeks, late July	
Peach Blossom	☀️	24-30"	18-24"	Light peachy-pink plumes	2-4 weeks, late June	
Raspberry PBR	★	12-16"	12-18"	Red-pink plumes	2-4 weeks, late July	
Red Sentinel	☀️	20-24"	18-24"	Deep red plumes	2-4 weeks, July	
Rheinland	☀️	24-30"	18-24"	Rose-pink plumes	2-4 weeks, late June	
Rise and Shine	☀️	24-30"	12-18"	Hot pink plumes	2-4 weeks, July	
Visions	☀️	20-24"	18-24"	Lilac-purple plumes	2-4 weeks, late July	
Visions in Pink	☀️	20-24"	18-24"	True pink plumes	2-4 weeks, late July	
Visions in Red	☀️	20-24"	18-24"	Red plumes	2-4 weeks, late July	
White Gloria	☀️	20-24"	18-24"	Clear white plumes	2-4 weeks, July	
BARRENWORT , Purple Pixie	☀️	8-12"	12-18"	Violet-purple	4-6 weeks, May	Green, delicate foliage. Tolerates dry shade.
Queen Esta	☀️	8-12"	12-18"	Bicolor lavender-dark purple	4-6 weeks, May	Green, delicate foliage. Tolerates dry shade.
Starlet	☀️	8-12"	12-18"	Pink-lavender with white	4-6 weeks, May	Green, delicate foliage. Tolerates dry shade.
BERGENIA , Dragonfly Sakura	☀️	12-16"	12-18"	Deep pink	2-4 weeks, late April	Glossy green foliage. Tolerates dry shade.
Pink Dragonfly	☀️	12-16"	12-18"	Coral pink	2-4 weeks, late April	Glossy green foliage. Tolerates dry shade.
BLEEDING HEART , Gold Heart	☀️	20-24"	30-36"	Pink, heart shaped	8-12 weeks, late May	➤ Brilliant chartreuse foliage; long blooming.
King of Hearts	☀️	12-16"	12-18"	Dark rose	8-12 weeks, late May	➤ Lacy blue foliage; long blooming.
Old Fashioned	☀️	30-36"	24-30"	Pink and white, heart shaped	2-4 weeks, May	➤ Deadhead to produce more blooms.
Old Fashioned, White	☀️	30-36"	24-30"	White, heart shaped	2-4 weeks, May	➤ Deadhead to produce more blooms.
Valentine	☀️	24-30"	18-24"	Red, heart shaped	2-4 weeks, May	➤ Deadhead to produce more blooms.
BRUNNERA	☀️	12-16"	12-18"	Small, blue	2-4 weeks, May	Large, green, heart shaped foliage.
Alexander's Great	☀️	16-20"	18-24"	Small, blue	2-4 weeks, May	Giant, frosty silver, heart shaped foliage.
Jack Frost	☀️	12-16"	12-18"	Small, blue	2-4 weeks, May	Frosty silver foliage with green veins.
Variegata	☀️	12-16"	18-24"	Small, light blue	2-4 weeks, May	Green foliage with wide creamy margins.
CIMICIFUGA , Pink Spike	☀️	30-36"	24-30"	Pink, bottle brush	4-6 weeks, August	☘️ Deep purple foliage.
CORAL BELLS , Berry Timeless	☀️	16-20"	18-24"	Pink	8-12 weeks, June	☘️ Large, green-silver foliage with dark veins.
Caramel	☀️	8-12"	12-18"	White	2-4 weeks, July	☘️ Yellow-orange foliage with purple-red undersides.
Citronelle	☀️	12-16"	12-18"	White	2-4 weeks, July	☘️ Citron yellow foliage, chartreuse in shade.
Dolce Appletini	☀️	8-12"	18-24"	Red	2-4 weeks, June	☘️ Lime green foliage with silver variegation.
Dolce Brazen Raisin	☀️	8-12"	18-24"	White	2-4 weeks, June	☘️ Dark purple-bronze foliage.
Dolce Cinnamon Curls	☀️	12-16"	18-24"	White	2-4 weeks, June	☘️ Coppery-orange, ruffled foliage.
Dolce Silver Gumdrop	☀️	4-6"	12-18"	Pink	2-4 weeks, June	☘️ Silver-purple foliage.
Frost	☀️	6-8"	8-12"	Pink	4-6 weeks, May	☘️ Silvery foliage with dark burgundy veins.
Grape Expectations	★	8-12"	18-24"	White	2-4 weeks, June	☘️ Purple foliage with dark veins and silver coating.
Lime Marmalade	☀️	12-16"	12-18"	White	2-4 weeks, June	☘️ Ruffled lime foliage.
Lime Ruffles	☀️	8-12"	12-18"	White	2-4 weeks, May	☘️ Large lime green, ruffled foliage.
Mega Caramel	☀️	16-20"	24-30"	Cream	2-4 weeks, July	☘️ Large, orange-yellow foliage.
Midnight Rose	☀️	8-12"	18-24"	Cream	2-4 weeks, June	☘️ Black foliage with pink spots.
Midnight Ruffles	☀️	12-16"	24-30"	Pink-white	2-4 weeks, May	☘️ Large red-purple, ruffled foliage.
Obsidian	☀️	8-12"	12-18"	Yellow	2-4 weeks, June	☘️ Shiny, rounded, almost black foliage.
Palace Purple	☀️	20-24"	24-30"	Cream	2-4 weeks, June	☘️ Rich purple foliage.
Peach Flambe	☀️	8-12"	12-18"	White	2-4 weeks, June	☘️ Bright peach colored foliage.
Peppermint	☀️	4-6"	8-12"	Pink	4-6 weeks, June	☘️ Icy silver-purple veins on green foliage.
Plum Pudding	☀️	20-24"	18-24"	Creamy white	2-4 weeks, June	☘️ Shimmering plum-purple foliage.
Primo Black Pearl	☀️	8-12"	12-18"	Pink	2-4 weeks, June	☘️ Glossy, dark purple foliage.
Red Lightning	★	8-12"	12-18"	White	2-4 weeks, June	☘️ Gold foliage with red veining.
Spellbound	☀️	8-12"	12-18"	White	2-4 weeks, July	☘️ Ruffled silver foliage with tints of rose purple.
Sweet Tart	☀️	4-6"	8-12"	Pink	2-4 weeks, June	☘️ Lime green rippled foliage.
CORYDALIS , Yellow	☀️	8-12"	18-24"	Yellow	8-12 weeks, May	Delicate silver-blue foliage.
FAIRY BELLS , Variegated	☀️	12-16"	12-18"	Creamy-white, bell-shaped	2-4 weeks, May	Green and white variegated foliage.
Yellow	☀️	24-30"	12-18"	Golden yellow, bell-shaped	2-4 weeks, May	Bronze-green foliage. Slow spreading ground cover.

Perennials Shade A-Z

Plant Name		Height	Spread	Flower Description	Bloom Time	Special Features
FERN , Autumn Brilliance	☀	24-30"	18-24"	-	-	Golden orange fronds turn rich green; bronze fall color.
Broad Buckler Crisped	☀☀	12-16"	12-18"	-	-	Airy green fronds; prefers moist soils.
Cinnamon	☀☀	30-36"	18-24"	-	-	Interesting cinnamon stick-like fertile fronds.
Japanese Painted	☀☀	16-20"	18-24"	-	-	Silver, maroon and green variegated fronds.
Japanese Painted, Godzilla ☆	☀☀	30-36"	4-5'	-	-	Silver, maroon and green variegated fronds.
Japanese Sword	☀☀	20-24"	24-30"	-	-	Fine, glossy dark green fronds.
Lady	☀☀	24-30"	18-24"	-	-	Soft green, delicate fronds.
Lady, Ghost	☀☀	20-24"	18-24"	-	-	Silvery green fronds; prefers moist soils.
Lady in Red	☀☀	24-30"	18-24"	-	-	Shiny, burgundy-red leaf stalks accent green fronds.
Maidenhair, Himalayan	☀☀	8-12"	12-18"	-	-	Delicate green, airy fronds; prefers moist soils.
Male	☀	24-30"	18-24"	-	-	Long, lush fronds form a crown.
Ostrich	☀☀	30-36"	24-30"	-	-	Large, upright feather-like fronds. Excellent filler.
Stabler's Golden	☀	24-30"	24-30"	-	-	Large, robust deep green fronds.
Tassel	☀☀	16-20"	18-24"	-	-	Glossy, dark green fronds. Excellent for mass planting.
FOAMFLOWER , Spring Symphony	☀☀	8-12"	8-12"	Pink, bottlebrush-like	4-6 weeks, May	🌸 Green, deeply divided foliage w/ black along midrib.
Sugar and Spice	☀☀	8-12"	8-12"	White-pink, bottlebrush-like	4-6 weeks, May	🌸 Shiny green, deeply divided foliage w/ dark center.
GOAT'S BEARD	☀☀	4-5'	18-24"	White feathery plumes	2-4 weeks, May	🌸 Gives great height in the shade garden.
HELLEBORUS , Anna's Red ☆	☀☀	20-24"	18-24"	Wine-red with yellow center	4-6 weeks, April	Early bloomer with bronze-green foliage.
Ivory Prince	☀	12-16"	12-18"	Cream	4-6 weeks, April	One of the earliest spring flowering perennials!
Jacob	☀☀	8-12"	12-18"	Pure white with yellow center	6-8 weeks, late November	Super early bloomer, it may peek out of the snow!
New York Night ☆	☀☀	20-24"	18-24"	Dark purple to black	4-6 weeks, March	One of the earliest spring flowering perennials!
Penny's Pink ☆	☀☀	30-36"	18-24"	Mauve pink with yellow center	4-6 weeks, February	Super early bloomer, it may peek out of the snow!
HEUCHERELLA , Alabama Sunrise	☀☀	8-12"	8-12"	White	2-4 weeks, May	Deeply cut gold foliage with red veins.
Buttered Rum	☀☀	6-8"	12-18"	White	2-4 weeks, June	🌸🌸 Deeply cut, copper-red foliage.
Fun and Games Hopscotch	☀☀	8-12"	18-24"	White	2-4 weeks, May	Bronze-red foliage with dark centers.
Gold Zebra	☀☀	12-16"	12-18"	White	2-4 weeks, May	🌸 Bright yellow foliage with dark red inside.
Pink Fizz	☀☀	8-12"	12-18"	Pink	2-4 weeks, May	🌸 Green and silver foliage with dark red veins.
Pumpkin Spice	☀☀	8-12"	18-24"	White	2-4 weeks, May	Bronze foliage with dark veins.
Sweet Tea	☀	16-20"	18-24"	White	2-4 weeks, May	🌸 Orange foliage with darker veins.
JACOB'S LADDER	☀☀	20-24"	18-24"	Blue-purple	4-6 weeks, late April	🌸🌸 Cut back by 2/3 for second bloom.
Stairway to Heaven	☀☀	12-16"	18-24"	Blue	2-4 weeks, May	🌸🌸 Green, pink and white variegated foliage.
LIGULARIA , Bottle Rocket	☀	24-30"	18-24"	Mustard-yellow spikes	2-4 weeks, late June	🌸 Large, green foliage. Prefers moist conditions.
Brit-Marie Crawford	☀	24-30"	24-30"	Orange-yellow; daisy-like	2-4 weeks, late August	🌸 Dark burgundy, almost black foliage.
Japonica	☀	4-5'	24-30"	Orange-yellow; daisy-like	2-4 weeks, late July	🌸 Dark green, tropical-like foliage.
Little Rocket	☀	36-42"	30-36"	Bright yellow spikes	2-4 weeks, July	🌸 Large, heart-shaped and fringed foliage.
Osiris Fantaise	☀	20-24"	18-24"	Orange-yellow; daisy-like	2-4 weeks, late July	🌸 Dark green, tropical-like foliage.
PULMONARIA , Raspberry Splash	☀☀	12-16"	18-24"	Raspberry-coral	2-4 weeks, late April	🌸 Green foliage with silver speckles.
Trevi Fountain	☀☀	8-12"	18-24"	Cobalt-blue	2-4 weeks, late April	🌸 Green and silver-spotted foliage.
Twinkle Toes ☆	☀☀	12-16"	12-18"	Periwinkle blue	2-4 weeks, late April	🌸 Light green and silver-spotted foliage.
RODGER'S FLOWER	☀	24-30"	18-24"	Cream	2-4 weeks, late June	🌸 Palm-like foliage give great texture.
SHAMROCK , Strawberry	☀☀	6-8"	18-24"	Pink	8-12 weeks, June	Extremely long blooming. Mulch in winter.
SOLOMON'S SEAL , Dwarf Fred Case	☀☀	6-8"	30-36"	White, pendulous	2-4 weeks, May	Dwarf variety. Can be used as a ground cover.
Variegated	☀☀	24-30"	18-24"	White, pendulous	2-4 weeks, May	🌸 Green foliage with ivory stripes on edges.
SPIDERWORT , Concord Grape	☀☀	16-20"	18-24"	Grape purple	2-4 weeks, June	🌸 Cut back by 2/3 for second bloom.
Sweet Kate	☀☀	12-16"	12-18"	Violet-blue	4-6 weeks, June	🌸 Brilliant gold, grass-like foliage.
Zwanenburg	☀☀	20-24"	18-24"	Violet-purple	4-6 weeks, June	🌸 Cut back by 2/3 for second bloom.
TOAD LILY , Autumn Glow	☀☀	20-24"	30-36"	Purple-red with dark speckles	2-4 weeks, August	Exotic orchid-like flowers.
Miyazaki	☀☀	30-36"	18-24"	Light purple w/ dark speckles	2-4 weeks, September	Exotic orchid-like flowers.
TURTLEHEAD , Hot Lips	☀☀	24-30"	18-24"	Rosy-pink on red stems	4-6 weeks, late July	🌸🌸 Great late season color for the shade.
Tiny Tortuga	☀☀	12-16"	12-18"	Dark pink	4-6 weeks, late July	🌸🌸 Great late season color for the shade.
VIOLA , Blackout	☀☀	6-8"	8-12"	Black	6-8 weeks, May	🌸 Deadhead to produce more blooms.
Columbine	☀☀	4-6"	6-8"	White with lavender streaks	6-8 weeks, May	🌸🌸 Deadhead to produce more blooms.
Etain	☀☀	8-12"	8-12"	Pale lemon with lavender	8-12 weeks, April	🌸🌸 Deadhead to produce more blooms.
Halo Violet	☀☀	8-12"	8-12"	Deep violet with yellow eye	8-12 weeks, May	🌸🌸 Deadhead to produce more blooms.
WOOD POPPY , Golden	☀☀	12-16"	12-18"	Golden yellow	1-2 weeks, late April	Green, woodland-like foliage.

☀ = Sun ☀☀ = Partial Shade ☀☀☀ = Shade 🌸 = Butterfly 🐦 = Hummingbird 🌸 = Fragrant ☆ = New Plant for 2018!

Hosta

Variety		Height	Spread	Flower Description	Bloom Time	Foliage	
Abiqua Drinking Gourd	☼☼	16-20"	18-24"	White	2-4 weeks, June	Thick, huge, blue green; deeply cupped	☼
August Moon	☼☼☼	20-24"	24-30"	Pale lavender	2-4 weeks, July	Large, gold heart-shaped; puckered	☼

Shadowland Wheee!	☼☼	12-16"	24-30"	Lavender	2-4 weeks, July	Ruffled green foliage with creamy margins	☼
Stained Glass	☼☼	16-20"	36-48"	Pale lavender	2-4 weeks, July	Gold heart-shaped, puckered, with wide green margin	☼☼
Sum and Substance	☼☼	30-36"	36-48"	Light lavender	2-4 weeks, July	Huge chartreuse, heart-shaped, puckered	☼
Vulcan	☼☼	20-24"	30-36"	Pale lavender	2-4 weeks, July	White and yellow with dark green margins	☼
Wolverine	☼☼	12-16"	18-24"	Lavender	2-4 weeks, August	Ruffled green foliage with creamy margins	☼

Clematis

Variety		Type	Height	Flower Description	Bloom Time
Blue Light	☀️	New	6-8'	Pale violet-blue with cream stamens, double	4-6 weeks, late June
Chloe	☆☀️	New	20-24"	3-4" violet bell shaped with yellow anthers	May through October
Dr. Ruppel	☀️	Old	8-10'	Rose-red with deeper bar and golden stamen	2-4 weeks, late May; may rebloom
Erik Ruuth	☆☀️	Old	6-8'	Creamy white, light green bar with yellow anthers	2-4 weeks, May
Fireflame	☀️	Old	8-10'	Rosey-red, double	8-12 weeks, May
Fuchsia Flash	☆☀️	New	4-5'	Pink w/cream filaments and maroon tipped anthers	May through September
Fuyu No Tabi	☀️	Old	5-6'	White with maroon stamens	2-4 weeks, late May; may rebloom
H.F. Young	☀️	Old	6-8'	6-8" medium blue	4-6 weeks, June
Harmony	☀️	Old	6-8'	Pink with dark pink bar	4-6 weeks, May
Huvi	☀️	Old	6-8'	Deep carmine-red with reddish-mauve stripe	6-8 weeks, late June
Ibi	☀️	Old	6-8'	White-lilac with purple stamens	6-8 weeks, late May
Jackman's	☀️	New	8-10'	5-6" velvety purple with greenish stamens	4-6 weeks, late June; may rebloom
Little Duckling	☀️	Old	6-8'	Pink with purple-red bar and cream stamens	6-8 weeks, May
Minister	☀️	Old	6-8'	Large, lavender-blue with maroon stamens	4-6 weeks, June
Niobe	☀️	Old	6-8'	Dark ruby-red, 6-8" with golden stamens	2-4 weeks, June; may rebloom
Pinky	☀️	Old	6-8'	6-8" deep pink with light pink edges	2-4 weeks, late May; may rebloom
Polish Spirit	☀️	New	12-15'	Rich purple with purple stamens	4-6 weeks, July
Reiman	☀️	New	6-8'	Bluish-purple with red bars	8-12 weeks, June
Suzu Mac	☀️	Old	8-10'	Ruffled purple	8-12 weeks, May
Sweet Autumn	☀️	New	15-20'	1/2-1" cream, prominent stamens, fragrant	4-6 weeks, late August
The President	☀️	Old	8-10'	6-8" deep bluish-purple with dark purple stamens	2-4 weeks, June; may rebloom

Clematis Type Key

New= Flowers on NEW growth, prune growth 6-12" from ground in April. *Shade roots*
 Old= Flowers on OLD growth, prune as needed shortly after blooming. *Shade roots*

Vines

Plant Name		Type	Height	Special Features	Flower Color/Bloom Time
AKEBIA , Chocolate	☀️☀️	T	20-25'	🌿 Vigorous grower with interesting 5-fingered foliage	Chocolate purple; 2-4 weeks, May
DUTCHMAN'S PIPE	☀️	T	25-30'	Large dark green, heart shaped foliage	Yellow-green pipes w/brown marks; 2-4 weeks, June
HONEYSUCKLE , Goldflame	☀️	T	15-20'	🌿 Trumpet shaped flowers; blue green foliage	Reddish-pink w/creamy yellow; 8-12 weeks, June
Hall's	☀️	T	20-25'	🌿 Trumpet shaped flowers; dark green foliage	White, mature to creamy yellow; 4-6 weeks, May
Major Wheeler	☀️	T	6-8'	🌿 Trumpet shaped flowers; dark green foliage	Red, w/ yellow tips and throats; 8-12 weeks, June
Mandarin	☀️	T	15-20'	🌿 Trumpet shaped flowers; dark green foliage	Yellow-orange; 8-12 weeks, June
HYDRANGEA , Climbing	☀️☀️	C	25-30'	🌿 Peeling bark provides winter interest	Lacy white clusters; 2-4 weeks, June
IVY (Deciduous), Boston	☀️☀️	C	30-40'	Tri-lobed; green foliage turns scarlet in fall	Inconspicuous flowers
Virginia Creeper	☀️☀️	C	30-40'	5 fingered; green foliage turns bright red in fall	Inconspicuous flowers
SILVER LACE VINE	☀️	T	25-30'	🌿 Fast growing with bright green foliage	Profuse white clusters; 6-8 weeks, August
TRUMPET VINE , Flamenco	☀️	C	25-30'	🌿 Trumpet shaped flowers; dark green foliage	Orange-red; 2-4 weeks, July
Flava	☀️	C	25-30'	🌿 Trumpet shaped flowers; dark green foliage	Yellow; 2-4 weeks, July
Madame Galen	☀️	C	25-30'	🌿 Trumpet shaped flowers; dark green foliage	Orange-red; 2-4 weeks, July
WISTERIA , Amethyst Falls	☀️	T	30-40'	🌿 Grape-like flower clusters 6-8" long	Lavender-blue; 1-2 weeks, May
Chinese	☀️	T	25-30'	🌿 Grape-like flower clusters 6-12" long	Blue-violet; 1-2 weeks, May; may rebloom

Vine Type Key

C Clinging Vines climb textured surfaces such as brick, stone or rough wood.
 T Twining Vines climb by wrapping around a trellis, lattice, fence or open, grid-like structure.

Pruning helps control the size of the vine as well as encourage flowering.

If the vine blooms in early spring such as Akebia and Wisteria, prune as necessary shortly after flowering.
 If the vine blooms in late spring such as Honeysuckle and Trumpet Vine, prune in early spring or late fall as necessary to thin and shape.

Wisteria do not always flower reliably, try the following steps to encourage flowering:

- Full sun location (8 or more hours of direct sunlight)
- Low Nitrogen Fertilizer
- Superphosphate (0-20-0) fertilizer in early Spring
- Prune Shoots back 1/3 to 1/2 of their length in July
- Root prune in late fall (18" deep and 4' from base of plant)

Ground Cover

Plant Name		Height	Spread	Spacing	Flower Description	Bloom Time	Special Features
AJUGA , Black Scallop	☀️	4-6"	-	8x8"	Deep blue spikes	2-4 weeks, May, reblooms	➤ Scalloped, near black foliage.
Burgundy Glow	☀️	4-6"	-	8x8"	Blue spikes	2-4 weeks, June, reblooms	➤ Green, white, pink and burgundy foliage.
Catlin's Giant	☀️	6-8"	-	12x12"	Blue spikes	2-4 weeks, June, reblooms	➤ Large, purple-blue foliage.
Chocolate Chip	☀️	2-4"	-	8x8"	Lacy blue spikes	2-4 weeks, June, reblooms	➤ Chocolate colored foliage.
BARREN STRAWBERRY ☆	☀️	6-8"	18-24"	-	Yellow	4-6 weeks, May	Fruit is not edible. Bronze fall color.
BEARBERRY	☀️	4-6"	12-18"	-	Pinkish-white lantern shaped	2-4 weeks, April	Red fruit in late summer; evergreen.
BLUE-STAR CREEPER	☀️	2-4"	-	10x10"	Blue, star-shaped	8-12 weeks, June	Never seems to quit flowering!
BRASS BUTTONS , Miniature	☀️	2-4"	-	10x10"	Small, green	1-2 weeks, June	Green, fern-like foliage.
Platt's Black	☀️	2-4"	-	10x10"	Small, yellow	1-2 weeks, June	Blackish-purple, fern-like foliage.
BUNCHBERRY	☀️	4-6"	12-18"	-	White	2-4 weeks, May	Red berries, scarlet-red fall color.
CHRYSOGONUM , Green and Gold	☀️	6-8"	12-18"	-	Golden yellow	2-4 weeks, May	Semi-evergreen. Prefers moist conditions.
CLOVER , 4 Luck Green Glow	☀️	4-6"	12-18"	-	-	-	Light green with dark center, 4 sided foliage.
4 Luck Red Green	☀️	4-6"	12-18"	-	-	-	Light green with red center, 4 sided foliage.
HENS AND CHICKS , Assorted	☀️	4-6"	8-12"	-	Pink stars on upright stalks	Blooms at maturity	Succulent rosettes in a range of colors & textures.
Cobweb	☀️	4-6"	8-12"	-	Pink stars on upright stalks	Blooms at maturity	Rosettes covered with fine silvery web-like hairs.
HOULTUYNIA	☀️	8-12"	18-24"	-	White	2-4 weeks, June	☠️ Red/cream/green variegated foliage.
ICE PLANT , Blut	☀️	2-4"	-	8x8"	Magenta-red, daisy-like	6-8 weeks, June	<div style="border: 1px solid black; padding: 5px;"> <p>Low growing, succulent foliage creates a dense carpet underneath the brightly colored daisy-like flowers. Ice Plant tolerates hot and dry conditions making it an excellent choice for rock gardens.</p> </div>
Fire Spinner	☀️	4-6"	-	8x8"	Orange/yellow/magenta	2-4 weeks, June	
Gold Nugget	☀️	2-4"	-	8x8"	Yellow, daisy-like	6-8 weeks, May	
Jewel of Desert Garnet	☀️	2-4"	-	6x6"	Red with lavender center	6-8 weeks, late May	
Jewel of Desert Moonstone	☀️	2-4"	-	6x6"	White, daisy-like	4-6 weeks, late May	
Jewel of Desert Ruby	☀️	2-4"	-	6x6"	Pink and white, daisy-like	4-6 weeks, late May	
John Proffit	☀️	2-4"	-	8x8"	Fuchsia, daisy-like	6-8 weeks, late May	
Lesotho Pink	☀️	2-4"	-	8x8"	Bright pink, daisy-like	6-8 weeks, late May	
Yellow	☀️	2-4"	-	8x8"	Yellow, daisy-like	2-4 weeks, May	
IRIS , Dwarf, Crested	☀️	4-6"	-	8x8"	Lilac	2-4 weeks, May	☠️ Gray-green, sword-shaped foliage.
IVY , English	☀️	4-6"	-	8x8"	-	-	Evergreen, glossy, dark green foliage.
English, Walthamensis	☀️	2-4"	-	8x8"	-	-	Small, evergreen, rich dark green foliage.
LAMIASTRUM , Herman's Pride	☀️	8-12"	18-24"	-	Yellow	2-4 weeks, July	Green and silver variegated foliage.
LAMIUM , Anne Greenaway	☀️	6-8"	-	12x12"	Mauve	2-4 weeks, May, reblooms	Chartreuse, silver, dark and pale green foliage.
Orchid Frost	☀️	6-8"	-	12x12"	Orchid pink	2-4 weeks, May, reblooms	Silvery-green foliage.
Shell Pink	☀️	6-8"	-	12x12"	Soft pink	2-4 weeks, April, reblooms	Silvery-green stripe down middle of foliage.
White Nancy	☀️	6-8"	-	12x12"	White	2-4 weeks, April, reblooms	Light silvery-green foliage.
LILY OF THE VALLEY , White	☀️	6-8"	12-18"	-	Nodding white	2-4 weeks, May	☠️ Dark green foliage; fragrant flowers.
LIRIOPE , Creeping	☀️	8-12"	12-18"	-	Purple clusters on spikes	4-6 weeks, late July	Fine, green, grass-like foliage.
Creeping, Silver Dragon	☀️	6-8"	12-18"	-	Violet	2-4 weeks, September	Green foliage with silvery-white stripes.
No-Mo ☆	☀️	4-6"	-	8x8"	Lavender, star shaped	2-4 weeks, August	Green, grass-like foliage.
Silvery Sunproof	☀️	8-12"	12-18"	-	Lavender	4-6 weeks, September	White and green variegated foliage.
MAZUS	☀️	2-4"	-	10x10"	Purplish-blue	2-4 weeks, May	Excellent ground cover for rock gardens.
MOSS , Irish	☀️	2-4"	-	8x8"	Tiny, white	1-2 weeks, July	Tiny, green, moss-like foliage; evergreen.
Scotch	☀️	2-4"	-	8x8"	Tiny, white	1-2 weeks, July	Chartreuse moss-like foliage; evergreen.
MYRTLE	☀️	4-6"	-	8x8"	Lilac-blue	2-4 weeks, May	Glossy, dark green foliage; evergreen.
Ralph Shugert	☀️	6-8"	-	12x12"	Deep lilac	2-4 weeks, May	Glossy, dark green foliage; creamy white margins.
PACHYSANDRA	☀️	6-8"	-	8x8"	White spikes	1-2 weeks, May	Evergreen, does well under pine trees.
PHLOX , Creeping, Drummon's Pin	☀️	4-6"	-	10x10"	Pink	2-4 weeks, May	<div style="border: 1px solid black; padding: 5px;"> <p>Stunning spring color! Great rock garden plant and excellent for steep slopes.</p> </div>
Emerald Blue	☀️	4-6"	-	10x10"	Blue	2-4 weeks, May	
Fort Hill	☀️	4-6"	-	10x10"	Deep pink	2-4 weeks, May	
Spring White	☀️	4-6"	-	10x10"	White	2-4 weeks, April	
PLUMBAGO	☀️	8-12"	12-18"	-	Dark blue	2-4 weeks, August	Green foliage, bright red fall color.
RUPTUREWORT	☀️	2-4"	-	8x8"	-	-	Tiny, green foliage; evergreen.
Sea Foam	☀️	2-4"	-	8x8"	-	-	Tiny, green with white edges; evergreen.

Yellow Tiger	☀☀★	42-48"	36-48"	Yellow with black freckles	2-4 weeks, July	☞☞

Lilies are one of the easiest perennials to grow! They grow from a bulb which multiplies over the years, giving you more and more plants! The stalks are robust and require little staking. Their flowers are stunning in the garden and many have a wonderful fragrance as well. It is best to remove faded flowers so that seed pods do not form. This allows the plant to achieve maximum bulb development for the following season.

Daylilies

Variety	Height	Spread	Flower Description	Bloom Time	Special Features
Adorable Tiger ☆	30-36"	18-24"	Large gold and red	2-4 weeks, July	<p>Daylilies are low maintenance perennials that thrive in the sun. Their flowers come in a range of colors from pink to purple, yellow, red or bicolor. Different flower forms such as double or ruffled are what make each variety unique. While many varieties only bloom for 2-4 weeks, most newer varieties bloom 8-12 weeks continuously when deadheaded. They look fantastic when planted in masses, on slopes for erosion control or in the perennial border. Butterflies and hummingbirds absolutely love Daylilies and they make great cut flowers.</p>
Apricot Sparkles	12-16"	18-24"	Large apricot	4-6 weeks, July, reblooms	
Bela Lugosi	30-36"	18-24"	Deep purple	2-4 weeks, July	
Chesapeake Crablegs	30-36"	30-36"	Red-orange with gold throat	2-4 weeks, June, reblooms	
Druid's Chant	24-30"	18-24"	Purple with yellow center	2-4 weeks, July	
Dynamite Returns	16-20"	18-24"	Warm pink with green to chartreuse throat	4-6 weeks, July, reblooms	
Entrapment	24-30"	18-24"	Ruffled blue-purple with yellow throat	2-4 weeks, July, reblooms	
Fooled Me	20-24"	18-24"	Large, yellow with red eye and edge	2-4 weeks, July	
Going Bananas	20-24"	18-24"	Canary yellow	8-12 weeks, July, reblooms	
Happy Returns	16-20"	18-24"	Canary yellow	2-4 weeks, June, reblooms	
Heavenly Angel Ice	30-36"	30-36"	Ruffled white with green-yellow throat	2-4 weeks, July, reblooms	
Indian Giver	24-30"	18-24"	Purple with white edge	2-4 weeks, July, reblooms	
Inwood	24-30"	18-24"	Peach-yellow with burgundy eye and edge	2-4 weeks, July, reblooms	
Little Business	12-16"	18-24"	Red	2-4 weeks, June, reblooms	
Little Grapette	12-16"	18-24"	Grape purple	2-4 weeks, June	
Mighty Chestnut	24-30"	18-24"	Orange-brown, deep chestnut eye/yellow throat	2-4 weeks, June	
Night Embers	24-30"	18-24"	Double maroon with gold edges	2-4 weeks, July, reblooms	
Purple De Oro	16-20"	18-24"	Purple	8-12 weeks, June	
Rainbow Rhythm, Nosfer ☆	20-24"	18-24"	Dark purple with lime throat	2-4 weeks, July	
Primal Scream	30-36"	18-24"	Large orange-gold, ruffled	2-4 weeks, June	
Ruby Spider	30-36"	12-18"	Large, 9" ruby red with yellow throat	2-4 weeks, June	
Tiger Swirl ☆	30-36"	18-24"	Gold with red eye	2-4 weeks, July	
Romantic Returns	20-24"	18-24"	Coral-rose with creamy yellow throat	8-12 weeks, June	
Royal Frosting	20-24"	18-24"	White with yellow center	2-4 weeks, July	
Ruby Stella	16-20"	18-24"	Deep wine-red	8-12 weeks, July	
Scentual Sundance	16-20"	18-24"	Mauve with plum eyes	4-6 weeks, June, reblooms	
Scottish Fantasy	24-30"	18-24"	Large rose-pink	2-4 weeks, July, reblooms	
Stella de Oro	16-20"	18-24"	Golden yellow	8-12 weeks, June	
Stephanie Returns	12-16"	18-24"	Rose and cream bicolor	6-8 weeks, July, reblooms

SYMBOL KEY

= Sun

These plants need at least 8 hours of direct sunlight.

= Partial Shade

These plants need a minimum of 4 hours of direct sunlight and a maximum of 8 hours. Avoid hot afternoon sun.

= Shade

These plants need less than 4 hours of direct sunlight. Avoid hot afternoon sun.

= Butterfly

These plants attract butterflies.

= Hummingbird

These plants attract hummingbirds.

= Fragrant

These plants have a fragrance.

= New

This plant is new for 2018!

Grasses

Variety	Height	Spread	Type	Foliage	Bloom Time	Flower Description
Bamboo , Clumping	6-8'	-	Clumping	Long, narrow dark green, red accented stems	-	-
Big Bluestem , Indian Warrior	5-6'	18-24"	Clumping	Green turning red-purple in cool weather	4-6 weeks, August	Red-purple seed heads
Karl's Cousin	4-5'	18-24"	Clumping	Blue-green turns purple-blue in cool weather	4-6 weeks, August	Purple-blue seed heads
Red October	5-6'	18-24"	Clumping	Green turning bright red in fall	4-6 weeks, August	Vivid red seed heads
Black Mondo , Ebony Knight	8-12"	12-18"	Slow spreading	Nearly black, grass-like	2-4 weeks, August	Dark lavender
Blood , Red Baron	16-20"	12-18"	Slow spreading	Green, bright red tips	-	-
Feather Reed , Fall Blooming	30-36"	24-30"	Clumping	Slender green	2-4 weeks, September	Pink-green plumes; tan seed heads
Karl Foerster	4-5'	30-36"	Clumping	Slender green	8-12 weeks, late May	Rose plumes; tan seed heads
Overdam	24-30"	18-24"	Clumping	Green and white variegated	8-12 weeks, late May	Golden plumes and seed heads
Fescue , Elijah Blue	12-16"	18-24"	Clumping	Fine, light blue	2-4 weeks, May	Tan seed heads
Fountain , Burgundy Bunny	12-16"	12-18"	Clumping	Green with burgundy tips, scarlet in fall	4-6 weeks, August	Cream plumes w/ tan seed heads
Ginger Love	30-36"	30-36"	Clumping	Thin green	4-6 weeks, August	Bottlebrush dark red plumes
Hameln	20-24"	18-24"	Clumping	Thin green	4-6 weeks, August	Silver-rose plumes; tan seed heads
Karley Rose	30-36"	24-30"	Clumping	Thin bright green; arching	4-6 weeks, August	Rose foxtail plumes
Little Bunny	8-12"	12-18"	Clumping	Soft textured, dense, dark green	4-6 weeks, August	Fuzzy cream seed heads
Moudry	20-24"	30-36"	Clumping	Soft textured, dense, dark green	4-6 weeks, August	Almost black bottlebrush plumes
Hakonechloa	12-16"	24-30"	Slow spreading	Bright yellow and green variegated	-	-
All Gold	12-16"	24-30"	Slow spreading	Bright golden	-	-
Little Bluestem , Little Arrow	20-24"	18-24"	Clumping	Green turns bronze in cool weather	4-6 weeks, August	Green and bronze seed heads
Standing Ovation	42-48"	8-12"	Clumping	Blue-green transitions to purple w/ red tips	4-6 weeks, August	Tan seed heads
Maiden , All's Spotted	5-6'	3-4'	Clumping	Green with yellow crossbars	4-6 weeks, August	Soft silver-tan plumes
Big Kahuna	8-10'	4-5'	Clumping	Medium green with white center	2-4 weeks, September	Silvery white plumes
Cabaret	5-6'	24-30"	Clumping	Broad with wide white center & green margin	4-6 weeks, September	Pink plumes
Cosmopolitan	6-8'	4-5'	Clumping	Wide; creamy white and dark green striped	4-6 weeks, September	Silvery plumes
Giant	8-10'	4-5'	Clumping	Green	September to frost	Silvery plumes
Gracillimus	5-6'	4-5'	Clumping	Fine, green	4-6 weeks, September	Coppery-red plumes age to beige
Little Kitten	30-36"	24-30"	Clumping	Narrow with silver midribs	4-6 weeks, September	White plumes
Little Zebra	30-36"	24-30"	Clumping	Green with yellow crossbars	4-6 weeks, August	Reddish-purple plumes
Malepartus	5-6'	36-48"	Clumping	Broad green with white midrib; bamboo like	4-6 weeks, late August	Pinkish-purple plumes turning silver
Morning Light	42-48"	36-48"	Clumping	Fine, silvery-green	2-4 weeks, October	Reddish-pink plumes
Porcupine	5-6'	4-5'	Clumping	Green with yellow crossbars, held upright	4-6 weeks, September	Copper-silver plumes
Variegated	5-6'	4-5'	Clumping	Creamy white and green striped	4-6 weeks, September	Silvery-pink plumes
Zebra	5-6'	36-48"	Clumping	Green w/distinctive bands of yellow; arching	4-6 weeks, September	Bronze-pink plumes
Ravenna	8-10'	4-5'	Clumping	Green	4-6 weeks, September	Tall beige plumes mature to white
Sedge , Bowles Golden	8-12"	18-24"	Slow spreading	Brilliant yellow with thin green stripe	-	-

Shaggy	5-6'	30-36"	Clumping	Vivid green	4-6 weeks, July	Gold airy panicles
Shenandoah	30-36"	30-36"	Clumping	Green with red tips starting in June	4-6 weeks, August	Red, airy panicles
Thundercloud	6-8'	4-5'	Clumping	Blue-green	4-6 weeks, August	Tan panicles

Perennial Grasses are an extremely diverse group of plants offering many colors, textures and forms suited to a wide range of growing conditions. Most Perennial Grasses prefer full sun (8 or more hours of direct sunlight), but many grow well in partial shade (4-8 hours of direct sunlight). Grasses with variegated leaves are more tolerant of shade conditions than Grasses with green foliage. The addition of composted manure and sphagnum peat will insure a healthy planting. These products help nurture the plant, hold moisture and aerate the soil. Perennial Grasses should be trimmed to a height of around 4" in April. You may cut them back in the fall but they tend to overwinter better if left standing until spring. Many Grasses hold their shape through the winter months adding interesting contrast, color and sound to the winter garden.

Plant Name		Height	Spread	Flower Description	Bloom Time	Special Features
AGASTACHE , Blue Fortune	☀	30-36"	18-24"	Deep blue, bottlebrush-like	2-4 weeks, July	🌸🌸 Licorice scent is unbelievable!
Kudos Coral	☀	16-20"	12-18"	Warm coral plumes	8-12 weeks, June	🌸🌸🌸 Great long blooming plant!
Kudos Mandarin	☀	16-20"	12-18"	Bright orange plumes	8-12 weeks, June	🌸🌸🌸 Great long blooming plant!
Kudos Yellow	☀	20-24"	18-24"	Yellow plumes	8-12 weeks, June	🌸🌸🌸 Great long blooming plant!
AJANIA , Gold & Silver	☀	8-12"	12-18"	Small gold buttons	1-2 weeks, early October	Beautiful gray-green foliage with silver edge.
ALLIUM , Balloon Bouquet	☀	8-16"	12-18"	Pink balloon-like	2-4 weeks, June	🌸 Glossy green, strap-like foliage.
Blue Eddy	☀	4-6"	8-12"	Clear pink, balloon-like	4-6 weeks, July	🌸 Powder blue, twisted foliage.
Blue Twister	★☀	8-12"	8-12"	Lavender-pink, globe shaped	4-6 weeks, July	🌸 Blue-green, corkscrew foliage.
Cosmic Blue	☀	12-16"	12-18"	Dusky purple, balloon-shaped	4-6 weeks, July	🌸 Powder blue, twisted foliage.
Globemaster	☀	20-24"	18-24"	Lilac-pink, globe shaped	2-4 weeks, May	🌸 Shiny green, strap-like foliage.
Millennium	☀	12-16"	12-18"	Pink-purple, globe shaped	4-6 weeks, July	🌸 2018 Perennial Plant of the Year!
Pink Giant	☀	12-16"	12-18"	Large clear pink, balloon-like	2-4 weeks, May	🌸 Shiny green, strap-like foliage.
ANCHUSA , Blue Angel	☀	8-12"	12-18"	Bright blue	2-4 weeks, late May	Near true-blue flowers.
ANEMONE , Curtain Call Deep Rose	★☀	12-16"	12-18"	Rose, semi-double	4-6 weeks, late August	🌸 Nice short and compact variety!
Japanese, Fantasy Cinderella	☀	16-20"	18-24"	Pink, single	2-4 weeks, September	🌸 Nice short and compact variety!
Pretty Lady Diana	☀	16-20"	18-24"	Pink, single	2-4 weeks, September	🌸 Nice short and compact variety!
Pretty Lady Emily	☀	16-20"	18-24"	Light pink, double	2-4 weeks, September	🌸 Nice short and compact variety!
Pretty Lady Susan	☀	16-20"	18-24"	Light pink with yellow center	2-4 weeks, September	🌸 Nice short and compact variety!
September Charm	☀	24-30"	18-24"	Silver-rose, single	2-4 weeks, September	🌸 Great late summer and fall color!
Snow Drop	☀	12-16"	12-18"	Large, white	2-4 weeks, May	🌸 Great early spring color!
Wild Swan	★☀	16-20"	12-18"	Large, white	6-8 weeks, July	🌸 Great mid summer and fall color!
ARMERIA , Bloodstone	☀	8-12"	12-18"	Rosy-red, pom-pom shaped	4-6 weeks, June	🌸 Grass-like mounds, may remain evergreen.
ARTEMISIA , Powis Castle	☀	30-36"	24-30"	-	-	🌸 Dense mounds of lacy silver foliage.
Silver Brocade	☀	8-12"	12-18"	-	-	Silvery-gray, deeply cut, interesting foliage.
Silvermound	☀	8-12"	18-24"	-	-	Fine, silver-gray foliage.
ASTER , Believer	☀	16-20"	18-24"	Dark blue	2-4 weeks, September	🌸
Dragon	☀	16-20"	18-24"	Light blue with yellow eye	2-4 weeks, August	🌸
Kickin Lavender	☀	30-36"	30-36"	Lavender with yellow eye	4-6 weeks, August	🌸
Kickin Pink Chiffon	☀	30-36"	30-36"	Pastel pink with yellow eye	4-6 weeks, August	🌸
Magic	☀	16-20"	18-24"	Purple with yellow eye	2-4 weeks, August	🌸
Pink Magic	☀	16-20"	18-24"	Pink	2-4 weeks, August	🌸
Wood's Light Blue	☀	12-16"	18-24"	Light blue	2-4 weeks, August	🌸
Wood's Purple	☀	12-16"	18-24"	Purple-blue	2-4 weeks, August	🌸
BABY'S BREATH , Summer Sparkles	☀	24-30"	30-36"	Bright white, semi-double	4-6 weeks, late June, reblooms	🌸 Good cut flower.
BACHELOR BUTTON , Blue	☀	20-24"	18-24"	Dark blue	2-4 weeks, June	🌸 Old-fashioned favorite for cut flower bouquets.
BALLOON FLOWER , Astra Pink	☀	8-12"	8-12"	Light pink	4-6 weeks, July	🌸🌸 Balloon-like buds, bell-shaped flowers.
Sentimental Blue	☀	6-8"	12-18"	Large, blue	4-6 weeks, July	🌸🌸 Excellent border or rock garden plant!
BAPTISIA	☀	30-36"	30-36"	Blue, pea-shaped	2-4 weeks, June	🌸 Blue-green, delicate foliage. Good cut flower.
BEAR'S BREECH , Hungarian	☀	20-24"	24-30"	Purple/white/pink spikes	2-4 weeks, late June	🌸 Spiny foliage up to two feet.
BEE BALM , Gardenview Scarlet	☀	30-36"	24-30"	Rich red	2-4 weeks, July	🌸🌸🌸
Raspberry Wine	☀	30-36"	24-30"	Wine-red	2-4 weeks, July	🌸🌸🌸
Sugar Buzz Blue Moon	☀	16-20"	18-24"	Lavender blue	2-4 weeks, July	🌸🌸🌸
Sugar Buzz Bubblegum Blast	☀	20-24"	30-36"	Hot pink	2-4 weeks, July	🌸🌸🌸
Sugar Buzz Cherry Pops	☀	20-24"	24-30"	Cherry red	2-4 weeks, July	🌸🌸🌸
Sugar Buzz Cotton Candy	☀	12-16"	12-18"	Light pink	2-4 weeks, July	🌸🌸🌸
Sugar Buzz Grape Gumball	☀	20-24"	18-24"	Vibrant purple	2-4 weeks, July	🌸🌸🌸
Sugar Buzz Lilac Lollipop	☀	16-20"	12-18"	Lavender-lilac	2-4 weeks, July	🌸🌸🌸
Sugar Buzz Pink Frosting	★☀	12-16"	18-24"	Pastel pink	2-4 weeks, July	🌸🌸🌸
Sugar Buzz Rockin Raspberry	☀	16-20"	12-18"	Deep raspberry purple	2-4 weeks, July	🌸🌸🌸
BELLFLOWER , Birch Hybrid	☀	6-8"	8-12"	Pale blue, bell-shaped	4-6 weeks, June	🌸🌸 Trailing. Good for rock wall or steep slope.
Iridescent Bells	☀	20-24"	12-18"	Silvery-lilac, bell-shaped	8-12 weeks, June	🌸🌸 Excellent border or rock garden plant.
Peachleaf, Takion Blue	☀	16-20"	12-18"	Lavender-blue	4-6 weeks, June	🌸🌸 Good cut flower.
Rapido Blue	☀	6-8"	6-8"	Medium blue, bell-shaped	8-12 weeks, June	🌸 Deadhead for more blooms.
Rapido White	☀	6-8"	6-8"	White, bell-shaped	8-12 weeks, June	🌸 Deadhead for more blooms.
BETONY , Hummelo	☀	16-20"	12-18"	Lavender-rose spikes	4-6 weeks, June	🌸🌸 Showy flower spikes stick up through foliage.
BLUE-EYED GRASS , Lucerne	☀	8-12"	8-12"	Bright blue, star-shaped	6-8 weeks, May	🌸 Great along walkways and in rock gardens.
BLUE STAR , Blue Ice	☀	24-30"	24-30"	Sky blue, star-shaped	2-4 weeks, June	🌸 Bright yellow fall color.
Storm Cloud	★☀	24-30"	36-48"	Periwinkle-blue, star-shaped	4-6 weeks, June	🌸 Native North American perennial.
CANDYTUFT , Alexander's White	☀	8-12"	12-18"	White	2-4 weeks, late April	🌸🌸 Excellent border or rock garden plant.
Candy Ice	★☀	6-8"	12-18"	White	2-4 weeks, May	🌸 Excellent border or rock garden plant.
Snow Cone	☀	8-12"	12-18"	White	2-4 weeks, April	🌸 Excellent border or rock garden plant.
Snowsation	★☀	6-8"	8-12"	White	2-4 weeks, April	🌸 Excellent border or rock garden plant.

Add a burst of late season color with these daisy-like flowers. New and established plants will benefit from pinching resulting in compact, bushy plants with many blooms. Pinch off 1/2" of the tips when shoots are 3-4" tall. Continue to pinch plants back until the 4th of July, then allow them to grow naturally.

Butterflies and Hummingbirds absolutely love this fragrant beauty! Once the initial flowering has ended, cut back the entire plant by 2/3, leaving 1/3 of the plant. This will promote new growth and you'll be rewarded with another dazzling display of flowers in just a few weeks! While many older varieties of Bee Balm can be quite susceptible to powdery mildew, these new varieties are extremely resistant.

Due to the possibility of conditions beyond our control, Bordine's reserves the right to be out of any item at any time.

Summer Nights	☀	8-12"	12-18"	Blue	6-8 weeks, June, reblooms	☘

Columbine is an easy to grow perennial, adding beautiful color to the spring garden. Deadheading encourages the plant to produce more blooms!

Large, daisy-like flowers provide a long display of color late in summer, continuing into fall. The flower petals reflex downward to show off its stunning cone-like center, which butterflies and hummingbirds love. Once established these beauties are heat and drought tolerant. Instead of deadheading, leave the seed heads standing to provide winter interest and a winter food source for finches and other birds.

The bright and cheery, daisy-like flowers of Coreopsis attract lots of butterflies to the garden and make an excellent cut flower. Deadhead as needed to keep them blooming for weeks on end or cut back the entire plant by 2/3 for a second bloom. They are drought tolerant once established and their reliability to come back year after year makes them extremely low maintenance.

Nothing compares to the tall spikes of gorgeous Delphinium flowers in the garden! They are an excellent choice for the center of island beds or the back of a border. Delphinium flowers also make a bold statement in cut flower arrangements!

Tie Dye	☼	4-5'	4-5'	Large, pink with white bull's eye	6-8 weeks, late July	☼☼

The short height and compact habit of Dianthus make it the perfect choice for rock gardens and borders! Many long blooming varieties add color to the garden for more than 6 weeks in summer and even longer if deadheaded. Its beautiful gray-green or blue-green, evergreen foliage provides color all season long! This low maintenance plant is drought tolerant once established and is a favorite for sunny areas.

Also known as Blanket Flower, this summer blooming favorite is covered with bold, daisy-like flowers. Once established it requires little care and is heat tolerant. Deadhead after flowering to produce more blooms.

Huge, dinner-plate size flowers! Remember: In Spring, cut back any remaining stems before new growth appears. Hibiscus don't start growing until late May or beginning of June. They require a little bit of patience, but will not disappoint you in late summer when their glorious blooms take your breath away!

Perennials Sun A-Z

Plant Name		Height	Spread	Flower Description	Bloom Time	Special Features
HOLLYHOCK , Chater's Double Purple	☀	4-5'	18-24"	Purple, double	4-6 weeks, July	Our Hollyhocks are biennial, which means the original plant will die after it flowers but the seeds produced will grow into new plants. For this reason, Hollyhocks tend to spread out and multiply.
Chater's Double Red	☀	4-5'	18-24"	Red, double	4-6 weeks, July	
Chater's Double Rose	☀	4-5'	18-24"	Rose, double	4-6 weeks, July	
Chater's Double Yellow	☀	4-5'	18-24"	Yellow, double	4-6 weeks, July	
Fiesta Time	☀	30-36"	18-24"	Fringed pink, double	4-6 weeks, July	
Mars Magic	☀	5-6'	18-24"	Red, single	4-6 weeks, July	
Zebrina	☀	42-48"	18-24"	Purple and cream bi-color	4-6 weeks, July	Use these gorgeous flowers in spring cut flower arrangements! Not only the flowers, but also the blue-green sword shaped foliage, is eye-catching in the garden. When planting the rhizomes, remember to plant them just deep enough that the tops are exposed to the sun.

Perennials Sun A-Z

Plant Name	Height	Spread	Flower Description	Bloom Time	Special Features
PEONY, Bowl of Beauty	☀️ 30-36"	30-36"	Pink with pale yellow center	2-4 weeks, late May	<p>Peonies are one of the most beloved plants in the garden! Their huge, showy blooms are often fragrant and always stunning; making excellent cut flowers! The sturdy shrub-like stems make a handsome, dark green background for your garden throughout the season. Don't worry about the ants, they are merely attracted to the sweet sap on the flower buds. They will not harm your plant nor will they pollinate it, like many people think. Itoh, or Intersectional Peonies, are a cross between a Herbaceous and Tree Peony. They have large flowers and strong stems but die back to ground level every year. Tree Peonies have gorgeous flowers that make a huge statement in the garden! They do not die back to the ground in winter as other Peonies do and therefore do not need to be cut back.</p>
Coral Charm	☀️ 30-36"	30-36"	Coral-peach, semi-double	2-4 weeks, late May	
Coral Sunset	☀️ 30-36"	30-36"	Coral-pink w/yellow, semi-double	2-4 weeks, June

Autumn Fire	☀️	12-16"	18-24"	Bronze-pink clusters	4-6 weeks, August	✦ Improved variety of Autumn Joy.
Dazzleberry	☀️	6-8"	12-18"	Raspberry red clusters	4-6 weeks, late July	✦ Succulent, blue foliage and giant flower clusters.
Frosted Fire	☆☀️	12-16"	12-18"	Rose clusters	2-4 weeks, August	✦ Succulent green foliage with cream margins.
Joyce Henderson	☀️	30-36"	18-24"	Pink clusters	2-4 weeks, July	✦ Succulent green foliage. Drought tolerant.
Mr. Goodbud	☀️	16-20"	18-24"	Dark mauve clusters	4-6 weeks, August	✦ Succulent green foliage with purple-red stems.
Neon	☀️	12-16"	18-24"	Deep rose-pink clusters	4-6 weeks, August	✦ Succulent blue-green foliage.
Night Embers	☆☀️	24-30"	24-30"	Pink clusters	2-4 weeks, August	✦ Succulent purple to near black foliage.
Rock 'N Grow Lemon Jade	☀️	16-20"	18-24"	Citron yellow clusters	4-6 weeks, August	✦ Succulent gray-green foliage.
Rock 'N Grow Pure Joy	☀️	8-12"	18-24"	Pink clusters	4-6 weeks, August	✦ Succulent light green foliage.
SNOW IN SUMMER	☀️	4-6"	18-24"	White	2-4 weeks, June	Gray-green foliage. Good border or rock garden plant!
SPURGE , Craigieburn	☀️	12-16"	12-18"	Chartreuse green	2-4 weeks, May	Dark purple-pink foliage.
Cushion, Ascot Rainbow	☀️	16-20"	12-18"	Variegated cream, lime and green	2-4 weeks, May	Green with yellow edge, ends tinted pink when cool.
Cushion, Bonfire	☀️	12-16"	12-18"	Yellow	2-4 weeks, May	Foliage emerges green then turns red.
STOKES' ASTER , Divinity	☀️	12-16"	12-18"	White	4-6 weeks, July	✦ Deadhead to produce more blooms.
Honeysong Purple	☀️	8-12"	12-18"	Purple	4-6 weeks, July	✦ Deadhead to produce more blooms.
Peachie's Pick	☀️	16-20"	12-18"	Blue	4-6 weeks, July	✦ Deadhead to produce more blooms.
STRAWBERRY , Ornamental, Lipstick	☀️	6-8"	12-18"	Rose-red	8-12 weeks, late May	Glossy dark green foliage and red fruit.
SUNFLOWER , Tuscan Gold	☆☀️	24-30"	18-24"	Golden yellow, daisy-like	6-8 weeks, late July	✦ Very heat tolerant.
TANSY , Isla Gold	☀️	20-24"	18-24"	Yellow	2-4 weeks, late July	✦ Golden, fern-like foliage. Phenomenal color!
VERONICA , Blue Skywalker	☆☀️	24-30"	18-24"	Blue spikes	4-6 weeks, July	✦ Cut back by 2/3 for second bloom.
Eveline	☀️	16-20"	12-18"	Deep purple spikes	4-6 weeks, July	✦ Cut back by 2/3 for second bloom.
Giles Van Hees	☀️	6-8"	12-18"	Bright pink spikes	4-6 weeks, June	✦ Cut back by 2/3 for second bloom.
Moody Blues Dark Blue	☀️	16-20"	12-18"	Dark blue spikes	8-12 weeks, June	✦ Great long blooming variety!
Perfectly Picasso	☆☀️	20-24"	18-24"	Pink spikes	4-6 weeks, July	✦ Cut back by 2/3 for second bloom.
Red Fox	☀️	12-16"	12-18"	Red spikes	4-6 weeks, June	✦ Cut back by 2/3 for second bloom.
Very Van Gogh	☀️	16-20"	8-12"	Rosy-purple spikes	2-4 weeks, June	✦ Cut back by 2/3 for second bloom.
YARROW , Apricot Delight	☀️	12-16"	18-24"	Range of pale apricot or red	2-4 weeks, June	✦ Finely cut foliage. Good cut flower.
New Vintage Rose	☀️	12-16"	8-12"	Bright rose	4-6 weeks, June	✦ Compact variety that holds its shape well.
New Vintage Violet	☀️	12-16"	8-12"	Vibrant violet	4-6 weeks, June	✦ Compact variety that holds its shape well.
Saucy Seduction	☀️	20-24"	18-24"	Fuchsia pink	4-6 weeks, June	✦ Finely cut foliage. Good cut flower.
Song Siren Angie	☀️	20-24"	12-18"	Bright pink	4-6 weeks, June	✦ Finely cut foliage. Good cut flower.
Song Siren Layla	☀️	20-24"	12-18"	Deep violet-rose	4-6 weeks, June	✦ Finely cut foliage. Good cut flower.
Strawberry Seduction	☀️	16-20"	18-24"	Velvety red with gold eye	2-4 weeks, June	✦ Good cut flower, fresh or dried.
Sunny Seduction	☀️	20-24"	18-24"	Lemon yellow fades to pastel yellow	4-6 weeks, June	✦ Good cut flower, fresh or dried.
YUCCA , Color Guard	☀️	20-24"	24-30"	White bell shaped, 3-4' stalks	2-4 weeks, July	Green foliage with creamy yellow center.

Brilliant flower spikes stand up nicely above the fragrant green foliage. To promote new growth and additional flowering, cut back the entire plant by 2/3 once the initial display of flowering has ended, leaving 1/3 of the plant.

Dividing & Fertilizing Perennials

Although some perennials can grow in the same location for many years, most need to be divided at some time. The most noticeable indications of this are when the plant dies out in the center, flowering decreases or the plant has grown too large for the space. Spring is the best time for dividing most plants as the plant has not yet leafed out and is easier to handle. However, early fall is also a good time to divide. The plant has slowed down its growth by then and can be trimmed back for better manageability. Spring blooming plants such as Peony and Iris should be divided in fall after they are done blooming. This allows the plant to focus its energy on creating beautiful flowers in spring, rather than being stressed out and trying to establish a new root system at the same time. To divide, dig the clump out of the ground using a spade or garden fork. Break the plant into several pieces using your hands to pull it apart or use a spade or knife to cut it into smaller clumps.

Fertilize in the spring when new growth begins using a slow release fertilizer such as **Bordine's Better Blooms™ Perennial, Tree & Shrub Food**. Fertilize once a month during the growing season ending by late July so that your plants can harden off properly in preparation for winter.

Shrubs

Plant Name	Height	Spread	Flower Color	Blooms	Special Features
ABELIA , Sweet Emotion 	5-6'	5-6'	pink	May-June	 Red-pink buds open to fragrant pink ball-shaped blooms; orange-red fall color
ALMOND , Flowering, Double Pink	4-5'	3-4'	light pink	May	 Double pink flowers; coppery-yellow fall color; upright arching habit
ALTHEA Also known as Rose of Sharon. These are one of the best shrubs for late summer color.					
Arden	8-10'	6-8'	violet	Aug-Sept	 Semi-double to double violet flowers; yellow fall color
Bali	6-8'	5-6'	white	Aug-Sept	 Semi-double white flowers with a deep red center; yellow fall color
Blueberry Smoothie	6-8'	5-6'	blue-purple	Aug-Sept	 Double bluish-purple blueberry flowers; yellow fall color; compact habit
Blushing Bride	8-10'	6-8'	pink	Aug-Sept	 Double, rich pink flowers; yellow fall color
Chiffon Blue	8-10'	6-8'	rich blue	Aug-Sept	 Large, single flowers with lacy centers; yellow fall color
Chiffon Lavender	8-10'	6-8'	lavender	Aug-Sept	 Large, single flowers with lacy centers; yellow fall color
Chiffon Pink	8-10'	6-8'	pink	Aug-Sept	 Large, clear pink flowers with lacy centers; yellow fall color
Fiji	6-8'	5-6'	pink with red	Aug-Sept	 Semi-double, light pink flowers with a deep reddish-purple center
Lil' Kim	3-4'	3-4'	white	Aug-Sept	 Single white flowers with a red center; yellow fall color; compact habit
Lil' Kim Red	3-4'	3-4'	rosy-red	Aug-Sept	 Large, single rosy-red flowers with a red center; yellow fall color; compact habit
Lil' Kim Violet	3-4'	3-4'	plum-violet	Aug-Sept	 Large, single plum-violet flowers with a red center; yellow fall color; compact habit
Polly Petite 	3-4'	3-4'	lavender-purple	July-Aug	 Lavender-purple flowers with ruffled edges; rounded habit with large green leaves
Purple Pillar	8-10'	2-3'	purple	Aug-Sept	 Large, semi-double purple flowers with a darker center; narrow upright habit
Raspberry Smoothie	6-8'	5-6'	raspberry-pink	Aug-Sept	 Double raspberry-pink flowers; yellow fall color
Satin Azurri Blue	8-10'	6-8'	royal blue	Aug-Sept	 Large, single royal blue flowers with a red center; seedless variety
Sugar Tip	6-8'	5-6'	clear-pink	Aug-Sept	 Double, clear pink flowers; blue-green leaves with creamy-white margins
Summer Ruffle	5-6'	4-5'	pink-lavender	Aug-Sept	 Double, dark pink-lavender flowers; blue-green leaves with creamy white margins
Tahiti	6-8'	5-6'	deep purple pink	Aug-Sept	 Semi-double, deep pink-purple flowers with a red center; yellow fall color
AMELANCHIER , Regent	5-6'	5-6'	white	April	Edible purple fruit in June (birds); shiny green leaves with orange-red fall color
Standing Ovation	12-15'	3-4'	white	April	Edible purple fruit in June (birds); orange-red fall color
ARONIA , Black, Autumn Magic	4-5'	4-5'	white	June	 Lustrous black fruit; green leaves turn reddish-purple in fall
Low Scape Mound 	1-2'	2-3'	white	June	 Purple-black fruit; glossy green foliage; red-orange fall color; compact habit
Red, Brilliant	6-8'	5-6'	white	May	 Red fruit in fall; glossy green leaves turn scarlet-red in fall
AZALEA , Deciduous These varieties lose their leaves each fall, making them VERY cold tolerant, as well as reliable bloomers each spring.					
Cannon's Double	5-6'	3-4'	light peach	May	 Double, light peach flowers with layers of pink and cream
Gibraltar	5-6'	5-6'	orange	May	 Vivid orange flowers with red frilled edges; yellow-bronze fall color
Klondyke	5-6'	4-5'	golden-orange	May	 Leaves emerge a coppery-green maturing to green; yellow-bronze fall color
Mount St. Helens	6-8'	5-6'	light pink blend	May	 Light pink flowers blended with yellow and white
BARBERRY One of the best shrubs for season-long foliage color. Easy to grow and tolerates heavy shearing - great for hedges.					
Bonanza Gold	1-2'	2-3'	-	-	Bright golden leaves all season; compact habit
Concorde	1-2'	2-3'	-	-	Deep red-purple leaves; slow growing and compact habit
Golden Ruby	1-2'	1-2'	-	-	Coral-orange new growth matures to burgundy with gold margins; compact habit
Helmond Pillar	4-5'	2-3'	-	-	Deep purple leaves all season; narrow columnar habit; good for narrow hedges
Limoncello	3-4'	3-4'	-	-	Chartreuse leaves with irregular red margins; mounding to rounded habit
Orange Rocket	3-4'	2-3'	-	-	Coral-orange new growth matures to reddish-green; dark red fall color; columnar habit
Rose Glow	4-5'	5-6'	-	-	New leaves emerge dark rose marbled with pink, mature to dark purple
Royal Burgundy	1-2'	3-4'	-	-	Velvet burgundy leaves; red-black fall color; compact habit
Sunjoy Gold Pillar	3-4'	2-3'	-	-	Bright golden leaves, new growth emerges red; orange-red fall color; columnar habit
BAYBERRY , Northern	6-8'	6-8'	-	-	Glossy green leaves with unique fresh scent; semi-evergreen
BEAUTYBERRY , Pearl Glam	4-5'	3-4'	white	June	Deep purple leaves; purple berries in fall; woody perennial

Deer Resistant Shrubs & Shrubs for the Shade

There are very few plants on which **DEER** will not feed if other food sources are not available. However, the shrubs on this list are ones that the deer are most likely to ignore.

Abelia  Butterfly Bush  Deutzia  Kerria  Privet  Sweetshrub  
 Barberry  Clethra   Diervilla  Lilac*  Spirea*  Viburnum*  
 Bluebeard  Cotoneaster  Forsythia  Potentilla  Sumac*   Weigela 

Have a lot of **SHADE** in your landscape? Not to worry! The shrubs on the list below will do well in part to full shade conditions.

Althea  Buckthorn, Fine Line  Daphne  Dogwood  Hypericum  Spirea  Viburnum 
 Amelanchier  Clethra   Diervilla  Fothergilla  Kerria  Sumac, Fragrant   Witchhazel 
 Aronia  Currant   Diervilla  Hydrangea  Mockorange  Sweetspire

Shrubs

Plant Name		Height	Spread	Flower Color	Blooms	Special Features
BLUEBEARD , Beyond Midnight	☼	2-3'	2-3'	rich blue	Aug-Sept	☼☼ Profuse clusters of flowers; dark green glossy foliage; woody perennial
Li' Miss Sunshine	☼	2-3'	2-3'	purple-blue	Aug-Sept	☼☼ Profuse clusters of flowers; shiny bright yellow foliage; woody perennial
Petit Bleu	☼	2-3'	2-3'	light blue	Aug-Sept	☼☼ Profuse clusters of flowers; dark green glossy foliage; woody perennial
BROOM (SCOTCH) , Burkwood	☼	3-4'	2-3'	garnet red	May	Garnet-red flowers w/ yellow throats produced along attractive angular green stems
Lena	☼	3-4'	2-3'	orange-red	May	Orange-red flowers w/ yellow throats produced along attractive angular green stems
Madame Butterfly	☼	3-4'	2-3'	yellow-orange	May	Yellow-orange flowers w/ red throats produced along attractive angular green stems
BUCKTHORN , Fine Line	☼☼	8-10'	2-3'	-	-	Fern-like green leaves; narrow columnar hedge ideal for screening
BURNING BUSH , Dwarf	☼	5-6'	6-8'	-	-	Green leaves turn shades of red in fall; attractive corky stems in winter
BUTTERFLY BUSH , Blue Chip JR	☼	1-2'	2-3'	light purple	July-frost	☼☼☼
Blue Heaven	☼	2-3'	2-3'	blue	July-frost	☼☼☼
CranRazz	☼	5-6'	4-5'	deep magenta	July-frost	☼☼☼
Miss Molly	☼	4-5'	5-6'	magenta	July-frost	☼☼☼
Miss Violet	☼	4-5'	5-6'	purple-violet	July-frost	☼☼☼
Pink Delight	☼	6-8'	5-6'	bright pink	July-frost	☼☼☼
Pink Micro Chip	☼	1-2'	2-3'	mauve-pink	July-frost	☼☼☼
Pugster, Blue	☆☼	1-2'	2-3'	violet-blue	July-frost	☼☼☼
Periwinkle	☆☼	1-2'	2-3'	periwinkle	July-frost	☼☼☼
Pink	☆☼	1-2'	2-3'	taffy pink	July-frost	☼☼☼
White	☆☼	1-2'	2-3'	white	July-frost	☼☼☼
Purple Haze	☼	2-3'	4-5'	purple-blue	July-frost	☼☼☼
Tutti Fruiti	☼	2-3'	2-3'	fuchsia-pink	July-frost	☼☼☼
BUTTONBUSH , Sugar Shack	☼☼	3-4'	4-5'	white	August	☼☼☼ Red fruit in fall; glossy green leaves turn burgundy in fall
CLETHRA		Great shrub for late summer color, especially in perennial gardens. Tolerates occasional wetness.				
Einstein	☆☼	4-5'	4-5'	white	July-Aug	☼☼☼ Unique long, twisted, fragrant white flowers; green leaves turn yellow in fall
Hummingbird	☼	3-4'	2-3'	white	July-Aug	☼☼☼ Compact growth habit; dark green leaves turn yellow in fall
Ruby Spice	☼	5-6'	4-5'	deep pink	July-Aug	☼☼☼ Dark green leaves turn yellow in fall; prefers moist conditions
COTONEASTER		Useful in the landscape as a wide spreading shrub or ground cover. Easily pruned to maintain size.				
Little Dipper	☆☼	8-12"	3-4'	white	June	☼ Low-growing dense green foliage turns orange-red in fall; red berries in summer
Tom Thumb	☼	8-12"	2-3'	white-pink	June	☼ Tiny green leaves turn red in fall; sparse small red fruit in fall
CURRENT , Alpine, Green Mound	☼☼	2-3'	3-4'	-	-	Dark green leaves turn yellow in fall; excellent hedge plant
DEUTZIA , Yuki Cherry Blossom	☼	1-2'	2-3'	pink & white	May	☼☼ Dark green leaves turn burgundy-red in fall; compact mounding habit
Yuki Snowflake	☼	1-2'	2-3'	white	May	☼☼ Small green leaves turn purple and burgundy in fall; compact mounding habit
DIERVILLA , Kodiak Black	☼	3-4'	4-5'	yellow	June	☼☼ Trumpet shaped flowers; dark burgundy-black foliage
Kodiak Orange	☼	3-4'	4-5'	yellow	June	☼☼ Trumpet shaped flowers; green foliage turns a glowing orange in fall
Kodiak Red	☼	3-4'	4-5'	yellow	June	☼☼ Trumpet shaped flowers; bright red foliage in spring and fall
DOGWOOD		Enjoy the colorful stems in the fall and winter, especially with a backdrop of snow. Tolerates moist conditions.				
Arctic Fire	☼☼	4-5'	5-6'	white	June	☼ Dark green leaves, reddish-purple fall color; red stems in winter
Garden Glow	☼☼	5-6'	6-8'	white	June	☼ Bright lime green leaves in spring, maturing to gold; burgundy fall color; red stems
Ivory Halo	☼	5-6'	6-8'	white	June	☼ Green and white variegated leaves turn reddish-purple in fall; red stems
Neon Burst	☆☼	5-6'	5-6'	white	June	☼ Chartreuse leaves turn purple/red/orange in fall; bright red stems
Red Rover	☼	4-5'	5-6'	white	June	☼ Green leaves turn bright red in fall; red stems add winter interest
Redtwig, Bailey	☼	8-10'	8-10'	white	June	☼ Green leaves turn reddish-purple in fall; red stems; ideal for wet, naturalized areas
ELDER , Black Lace	☼	6-8'	6-8'	pink	June-July	☼☼ Fine, deeply cut dark burgundy leaves; rich red in fall; blackish-red berries in fall
Black Tower	☼	6-8'	3-4'	pink	July	☼☼ Glossy dark burgundy leaves all season; upright growth habit, ideal for hedges
Golden Tower	☆☼	6-8'	3-4'	white	July	☼☼ Shimmering golden lacey leaves; upright growth habit
Laced Up	☆☼	6-8'	3-4'	pink	June-July	☼☼ Fine, deeply cut dark burgundy leaves on curvy stems; narrow upright habit
Lemony Lace	☼	4-5'	5-6'	white	June	☼☼ Deeply cut, yellow-green leaves; new growth emerges red; red berries in fall
FORSYTHIA		Bright, cheerful color to signal the end of winter. One of the first shrubs to bloom in spring with masses of flowers.				
Lynwood Gold	☼	6-8'	6-8'	brilliant yellow	April	Flowers open wider than other forsythias; upright to spreading habit
Show Off	☼	5-6'	5-6'	bright yellow	April	Large flowers; dark green foliage; round compact habit
Starlet	☼	2-3'	3-4'	bright yellow	April	Medium green foliage; low-mounding compact habit ideal for small areas
Sugar Baby	☼	2-3'	3-4'	bright yellow	April	Dark green foliage; small compact shape ideal for small areas
FOTHERGILLA , Blue Shadow	☼	2-3'	3-4'	white	May	☼ Attractive blue-gray leaves turn gold-orange in fall; bottle-brush flowers
Mount Airy	☼	5-6'	4-5'	white	May	☼ Dark green leaves turn orange-red in fall; bottle-brush flowers
HOLLY , Winterberry Family		Native to Michigan, Winterberry grows best in moist areas. Our varieties contain both male and female plants together.				
Berry Nice	☼	6-8'	6-8'	white (small)	May	Abundance of bright red berries produced in fall and winter; great berry retention
Little Goblin Orange	☼	4-5'	4-5'	white (small)	May	Large, bright orange berries produced in fall and winter; compact habit
Little Goblin Red	☼	4-5'	4-5'	white (small)	May	Large, rich red berries produced in fall and winter; compact habit ideal for small areas
HONEYSUCKLE , Honeyrose	☼	8-10'	8-10'	ruby red	May	☼☼ Red berries in summer attracts birds; good for hedging

Butterfly Bush will attract an amazing array of butterflies & hummingbirds to your garden. They begin blooming in early July and will continue until frost if spent flowers are removed & plants are watered & fertilized during the season. Although the plants have woody stems, they behave more like a perennial. Plants will die-back to near ground level after cold winters so prune plants down to 12" in early spring.

Pugster varieties of Butterfly Bush combine a dwarf habit with large showy blooms perfect for a smaller landscape! Their thick sturdy stems also provide additional winter hardiness.

Shrubs

Plant Name		Height	Spread	Flower Color	Blooms	Special Features
HYDRANGEA Please refer to our Hydrangea care sheet for more information on how to select and grow these truly outstanding garden plants.						
ANNABELLE VARIETIES Blooms on NEW growth for very reliable flowering; very cold hardy; excellent shrub for hedge use or as a stand alone specimen.						
Annabelle	☀️	3-4'	4-5'	white	July-Aug	♣️ Blooms on NEW growth; large, white snowball-shaped flowers; dark green leaves
Incrediball	☀️	4-5'	4-5'	white	July-Aug	♣️ Blooms on NEW growth; massive snowball-shaped flowers on thick stems
Blush	☆☀️	4-5'	4-5'	blush pink	July-Aug	♣️ Blooms on NEW growth; large blush-pink snowball-shaped flowers
Invincibelle Limetta	☆☀️	2-3'	3-4'	green-white	July-Aug	♣️ Blooms on NEW growth; Lime-green buds open to greenish-white flowers; rebloomer
Mini Mauvette	☆☀️	2-3'	3-4'	mauve-purple	July-Aug	♣️ Blooms on NEW growth; Mauve-purple snowball-shaped flowers; rebloomer
Ruby	☀️	2-3'	3-4'	silvery-pink/red	July-Aug	♣️ Blooms on NEW growth; silvery-pink to red snowball-shaped flowers; rebloomer
Wee White	☆☀️	2-3'	3-4'	white	July-Aug	♣️ Blooms on NEW growth; white snowball-shaped flowers mature to pink and green; rebloomer
BIGLEAF VARIETIES Blooms on OLD growth or both NEW and OLD growth; most varieties have the unique ability to change flower color based on the pH of the soil.						
Cherry Explosion	☀️	2-3'	3-4'	cherry-pink	July-Aug	♣️ Blooms on NEW/OLD growth; cherry-pink lacecap flowers (color depends on soil pH)
Double Delight's Perfection	☀️	2-3'	3-4'	blue or pink	July-Aug	♣️ Blooms on NEW/OLD growth; Snowball-shaped flowers w/ double florets; color depends on soil PH
Endless Summer A revolutionary Hydrangea Series introduced in 2004; noted for its reliable flowering on NEW growth and summer-long color.						
Bloomstruck	☀️	2-3'	3-4'	pink/violet/blue	July-Aug	♣️ Blooms on NEW/OLD growth; snowball-shaped flowers; attractive red stems w/green leaves
The Original	☀️	2-3'	3-4'	blue or pink	July-Aug	♣️ Blooms on NEW/OLD growth; large snowball-shaped flowers; glossy green leaves
Twist-N-Shout	☀️	3-4'	3-4'	blue or pink	July-Aug	♣️ Blooms on NEW/OLD growth; large lacecap flowers; green leaves with burgundy-red fall color
Fuchsia Glow	☀️	2-3'	3-4'	fuchsia-pink	July-Aug	♣️ Blooms on NEW/OLD growth; vibrant fuchsia-pink snowball-shaped flowers
LA Dreamin'	☀️	2-3'	2-3'	pink/violet/blue	July-Aug	♣️ Blooms on NEW/OLD growth; pink & blue blended snowball-shaped flowers
Let's Dance, Blue Jangles	☀️	2-3'	3-4'	blue or pink	July-Aug	♣️ Blooms on NEW/OLD growth; large mophead flowers; color depends on soil pH
Rave	☀️	2-3'	2-3'	blue or pink	July-Aug	♣️ Blooms on NEW/OLD growth; large mophead flowers; color depends on soil pH
Rhythmic Blue	☀️	2-3'	3-4'	blue or pink	July-Aug	♣️ Blooms on NEW/OLD growth; mophead flowers; green foliage with yellow-orange fall color
Nantucket Blue	☀️	2-3'	3-4'	blue or pink	July-Aug	♣️ Blooms on NEW/OLD growth; large, snowball-shaped flowers; color depends on soil pH
Pistachio	☀️	2-3'	3-4'	purple/green/red	July-Aug	♣️ Blooms on NEW/OLD growth; blended flowers of green, pinkish-red and purple
Revolution	☀️	2-3'	3-4'	pink/blue/green	July-Aug	♣️ Blooms on NEW/OLD growth; pink or blue flowers w/green highlights; color depends on soil pH
Wedding Ring	☀️	2-3'	3-4'	soft pink or blue	July-Aug	♣️ Blooms on NEW/OLD growth; mophead flowers of soft pink or blue edged in white
MOUNTAIN VARIETIES Blooms on NEW and OLD growth for more reliable flowering; some varieties have the ability to change flower color based on the pH of the soil.						
Tiny Tuff Stuff	☀️	1-2'	1-2'	blue or pink	July-Aug	♣️ Blooms on NEW/OLD growth; lacecap flowers; dark green leaves with bronze-red fall color
Tuff Stuff	☀️	2-3'	3-4'	blue or pink	July-Aug	♣️ Blooms on NEW/OLD growth; lacecap flowers; dark green leaves with bronze-red fall color
Tuff Stuff Red	☀️	2-3'	3-4'	red/green	July-Aug	♣️ Blooms on NEW/OLD growth; two-toned red & green lacecap flowers mature to dark reddish-pink
OAKLEAF VARIETIES Blooms on OLD growth for moderately reliable flowering; large oak-shaped leaves develop stunning shades of red and burgundy in fall.						
Gatsby Gal	☀️	5-6'	5-6'	white	June-July	♣️ Blooms on OLD growth; large cone-shaped flowers; green oak-shaped leaves turn wine-red in fall
Gatsby Pink	☀️	5-6'	5-6'	white	June-July	♣️ Blooms on OLD growth; cone-shaped white flowers mature to pink; green leaves turn red in fall
Ruby Slippers	☀️	3-4'	4-5'	white	late June	♣️ Blooms on OLD growth; cone-shaped white flowers turn to pinkish-red; green leaves turn red in fall
PEEGEE VARIETIES One of the most cold hardy varieties; blooms on NEW growth for very reliable flowering; some varieties also available in treeform.						
Bobo	☀️	3-4'	3-4'	white	June-July	♣️ Blooms on NEW growth; white cone-shaped flowers mature to a light pink
Fire Light	☀️	5-6'	5-6'	white	July-Aug	♣️ Blooms on NEW growth; large, white cone-shaped flowers mature to pink then rich red
Limelight	☀️	6-8'	6-8'	white	July-Aug	♣️ Blooms on NEW growth; bright lime-green buds open to large, white cone-shaped flowers
Little Lime	☀️	4-5'	4-5'	white	July-Aug	♣️ Blooms on NEW growth; bright lime-green buds open to compact white flowers
Little Quick Fire	☀️	4-5'	4-5'	white	June-July	♣️ Blooms on NEW growth; white cone-shaped flowers mature to a rich deep pink-rose
Pinky Winky	☀️	6-8'	6-8'	white	July-Aug	♣️ Blooms on NEW growth; large, white cone-shaped flowers mature to a pink with white tips
Strawberry Sundae	☀️	4-5'	3-4'	white	July-Aug	♣️ Blooms on NEW growth; large, white cone-shaped flowers age to pink then strawberry-red
Sweet Summer	☀️	4-5'	5-6'	white	July-Aug	♣️ Blooms on NEW growth; large, white cone-shaped flowers mature to shades of pink
Vanilla Strawberry	☀️	6-8'	5-6'	white	July-Aug	♣️ Blooms on NEW growth; large, white cone-shaped flowers age to pink then strawberry-red
Zinfin Doll	☀️	6-8'	5-6'	white	July-Aug	♣️ Blooms on NEW growth; large, white cone-shaped flowers mature to a deep reddish-pink

Hydrangea Care

Hydrangeas provide outstanding garden interest with large, colorful flowers during July and August. Knowing how to properly care for these garden favorites can help maximize their performance in your landscape.

Fertilization - Hydrangeas perform best if given two applications of a slow release fertilizer such as **Bordine's Better Blooms™ Perennial, Tree & Shrub** food each year. **Holly-tone** is a great alternative as a natural fertilizer.

Flower Color - Many varieties of Bigleaf and Mountain Hydrangeas have the ability to change flower color depending on the pH of the soil. <As a general rule, the following colors will result at these various pH levels. - pH between 5.5 & 6.0.....very blue - pH between 7.0 & 7.5..... very pink> A simple soil pH test can be used to determine the pH of your soil. Most soils in our area will naturally produce pink flowers. Adding Aluminum Sulfate will lower the pH of the soil and increase the blue color. Amending the pH of the soil should be done in May before the flower buds are set. This usually needs to be done every year to maintain a lower pH for blue flowers.

Pruning Hydrangeas-

Annabelle and Peegee Varieties - No pruning is really necessary except to remove spent flowers, broken or entangled branches or for general shaping. Prune in early spring before new growth emerges.

Oakleaf, Bigleaf and Mountain Varieties - Delay spring pruning until new growth has fully emerged. At this time, remove any winter damaged tips or stems that have not produced leaves. Prune to shape after flowering.

Shrubs

Plant Name		Height	Spread	Flower Color	Blooms	Special Features
HYPERICUM , Sunburst	☀	2-3'	3-4'	yellow	July-Aug	✦ Bright golden flowers; blue-green leaves turn yellow in fall; woody perennial

roses simplified

Roses can be a beautiful addition to your garden and can be planted any time from spring to fall. Consider these basic planting tips and general care before planting your roses.

- Plant in an area receiving at least 6 hours of direct sunlight. Morning sun and late afternoon shade are ideal to help prevent disease and maintain optimal flower color.
- Locate roses away from large trees or shrubs which will compete for food, moisture and sunlight.
- Roses perform best in well-drained soil high in organic matter. Poor soil conditions can be improved by using such products as **Bordine Complete Planting Mix** and **Bumper Crop Organic Soil Builder**.
- Water close to the base of your roses without watering the foliage. Avoid watering with overhead sprinklers if at all possible. Wet foliage can lead to disease problems, especially if left moist overnight.
- To maintain cool and moist roots and to help prevent weeds apply 2" of mulch around the base of your roses. Consider organic mulches such as Pine Bark or Pine Straw. Remove and replace mulch each spring to help prevent disease.
- Roses require a constant supply of nutrients. Fertilize with **Rose-tone** at the beginning of the growing season and every 4 weeks after. Stop fertilizing mid August to allow roses to harden off before winter.

To help prevent and control common rose diseases, apply **Bonide® Infuse™** as directed. For additional rose systemic disease control, care, products and supplies, visit our Garden Store today!

Stewartsonian	☼	4-5'	5-6'	bright red	May	✚ Brick-red flowers; dark green leaves with wine tint in spring and fall
Tradition	☼	3-4'	4-5'	pink	May	✚ Pink flowers; dark green leaves turn bronze-green in fall
BOXWOOD May be sheared into formal shapes or allowed to grow more naturally. One of the few plants that deer will not eat.						
Baby Gem	☼	2-3'	3-4'	-	-	Bright green leaves; bronze-green in winter; compact, rounded habit
Green Gem	☼	3-4'	3-4'	-	-	Small dark green leaves/good winter color; slow growing-compact habit
Green Mound	☼	2-3'	3-4'	-	-	Glossy dark green leaves/good winter color; compact, mounded habit
Green Mountain	☼	4-5'	2-3'	-	-	Green leaves/good winter color; dense upright habit
Green Mountain Pyramidal	☼	4-5'	2-3'	-	-	Green leaves/good winter color; pruned to upright, pyramidal habit
Green Velvet	☼	2-3'	3-4'	-	-	Green leaves/good winter color; spreading habit
Sprinter	☼	3-4'	3-4'	-	-	Glossy, bright green leaves; bronze-green winter color; compact habit
Wedding Ring	☼	2-3'	2-3'	-	-	Bright green leaves edged in lime-green; golden-yellow in summer; compact habit
Winter Gem	☼	3-4'	4-5'	-	-	Bright, glossy green leaves/bronze-green winter color; spreading habit
EUONYMUS Very colorful and versatile. Can be trimmed into tight habits or allowed to roam and become ground cover-like.						
Emerald 'N Gold	☼	2-3'	3-4'	-	-	Small green leaves edged with yellow; mounded/spreading habit
Emerald Gaiety	☼	2-3'	3-4'	-	-	Small green leaves edged with white; mounded/spreading habit
Moonshadow	☼	1-2'	4-5'	-	-	Glossy green leaves with yellow centers; low mounded/spreading habit
HOLLY Cherished for their beautiful, glossy foliage. Blue female varieties produce attractive red fruit in the fall.						
Blue Maid Pyramidal	☼	8-10'	5-6'	white	May	Shiny blue-green leaves; red berries in fall; pollinate with Blue Prince
Blue Prince	☼	6-8'	5-6'	white	May	Shiny dark blue-green leaves; male pollinator for Blue Princess
Blue Princess	☼	6-8'	5-6'	white	May	Dark blue-green leaves; red berries in fall; pollinate with Blue Prince
Emerald Magic	☼	2-3'	3-4'	-	-	Small dark blue-green leaves turn purplish-green in winter; male pollinator
Honey Maid	☼	6-8'	5-6'	white	May	Dark blue-green leaves w/creamy yellow margins; pollinate with Blue Prince
Inkberry, Gem Box	☼	2-3'	2-3'	white	May	Small, dark green leaves tipped with red in spring; small compact habit
Royal Family	☼	6-8'	5-6'	white	May	Male & female plants combines in same pot for reliable red berries in fall
PIERIS Pendulous clusters of buds form in late summer, producing beautiful flowers the following spring. Bronze-green fall color.						
Dorothy Wycoff	☼	4-5'	3-4'	pink-white	April-May	☼ Red buds open to clusters of pale-pink to creamy-white bell-shaped flowers
Katsura	☼	5-6'	4-5'	rose-white	April-May	☼ Rose-white bell-shaped flowers; wine-red new growth matures to dark green
Red Mill	☼	5-6'	4-5'	white	April-May	☼ White bell-shaped flowers; bright red new growth matures to dark green
RHODODENDRON Choose from a wide variety of flower colors, plant sizes and semi-evergreen leaf characteristics. Blooms last up to 2 weeks.						
Dwarf , Baden Baden	☼	2-3'	3-4'	cherry-red	May	✚ Dark green, slightly twisted leaves all season; compact habit
Biloxi Blues	☼	2-3'	2-3'	lavender	May	✚ Small gray-green leaves; compact rounded habit
Grape Jam	☼	1-2'	2-3'	lavender	May	✚ Narrow green leaves; compact to spreading habit
Karin Seleger	☼	2-3'	2-3'	violet-purple	May	✚ Dark green leaves, bronze-green in winter; compact habit
Largeleaf , Calsap	☼	6-8'	5-6'	white w/purple	May	✚ Bright emerald green leaves; White flower w/purple blotch
Capistrano	☼	4-5'	5-6'	bright yellow	May	✚ Unique color; large green leaves form compact mounding habit
Chionoides	☼	4-5'	5-6'	white	May	✚ Ivory-white flowers with yellow centers; compact spreading habit
Holden	☼	4-5'	5-6'	rosy-pink	May	✚ Large glossy green leaves; round to spreading habit
Nova Zembla	☼	6-8'	6-8'	dark red	May	✚ Dark red flowers with darker red spots; rounded habit
Polar Night	☼	5-6'	5-6'	purple w/burgundy	May	✚ Purple flowers with burgundy blotch; round to spreading habit
Roseum Elegans	☼	6-8'	6-8'	rosy-lavender	May	✚ Large dark green leaves; rounded habit
PJM	☼	4-5'	4-5'	lavender pink	May	✚ Medium-sized dark green leaves turn purplish in winter
Landmark	☼	4-5'	4-5'	purplish-red	May	✚ Medium sized dark green leaves turn mahogany-bronze in winter
Olga Mezzitt	☼	4-5'	4-5'	pink	May	✚ Medium-sized green leaves turn light red in winter
Yaku , Pana	☼	2-3'	3-4'	pink	May	✚ Large green leaves with silvery-white felt-like undersides
Prince	☼	2-3'	3-4'	pinkish-white	May	✚ Large green leaves with silvery-white felt-like undersides

An Eastern exposure is the preferred placement for this group of plants. Most Broadleaf Evergreens enjoy morning sun for their foliage and flowering vigor, but prefer to keep cool in the afternoon shade. Just as important is the protection found here during the winter months when strong winds and sunlight can severely damage the leaves and buds.

Evergreens-Spreading

Plant Name		Height	Spread	Shape	Special Features
ARBORVITAE These selections have soft textured foliage that needs minimal pruning. Nice in groupings or as a hedge.					
Anna's Magic Ball	☀	1-2'	2-3'	compact globe	Bright golden-yellow foliage; bronze tones in winter
Danica	☀☀	1-2'	2-3'	compact/spreading	Bright emerald-green foliage; retains good color through winter
Fire Chief	☀	3-4'	3-4'	compact/rounded	Fine golden foliage with orange-red tips; turns reddish in fall/winter
Golden Globe	☀	5-6'	5-6'	broad globe	Golden yellow to yellow green foliage; bronze-yellow in winter
Hetz Midget	☀☀	2-3'	3-4'	compact globe	Rich light green foliage; requires very little pruning
Little Giant	☀☀	3-4'	3-4'	compact globe	Rich green foliage; retains good color through winter
Mr. Bowling Ball	☀	2-3'	2-3'	compact/rounded	Dense and fine textured sage-green foliage; requires very little pruning
Pancake	☆☀	1-2'	2-3'	flattened-round	Fine textured blue-green foliage turns deeper blue in fall
CYPRESS, Siberian					
Threadleaf, Mops	☀☀☀	8-12"	5-6'	low spreading	Bright green lacy foliage turns copper colored in fall and winter
JUNIPER From ground covers to spreading and rounded shapes, Junipers are a tough and durable evergreen for many uses.					
Andorra, Youngstown	☀	1-2'	5-6'	wide spreading	Soft grayish-green foliage turns purplish in winter
Blue Pacific	☀	8-12"	5-6'	low spreading	Distinctive bright blue-green clustered foliage; good winter color
Blue Rug	☀	4-6"	5-6'	ground hugging	Intense silver-blue foliage all season; develops purplish cast in winter
Blue Star	☀	2-3'	3-4'	dense mounded	Steel blue star-shaped foliage; purplish cast in winter
Calgary Carpet	☀	8-12"	5-6'	low spreading	Soft green foliage; retains good color through winter; layered branches
Daub's Frosted	☀	2-3'	5-6'	low spreading	Bright golden frosted foliage with bluish-green undertones
Golden Pacific	☀	8-12"	5-6'	low spreading	Bright golden-yellow clustered foliage; bronzy-plum winter tones
Green Carpet	☀☀	8-12"	5-6'	low spreading	Bright green foliage matures to a thick dark green carpet; good winter color
Icee Blue	☀	4-6"	5-6'	low-trailing	Luminescent silvery-blue foliage; retains good color through winter
Procumbens Dwarf	☀	8-12"	5-6'	low spreading	Bluish-green foliage; mounded center and trailing branches
Sea Green	☀	5-6'	6-8'	spreading	Lacy, bright mint-green foliage; spreading habit with arching branches
Sea of Gold	☀	3-4'	5-6'	compact spreading	Bright yellow lacy foliage; retains good color through winter
PINE These shrubs have longer needles than other spreading evergreens & add a unique, textured look to the landscape.					
Mugo, Mops	☀	3-4'	4-5'	globe to spreading	Dark green needles; retains good color through winter; dense
Mugo, Slowmound	☀	2-3'	3-4'	globe to spreading	Compact, dark green needles; deep green color through winter; dense
SPRUCE These slow growing, short-needled varieties require minimal pruning.					
Norway, Birdsnest	☀	2-3'	4-5'	low spreading	Green needles; low spreading shape with depressed nest-like center
Elegans	☀	2-3'	4-5'	mounded/spreading	Green needles; mounded center, maturing to dome-shaped
Pumila	☀	4-5'	5-6'	globe to spreading	Dark green needles; unique upward and outward pointed tips
YEW Adaptable for a wide range of conditions, especially for areas with limited sunlight, such as the north side.					
Densiformis	☀☀☀	3-4'	5-6'	rounded to spreading	Dark green needles; easily pruned to maintain desired size & shape
Everlow	☀☀☀	1-2'	4-5'	low spreading	Dark green needles; dense growth with low spreading habit
Golden Spreader	☀☀☀	2-3'	3-4'	spreading	New growth emerges goldenrod, matures in 2nd year to dark green
Wardi	☀☀☀	2-3'	5-6'	low spreading	Dark green needles; low spreading habit; develops flattened top w/age

Pruning Evergreens

SCAN ME!

Reasons for Pruning - In general, most evergreens need minimal pruning. It is important to choose the correct size evergreen for its location when planning a landscape, as it is nearly impossible to correct an overgrown evergreen by pruning. Damage can occur to branches from wind, ice, disease and insect problems. These dead or damaged branches will need to be removed to prevent more damage from occurring. This type of pruning should be done as soon as the need arises, since waiting could allow disease to spread to healthy wood.

Spruces can be trimmed while young to produce a fuller tree by trimming the new growth by 1/3 to 1/2. This should be done after the new growth has hardened off in July. More severe pruning can be done by cutting back into last year's growth, just be sure to make the cut above a side branch or bud.

Pines can be made fuller by trimming new growth back by 1/3 to 1/2, however, do not trim into last year's growth, as they do not possess the dormant buds that the Firs and Spruce do and will not replace the branches removed.

Arborvitae and Junipers can also be kept more compact by cutting back new growth. These plants tend to have a 'dead zone', or interior area where there is no foliage, so cutting back too far exposes the dead zone, and is very unsightly. Severe pruning should be done in early spring so the new growth will fill in the exposed areas.

Yews can be trimmed to maintain a formal shape if desired. Their new growth can be trimmed as needed in mid-June. Yews can also have a second light pruning in late September. Do not over prune late in the year.

Evergreens-Tall Under 25'

Plant Name		Height	Spread	Shape	Special Features
ARBORVITAE Soft textured foliage and easy care make Arborvitae an ideal choice for hedges to create visual screens.					
Dark Green	☀	15-20'	5-6'	upright pyramidal	Dark green fan-shaped foliage; good winter color; variety native to Michigan
Degroot's Spire	☀	12-15'	3-4'	columnar	Dense green fan-shaped foliage with textured appearance; good winter color
Emerald	☀	12-15'	3-4'	narrow pyramidal	Bright emerald-green foliage; retains good color through winter
Forever Goldy	☀	12-15'	6-8'	broad pyramidal	Bright gold fan-shaped foliage turning orange-gold in fall
Green Giant	☀	20-25'	8-10'	broad pyramidal	Lustrous, rich green foliage; fast growing with graceful branching habit
Holmstrup	☀	8-10'	3-4'	compact pyramidal	Bright green fan-shaped foliage; retains good winter color
Jantar	☀	12-15'	3-4'	narrow upright	Bright yellow fan-shaped foliage; develops amber tones in winter
North Pole	☀	12-15'	4-5'	narrow pyramidal	Fine textured dark green fan-shaped foliage; retains good winter color
Sugar & Spice	☀	10-12'	3-4'	narrow upright	Fine textured green to creamy-green foliage on orange-brown stems
Techny	☀	12-15'	6-8'	broad upright	Lacy dark green foliage; develops deep green to almost black tones in winter
JUNIPER This group of colorful evergreens is ideal for hedging. Junipers are more suited to withstand heat and drying winds.					
Blue Point	☀	10-12'	4-5'	dense pyramidal	Dense blue-gray foliage retains color well into fall; bronzy gray-green in winter
Compressa, Gold Cone	☀	6-8'	2-3'	narrow columnar	Bright golden-yellow foliage; bronze-gold tones in winter
Hetz Columnar	☀	15-20'	5-6'	upright pyramidal	Bright green foliage; retains good winter color; blue-green berries in fall to winter
Skyrocket	☀	12-15'	2-3'	narrow upright	Bluish-green foliage; develops purplish-gray tones in winter
Taylor	☀	15-20'	3-4'	narrow upright	Grayish-green foliage all season; retains good winter color
Wichita Blue	☀	15-20'	5-6'	upright pyramidal	Bright blue foliage; color softens to a grayish blue-green in winter
SPRUCE A wide variety of needle colors, plus distinctive branching characteristics.					
Alberta, Dwarf	☀	8-10'	3-4'	dense pyramidal	Short green needles; slow growing - requires little pruning
Jean's Dilly	☀	5-6'	2-3'	compact pyramidal	Very short green needles; very slow growing-requires no pruning
Rainbow's End	☀	8-10'	3-4'	dense pyramidal	Green needles with creamy-yellow growth in summer; slow growing
YEW Adaptable for a wide range of conditions—especially for areas with limited sunlight, such as the north side of buildings.					
Capitata	☀	6-8'	3-4'	broad pyramidal	Dark green needles; retains good winter color; easily pruned to maintain shape
Citation	☀	6-8'	3-4'	compact upright	Wide dark green needles; color deepens in winter; flat to mounded top
Hick's	☀	6-8'	3-4'	dense upright	Dark green needles; dense with flat top; easily pruned to maintain shape
Hill's Columnar	☀	6-8'	3-4'	dense upright	Dark green needles with light green undersides; retains good winter color

Evergreens-Tall Over 25'

Plant Name		Height	Spread	Shape	Special Features
FIR These pyramidal types make a fine specimen tree, especially in naturalized areas.					
Canaan	☀	30-40'	15-20'	pyramidal	Lustrous green needles with soft texture; similar look to Balsam Fir
Concolor	☀	40-50'	20-25'	pyramidal	Long upcurved, green to blue-green needles; color varies from tree to tree
HEMLOCK, Canadian	☀	30-40'	15-20'	spreading pyramidal	Short, dark green needles on graceful branches; tolerates heavy pruning
PINE Long needled pines are a favorite for those who like a more open and textured appearance.					
Limber, Vanderwolf's	☀	25-30'	15-20'	upright pyramidal	Long, soft blue-green twisted needles; upward curving branches
White	☀	50-60'	25-30'	wide pyramidal	Light blue-green needles with soft-texture; shape opens with age
SPRUCE A wide variety of needle colors, plus distinctive branching characteristics. Taller varieties are ideal for screening.					
Colorado, Baby Blue	☀	25-30'	10-12'	pyramidal	Bright blue needles with consistent color; growth and habit is a bit more compact
Meyer's Blue	☀	30-40'	15-20'	pyramidal	Short blue-green needles; dense form with refined texture
Norway	☀	50-60'	20-25'	pyramidal	Dark green needles; upward pointed branch tips with pendulous branchlets
Serbian	☀	40-50'	12-15'	pyramidal	Green needles with whitish below; branch tips turn upward to show white below
White, Black Hills	☀	30-40'	15-20'	broad pyramidal	Short, dark green to bluish-green needles; graceful branching

To insure success when planting perennials, trees & shrubs use **Sphagnum Peat**. Spread 2 to 3" of Sphagnum Peat over the planting area and thoroughly dig in or rototill to a minimum depth of at least 6 to 8".

Established acid-loving plants, such as Evergreens, should be fed twice yearly, spring and late fall. Sprinkle **Holly-tone** around the base of your plants as directed on the bag. If the area to be fed is mulched, it is preferable to remove the mulch, feed and then restore the mulch on top of the application of plant food.

Evergreens-Artistic & Unique

Plant Name		Height	Spread	Special Features	
WEeping VARIETIES					
CYPRESS , Nootka, Blue Weeping	☀️🌿	15-20'	6-8'	Dark blue-green foliage on pendulous branches; broad, upright habit	
LARCH , European Weeping	☀️	6-8'	5-6'	Soft green needles turn yellow in fall before dropping; weeping-pendulous branching	
PINE , White, Weeping	☀️	6-8'	6-8'	Blue-green needles, soft-textured; twisting/pendulous branches form unique shape	
SPRUCE , Norway, Weeping	☀️	6-8'	6-8'	Dark green needles; grows to an individually unique specimen with cascading branches	
Serbian, Bruns Weeping	☀️🌿	15-20'	5-6'	Green needles with white below; narrow habit with graceful branching habit	
White, Columnar Weeping	☀️	15-20'	5-6'	Grayish-green needles; narrow columnar shape with downward weeping branches	
TOPGRAFTED TREE FORMS					
ARBORVITAE , Hetz Midget	☀️🌿	4-5'	3-4'	Rich, light green fan-shaped foliage; compact globe shape, broadens with age	
CYPRESS , Hinoki, Slender Dwarf	☀️🌿	5-6'	3-4'	Dark green fan-shaped foliage; unique tree with compact, broad habit	
Siberian	☀️🌿	4-5'	4-5'	Bright green lacy foliage, turning copper-colored in fall and winter; downward weeping branches	
JUNIPER , Blue Star	☀️	4-5'	3-4'	Steel blue star-shaped foliage w/purplish winter cast; forms a compact globe on top of stem	
Daub's Frosted	☀️	4-5'	4-5'	Bright golden frosted foliage with bluish-green undertones; compact globe shape	
PINE , Mugo, Gnom	☀️	4-5'	3-4'	Dark green needles retain good color in winter; very dense with rounded globular shape	
White, Blue Shag	☀️	3-4'	4-5'	Light blue-green needles with very soft texture; compact globe to rounded shape	
SPRUCE , Colorado Blue, Globe	☀️	5-6'	5-6'	Silvery-blue needles; globe shape/can mature to broad upright shape with age if unpruned	
Norway, Little Gem	☀️	3-4'	3-4'	Green needles; low spreading shape with dense globe habit; requires little pruning	
Serbian, Dwarf	☀️🌿	4-5'	3-4'	Green needles with whitish bands below; globe shaped, maturing to a broad upright	
POMPON & ORIENTAL POMPON FORMS					
JUNIPER , Hetz Blue	☀️	prune to maintain		Light blue foliage; retains good winter color; individually created for specimen use	
Sea Green	☀️	prune to maintain		Bright green foliage, good winter color; individually created for specimen use	
SPIRAL & TIERED FORMS					
ARBORVITAE , Emerald	☀️🌿	prune to maintain		Soft, bright green foliage; uniquely created spiral or tiered shape for specimen use	
JUNIPER , (several varieties)	☀️	prune to maintain		Green, blue or yellow colored foliage; uniquely created shape for specimen use	
SPRUCE , Alberta Dwarf	☀️	prune to maintain		Short green needles form dense growth; uniquely created shape for specimen use	
SPREADING UNIQUES					
ARBORVITAE , Franky Boy	☀️	5-6'	3-4'	broad upright	Filaments of yellow growth extend from lime green interior; orange-bronze winter cast
Gruene Kugel	☀️	3-4'	3-4'	compact globe	Dark-green fan-shaped foliage, develops bronze tips in winter
Whipcord	☀️	4-5'	3-4'	low mounding	Long tendrils of glossy green foliage giving a pendulous mop effect
CYPRESS , Sawara, Cream Ball	☀️🌿	2-3'	2-3'	dense globe	Soft creamy-yellow foliage with hints of blue & green
Threadleaf, Mops	☀️🌿	2-3'	3-4'	low mounding	Bright golden thread-like foliage; unique texture and habit
PINE , White, Blue Shag	☀️	3-4'	4-5'	globe to rounded	Light blue-green needles with soft texture; compact habit
White, Mini Twists	☀️	5-6'	5-6'	compact rounded	Small twisted and curvy blue-green needles with soft texture
SPRUCE , Colorado Blue, Globe	☀️	4-5'	5-6'	rounded	Silvery-blue needles; matures to broad upright shape with age if unpruned
Colorado Blue, Montgomery	☀️	4-5'	5-6'	rounded	Silvery-blue needles; matures to broad upright or cone-shaped w/age if unpruned
Sitka, Papoose	☀️	5-6'	4-5'	broad upright	Sharp, two-toned, blue-green needles; rounded shape, growing more upright w/age
TALL UNIQUES					
BALDCYPRESS	☀️	40-50'	15-20'	pyramidal	Soft green needles turn russet in fall before dropping; prefers moist soils
Lindsey's Skyward	☀️	15-20'	5-6'	narrow upright	Soft, green fern-like foliage turns russet in fall before dropping; prefers moist soils
CYPRESS , Fernspray Gold	☀️🌿	4-5'	4-5'	broad upright	Bright yellow to golden fern-like foliage on arching branches
Gold Spangle	☀️	6-8'	5-6'	pyramidal	Bright, golden thread-like foliage all season; trimmed to pyramidal form
Hinoki, Crippsi	☀️🌿	6-8'	4-5'	broad pyramidal	Feathery bright yellow foliage on spreading branches; bronze-yellow winter color
Slender	☀️🌿	8-10'	5-6'	open pyramidal	Dark green fan-shaped foliage, slightly pendulous at branch tips; arching branches
Slender Dwarf	☀️🌿	5-6'	3-4'	broad upright	Glossy, dark green fan-shaped foliage in horizontal layers along stems
Nootka, Blue Weeping	☀️🌿	15-20'	6-8'	broad upright	Dark blue-green foliage on pendulous branches; broad, upright habit
DAWN REDWOOD	☀️	50-60'	20-25'	pyramidal	Soft bright green needles turn orange-red-brown in fall before dropping
Gold Rush	☀️🌿	30-40'	15-20'	pyramidal	Soft golden-yellow needles turn orange-brown in fall before dropping
JUNIPER , Compressa, Gold Cone	☀️	6-8'	2-3'	narrow upright	Bright golden-yellow needles; golden-bronze winter color
PINE , Bosnian, Irish Bell	☀️	8-10'	6-8'	compact pyramidal	Stiff dark green needles tightly packed along stems; becomes bell-shaped w/age
Umbrella, Joe Kozey	☀️	6-8'	2-3'	upright	Glossy, green whorled needles; exotic look with upright shape
White-Hybrid, Domingo	☀️	15-20'	10-12'	broad pyramidal	Long, soft blue-green needles; more compact habit than White Pine
SPRUCE , Norway, Cupressina	☀️	30-40'	6-8'	narrow columnar	Dark green needles; ascending branches
Paul's Blue	☀️	20-25'	12-15'	compact pyramidal	Bright, blue-gray, medium length needles; good alternative to Colorado Blue Spruce
Sherwood Compact	☀️	12-15'	5-6'	narrow upright	Short bright green needles; strong ascending branching habit
White, Columnar Weeping	☀️	15-20'	5-6'	narrow columnar	Grayish-green needles; downward weeping branches

Trees Under 25'

Plant Name	Height	Spread	Flower Color	Blooms	Fall Color	Special Features
ALTHEA TREE	An outstanding display of flower color in late summer. Best flowering in full sun. Multi-stemmed varieties listed in the Shrub section.					
Bali	6-8'	5-6'	white	Aug-Sept	yellow	✦✦ Semi-double white flowers with a red center
Blueberry Smoothie	6-8'	5-6'	blue-purple	Aug-Sept	yellow	✦✦ Double bluish-purple blueberry flowers
Chiffon Blue	8-10'	6-8'	blue	Aug-Sept	yellow	✦✦ Rich blue flowers with a lacy center
Chiffon Lavender	8-10'	6-8'	lavender	Aug-Sept	yellow	✦✦ Large, single lavender flowers with a lacy center
Peppermint Smoothie	6-8'	5-6'	pink/red	Aug-Sept	yellow	✦✦ Double light pink flowers swirled with red
Raspberry Smoothie	6-8'	5-6'	pink	Aug-Sept	yellow	✦✦ Double raspberry-pink flowers; compact habit
Satin Blue	8-10'	6-8'	blue	Aug-Sept	yellow	✦✦ Large, single royal blue flowers with a red center
AMELANCHIER	Beautiful four-season trees with masses of showy white flowers, followed by small edible fruit that is highly favored by birds.					
Autumn Brilliance	20-25'	15-20'	white	April	bright red	Edible purplish-black berries in June; food for wildlife
Shadblow Serviceberry	15-20'	15-20'	white	April	yellow-orange	Multi-stemmed form with delicious purplish-blue fruit in June (birds)
BEECH, Purple Fountain	20-25'	8-10'	-	-	bright red	Rich purple leaves in spring, maturing to purplish-green; weeping habit
BIRCH, River, Shiloh Splash	15-20'	10-12'	-	-	yellow	Green leaves with ivory white margins; slow growing with peeling bark
BURNING BUSH TREE, Dwarf	6-8'	6-8'	-	-	bright red	Compact growth with rounded top; attractive corky stems in winter
CATALPA, Umbrella	12-15'	15-20'	-	-	yellow	Large, green heart-shaped leaves; rarely produces seed pods
CHERRY	Cherries offer a wide variety of flower colors and forms, plus several size variances in both weeping and upright varieties.					
Higan Weeping	15-20'	15-20'	pink	Apr-May	yellow	✦✦ Green leaves; wide-spreading/weeping habit
Kwanzan	20-25'	15-20'	pink	May	orange-bronze	✦✦ Large, double flowers; green leaves; vase-shaped
Little Twist	8-10'	6-8'	white	April	maroon	✦✦ Green leaves, long lasting fall color; fine-textured, zig-zag stems
Pink Cascade	10-12'	10-12'	pink	April	orange	✦✦ Green leaves; strong downward weeping habit
Pink Snow Showers	15-20'	15-20'	pink	Apr-May	yellow	✦✦ Dark green leaves; wide-spreading/weeping habit
Snow Fountains	8-10'	10-12'	white	April	orange-gold-red	✦✦ Green leaves; semi-double blossoms; weeping habit
CORYLUS, Red Dragon	6-8'	6-8'	purple catkins	April	reddish	Deep red foliage in spring, reddish-green in summer; contorted branches
CRAB (Flowering Crabapple)	Spectacular seasonal color! One of the most versatile and durable flowering trees in a range of flower, foliage and fruit colors.					
Adirondack	15-20'	8-10'	white	May	yellow	✦✦ Green leaves; 1/2" red fruit in fall; dense upright habit
Cardinal	15-20'	20-25'	pinkish-red	May	orange-yellow	✦✦ Glossy purplish-red leaves; 1/2" deep red fruit in fall; spreading habit
Coralburst	8-10'	10-12'	rose-pink	May	yellow	✦✦ Coral buds; sparse 1/2" bronze fruit; green leaves; compact habit
Gladiator	15-20'	8-10'	bright pink	May	reddish-orange	✦✦ Bronze-purple leaves mature to purplish-green; upright habit
Lancelot	8-10'	6-8'	white	May	golden-yellow	✦✦ Bright green leaves; 3/8" golden fruit in fall; compact oval habit
Lollipop	8-10'	8-10'	white	May	yellow	✦✦ Bright green leaves; sparse 3/8" yellow fruit; compact habit
Prairifire	15-20'	15-20'	pinkish-red	May	orange-red	✦✦ Red-maroon leaves mature to red-green; red fruit; upright shape
Royal Raindrops	15-20'	15-20'	pinkish-red	May	orange-red	✦✦ Deep purple cutleaf foliage maturing to purplish-green; 1/4" red fruit
Sargent Tina	6-8'	10-12'	white	May	orange-red	✦✦ Red flower buds; bright red 3/8" fruit; compact, spreading habit
DOGWOOD	Great year-round characteristics; beautiful flowers in spring, colorful summer and fall foliage, interesting winter bark and branching.					
Celestial Shadow	15-20'	15-20'	white	May/June	pinkish-red	✦✦ Green leaves with bright yellow margins; red fruit in fall (birds)
Cornelian, Golden Glory	15-20'	10-12'	yellow	April	purplish-red	✦✦ Dark green leaves; attractive peeling bark; red fruit in fall (birds)
Flowering, Cherokee Brave	15-20'	15-20'	red-pink	May	red	✦✦ Reddish-pink flowers with white center; red fruit in fall (birds)
Cherokee Chief	15-20'	15-20'	red-pink	May	red	✦✦ Deep reddish-pink flowers; dark green leaves; red fruit in fall (birds)
Cherokee Princess	15-20'	15-20'	white	May	red	✦✦ Large white flowers; green leaves; red fruit in fall (birds)
Pink	15-20'	15-20'	white	May	red	✦✦ Green leaves; red fruit in fall (birds)
Kousa, Champion's Gold	15-20'	15-20'	white	June	orange-red	✦✦ Green leaves with bright yellow hues; red fruit in fall (birds)
Chinese	15-20'	15-20'	white	June	red	✦✦ Star-shaped white flowers; green leaves; red fruit in fall (birds)
Heart Throb	15-20'	15-20'	red-pink	June	reddish-purple	✦✦ Large, rosy-pink star-shaped flowers; green leaves; red fruit in fall
Little Poncho	8-10'	6-8'	white	June	reddish-purple	✦✦ True dwarf variety w/ star-shaped flowers; green leaves; red fruit in fall
Summer Fun	12-15'	12-15'	white	June	red/orange-pink	✦✦ Wavy green leaves with white margins; red fruit in fall (birds)
Stellar Pink	15-20'	15-20'	pink	June	red	✦✦ Star-shaped pink flowers with deep-pink veins; red fruit in fall (birds)
Venus	20-25'	15-20'	white	May	red-purple	✦✦ Large creamy white flowers; green leaves; sparse orange-red fruit
FRANKLIN TREE	12-15'	10-12'	white	August	orange-red	✦✦ Magnolia-like white flowers; large, shiny, dark green leaves
GOLDENCHAIN TREE	12-15'	10-12'	yellow	-	yellow-tan	✦✦ Long fragrant flowers; bright green leaves; olive green bark
HEPTACODIUM	15-20'	12-15'	white	Aug-Sept	yellow	✦✦ White flowers form showy red seed clusters; peeling, papery bark
HYDRANGEA TREE, Peegee	Similar to the bush form in flower and leaf, these have been specially trained to a tree form with a short trunk.					
Limelight	6-8'	6-8'	white	July-Aug	yellow	✦✦ Lime-green buds open to full white flowers; interesting color transition
Pinky Winky	6-8'	6-8'	white	July-Aug	yellow	✦✦ Large, lacy white flowers mature to pink, starting at the base
Sweet Summer	6-8'	5-6'	white	July-Aug	yellow	✦✦ Large white cone-shaped flowers mature to shades of pink
Vanilla Strawberry	6-8'	6-8'	white	July-Aug	yellow	✦✦ Large, cone-shaped white flowers mature to pink and then red
LILAC TREE	Wonderful spring flowers and fragrance in a tree form. Shrub varieties are listed on Page 21.					
Bloomerang Dark Purple	6-8'	5-6'	purple	May	yellow	✦✦ Violet-purple buds open to lavender flowers; may lightly rebloom
Japanese, Ivory Silk	20-25'	15-20'	white	June	yellow	✦✦✦ Large creamy white flowers; dark green leaves; cherry-like bark
Snow Dance	15-20'	12-15'	white	June	yellow	✦✦✦ Large white flower clusters; dark green leaves; cherry-like bark
Korean Dwarf	6-8'	6-8'	lilac	May	yellow	✦✦✦ Violet-purple buds open to pale lilac flowers; rounded shape

Trees Under 25'

Plant Name		Height	Spread	Flower Color	Blooms	Fall Color	Special Features
MAGNOLIA Beautiful spring flowers in a variety of colors & shapes; can be made to look more tree-like by pruning lower branches							
Ann	☀️	8-10'	8-10'	purple-red	May	yellow-brown	☘️ Tulip-shaped flowers; dark green leaves; compact, rounded shrub/tree
Betty	☀️	10-12'	10-12'	purplish-red	May	yellow-brown	☘️ Purplish-red flowers with white inside; compact habit
Black Tulip	☀️	12-15'	8-10'	burgundy-red	May	yellow-brown	☘️ Large deep burgundy-red flowers; glossy-green leaves; upright/oval habit
Butterflies	☀️	20-25'	15-20'	yellow	May	bronze-yellow	☘️ Large tulip-shaped flowers; large green leaves; oval to rounded habit
Galaxy	☀️	15-20'	12-15'	red-purple	May	yellow-brown	☘️ Purplish-red buds/reddish-purple tulip-shaped flowers; oval habit
Genie	☀️	10-12'	6-8'	plum red	May	yellow-brown	☘️ Large, deep plum-red flowers w/ lighter magenta reflexed tips
Jane	☀️	10-12'	10-12'	red-purple	May	yellow-brown	☘️ Reddish-purple flowers with white interiors; upright to rounded habit
Leonard Messel	☀️	15-20'	15-20'	pinkish-white	May	yellow-brown	☘️ Large, pinkish-white multi-petaled flowers; upright to rounded habit
Saucer, Rustica Rubra	☀️	15-20'	15-20'	pinkish-red	May	yellow-brown	☘️ Large pink saucer-shaped flowers; upright-spreading habit
Sunsation	☀️	15-20'	12-15'	yellow & pink	April/May	yellow-brown	☘️ Yellow flowers with pink base; dark green leaves; upright-pyramidal habit
Sweet Bay, Moonglow	☀️	15-20'	12-15'	white	May/June	semi-evergreen	☘️ Creamy white lemon scented flowers; glossy-green leaves; upright habit
MAPLE Additional Maple varieties may be found in the Trees Over 25' section							
Amur, Ruby Slippers	☀️	15-20'	15-20'	-	-	red/orange	Dark green leaves; abundant red slipper-shaped seeds in fall
Hedge, Carnival	☀️	6-8'	5-6'	-	-	brown/yellow	Pink, cream and green leaves mature to green with cream margins
Paperbark	☀️	15-20'	12-15'	-	-	bronze-red	Bluish-green 3-lobed leaves; cinnamon-copper bark exfoliates with age
Striped	☀️	15-20'	12-15'	-	-	yellow	Bright green leaves; Greenish-white bark stripes; upright to rounded habit
Tatarian, Hot Wings	☀️	20-25'	20-25'	small yellow	April	bronze-red	Rich green leaves; scarlet-red seeds in fall; rounded habit
MIMOSA, EH Wilson	☀️	15-20'	25-30'	bright pink	July-Aug	yellow	☘️ Fuzzy bright pink flowers; fine, fern-like green leaves; vase shaped
MOUNTAIN ASH, Cardinal Royal	☀️	20-25'	15-20'	white	May	yellow	Dark green leaves with silvery undersides; red fruit clusters in fall
MULBERRY, Weeping Chaparral	☀️	10-12'	12-15'	-	-	yellow	Large bright green leaves; non-fruiting; long pendulous branches
NINEBARK TREE, Centerglow	☀️	8-10'	6-8'	white	June	orange-red	Leaves emerge rosy-red with golden center, matures to burgundy
Summer Wine	☀️	5-6'	5-6'	white	June	purple-red	Leaves emerge dark crimson-red, maturing to dark greenish-red
PEASHRUB, Siberian Weeping	☀️	6-8'	6-8'	yellow	June	yellow	Pea-shaped flowers; green leaves; weeping habit w/ bronze-yellow bark
Walker Weeping	☀️	4-5'	3-4'	yellow	June	yellow	Pea-shaped flowers; fine bright green leaves; compact weeping habit
PERSIMMON, Magic Fountain Weeping	☀️	8-10'	5-6'	yellow	May-June	reddish-yellow	Creamy yellow-white flowers; bright orange fruit in fall; weeping columnar habit
PLUM, Big Cis	☀️	12-15'	10-12'	pink	May	yellow	☘️ Glossy purple leaves fade to purplish-green; upright/rounded habit
Thundercloud	☀️	15-20'	15-20'	light pink	May	yellow	☘️ Deep purple leaves fade to purplish-green; oval/rounded habit
REDBUD, Appalachian Red	☀️	20-25'	20-25'	fuchsia pink	May	yellow	☘️ Heart-shaped leaves emerge burgundy/green, maturing to forest green
Burgundy Hearts	☀️	15-20'	20-25'	pink/lavender	May	yellow	☘️ Reddish-purple heart-shaped leaves turn to burgundy in summer
Eastern	☀️	20-25'	20-25'	purple-pink	May	yellow	☘️ Pea-shaped flowers along branches; blue-green heart-shaped leaves
The Rising Sun	☀️	15-20'	15-20'	magenta-rose	May	yellow	☘️ Apricot-orange growth in spring turns golden in summer; rounded habit
Weeping, Lavender Twist	☀️	6-8'	8-10'	purple-pink	May	yellow	☘️ Umbrella-shaped crown with blue-green heart-shaped leaves
Pink Heartbreaker	☀️	10-12'	8-10'	lavender-pink	May	yellow	☘️ Foliage emerges bright red, maturing to green heart-shaped leaves
Ruby Falls	☀️	6-8'	5-6'	rose-purple	May	yellow	☘️ Dark ruby heart-shaped leaves emerge in spring, maturing to purple-green
SMOKETREE, Royal Purple Treeform	☀️	10-12'	8-10'	pink-purple	July	reddish-purple	Smoky pink-purple flowers; rich, dark purple leaves; upright to spreading habit
STEWARTIA, Japanese	☀️	15-20'	12-15'	white	June	red	☘️ Dark green leaves; rich orange-brown flaky bark; upright-oval habit
VIBURNUM TREE, Snowball	☀️	10-12'	10-12'	white	May	reddish-orange	☘️ Thick, leathery dark green leaves; prune after flowering to size/shape
WILLOW, Hakuro Nishiki	☀️	10-12'	10-12'	-	-	yellow	☘️ New growth white, pink & green variegated, maturing to lime-green
Pussywillow, Weeping	☀️	6-8'	6-8'	silver	April	yellow	☘️ Plump buds open to silky soft catkins (flowers); weeping habit
WISTERIA TREE, Amethyst Falls	☀️	6-8'	8-10'	violet-blue	May	yellow	☘️ 6-8" long grape-like flower clusters; prune to maintain tree form
Kentucky, Aunt Dee	☀️	6-8'	8-10'	light purple	May	yellow	☘️ 8-10" long grape-like flower clusters; prune to maintain tree form
WITCHHAZEL, Arnold Promise	☀️	10-12'	12-15'	yellow	March	yellow	☘️ First tree to bloom each year; strap-like flowers; attractive green leaves
Rubin	☀️	10-12'	10-12'	red	March	orange	☘️ First tree to bloom each year; strap-like flowers; attractive green leaves

Choosing the Right Tree for Your Landscape

A properly selected tree can add beauty and value to your landscape. By choosing a tree that is ideal for your yard you can avoid undesired and sometimes costly ramifications down the road. Consider some of the following points.

Mature Height and Spread - Choose a tree that at full maturity will fit in the area that you are planting in. For example, if planting under utility lines choose a tree with a mature height of 25' or less.

Form and Shape - Consider what you want the overall function of the tree to be. A columnar tree is ideal for small areas or where taller screening is desired. Round or vase-shaped trees provide the most overhead coverage and are ideal for providing shade.

Sun, Soil and Moisture Requirements - Plan ahead and check your soil moisture content and how many hours of sunlight the area receives before selecting a tree. Then choose a tree that matches the same requirements to insure success in the decades ahead.

Growth Rate - Fast growing trees will continue to grow fast, so make sure the area where you are planting is large enough for the tree to grow.

Seeds and Fruit - Trees with fruit or seeds provide food for wildlife, however planted near a busy sidewalk or driveway can be messy. Try planting the same tree in a low traffic area to receive the many benefits it has to offer without the added mess close to your front door.

Japanese Maples

Plant Name	Height	Spread	Flower Color	Blooms	Fall Color	Special Features
Mounding Varieties Referred to as Weeping or Laceleaf Maples, these have finely cut or "dissected" leaves & may be trimmed to maintain a smaller size.						
Crimson Queen	☀️ 6-8'	6-8'	Small reddish - yellow flowers appear in May as the leaves emerge, providing some color interest.		brilliant red	Lacy, crimson-red leaves mature to reddish/bronze to green in summer
Garnet	☀️ 6-8'	6-8'			scarlet	Lacy, garnet red leaves soften to a purplish-green in summer
Inaba Shidare	☀️ 6-8'	6-8'			scarlet	Finely-cut, deep red leaves soften to reddish-green in summer
Orangeola	☀️ 6-8'	6-8'			orange	Finely-cut, bright red leaves mature to a bronze-green in summer
Ryusen	☀️ 6-8'	5-6'			orange-red	Lacy, bright lime-green leaves; narrow, cascading habit
Tamukeyama	☀️ 6-8'	6-8'			red	Deep purplish-red leaves mature to reddish-green in summer
Viridis	☀️ 6-8'	6-8'			gold/yellow-red	Finely-cut, lacy bright green leaves throughout summer
Upright Varieties Leaves of the upright varieties are referred to as "palmate", usually having 5 or 7 lobes. These varieties have more of a tree appearance.						
Bloodgood	☀️ 15-20'	15-20'	Small reddish - yellow flowers appear in May as the leaves emerge, providing some color interest.		crimson	Deep reddish-purple leaves mature to a reddish-green in summer
Butterfly	☀️ 12-15'	6-8'			rose-red	Small green leaves w/white margins; pink-tinged new growth in spring; green bark
Emperor I	☀️ 15-20'	12-15'			red	Deep purplish-red leaves in spring and summer; excellent color retention
Fireglow	☀️ 15-20'	12-15'			crimson-scarlet	Rich burgundy-red leaves in spring and summer; upright habit
Lion's Head	☀️ 8-10'	8-10'			orange-scarlet	Small dark green crinkled leaves; compact growth w/upright-rounded habit
Mikawa Yatsubusa ☆	☀️ 4-5'	4-5'			red	Green leaves with red tips in spring; upright irregular habit
Orange Dream	☀️ 8-10'	8-10'			flame orange	Yellow-orange leaves mature to yellow-green in summer; upright-rounded habit
Orido Nishiki	☀️ 15-20'	12-15'			red-maroon	Green leaves with splashes of pink and white through summer; upright habit
Purple Ghost	☀️ 10-12'	8-10'			orange-red	Deep purplish-red leaves with prominent black veins; upright habit
Rhode Island Red	☀️ 8-10'	8-10'			orange-red	Bright red leaves mature to dark red in summer; rounded upright habit
Sharp's Pygmy	☀️ 5-6'	5-6'			scarlet-orange	Small bronze-green leaves; dwarf mounding habit
Shindeshojo	☀️ 8-10'	8-10'			yellow-red	Bright red leaves mature to green w/ red-orange margins; rounded upright habit
Twombly's Red Sentinal	☀️ 15-20'	8-10'			dark red	Intense red leaves mature to burgundy-green in summer; upright-vase shape
Full Moon, Autumn Moon	☀️ 8-10'	8-10'			orange-red	Chartreuse leaves tipped w/red mature to burnt-orange to green in summer
Golden	☀️ 6-8'	6-8'			orange-red	Bright yellow-green leaves all summer; upright-rounded habit
Jordan	☀️ 10-12'	8-10'			orange-red	Bright lemon-yellow leaves turn yellow-green in summer; upright to rounded habit
Korean-Hybrid, North Wind	☀️ 15-20'	12-15'			orange-scarlet	Red spring foliage matures to green in summer; upright-rounded habit

Japanese Maples are a unique specimen tree that can add beauty and elegance to most any landscape! Gain the most out of your Japanese Maple by providing the ideal location and environment with these planting tips:

- Achieve best leaf coloration and prevent leaf scorching by planting in areas with mid to late afternoon shade
- Plant in a location protected from northwest winds and southern sun to reduce chance of winter damage
- Plant in a moist, well-drained soil and mulch to maintain cool roots and help maintain moisture level

Improper mulching can cause damage to the bark of trees and shrubs. Avoid "mulch volcanoes" like the one pictured here. Mulch should not be allowed to smother the trunk or stems, which can lead to decay and death of the plant. As a general rule, keep mulch 3-6" away from the base of the plant.

Mulching Guidelines

Decorative mulches add the finishing touch to any landscape by providing a consistent and colorful covering over the soil. Mulching materials are available in a wide variety of colors and textures to compliment your plants and surroundings.

For more information scan our Mulching Guide below!

SCAN ME!

Maintain a mulch area around your trees and shrubs to prevent damage by lawn mowers and string trimmers.

Mulch also helps to conserve moisture and prevent weed growth.

Trees Over 25'

Plant Name		Height	Spread	Flower Color	Blooms	Fall Color	Special Features
ALDER , Spaeth's Alder	☀	40-50'	25-30'	-	-	yellow	Coppery purple foliage in spring, green in summer
BEECH , European, Dawycki Purple	☀	30-40'	8-10'	-	-	bronze-purple	Glossy dark purple leaves; narrow, upright specimen
Red Obelisk	☀	30-40'	8-10'	-	-	bronze-purple	Dark purple leaves with crinkled edges; compact columnar habit
Tricolor	☀	40-50'	25-30'	-	-	bronze-purple	Dark purplish-green leaves with rose-pink margins
BIRCH	Additional varieties may be found in the Trees Under 25' section.						
Parkland Pillar	☀	30-40'	6-8'	-	-	yellow	🦋 Dark green leaves; attractive white bark; narrow upright habit
River	☀	40-50'	25-30'	-	-	yellow	🦋 Green leaves; beautiful cinnamon-brown peeling bark
Heritage	☀	40-50'	25-30'	-	-	yellow	🦋 Green leaves; beautiful salmon-white peeling bark
Royal Frost	☀	30-40'	20-25'	-	-	yellow-orange	🦋 Crimson leaves turn purple-green in summer; white peeling bark
BLACK GUM	☀	40-50'	25-30'	white	May	orange/scarlet-red	Leaves emerge bright red, maturing to dark green; small black fruit in fall
CATALPA , Northern	☀	40-50'	30-40'	white	June	yellow-brown	🦋 Orchid-like flowers; green heart-shaped leaves; cigar-shaped pods in fall
GINKGO , Autumn Gold	☀	40-50'	30-40'	-	-	golden-yellow	Unusual fan-shaped leaves; attractive winter branching
Princeton Sentry	☀	30-40'	12-15'	-	-	golden-yellow	Unusual fan-shaped leaves; upright branching for narrow areas
HONEYLOCUST , Skyline	☀	40-50'	30-40'	-	-	yellow	Fine-textured green leaves; provides filtered shade; seedless
Sunburst	☀	30-40'	25-30'	-	-	yellow	Fine-textured leaves emerge yellow; mature to bright green
HORNBEAM , European, Pyramidal	☀	30-40'	20-25'	-	-	yellow	Dark green leaves; formal upright-oval shape
HORSECHESTNUT , Fort McNair	☀	30-40'	30-40'	pink	May	yellow-tan	🦋 Dark pink flower spikes; bold textured green leaves
Homestead	☀	30-40'	25-30'	yellow-red	May	dark red	🦋 Yellowish-red flower spikes; bold textured green leaves
LINDEN , Greenspire	☀	40-50'	25-30'	white	June	yellow	🦋 Dark green heart-shaped leaves; pyramidal habit w/dense branching
Silver, Silver Lining	☀	40-50'	30-40'	white	June	yellow	🦋 Dark green leaves w/white undersides; broad upright habit
MAPLE	Japanese Maples and other smaller growing Maple varieties may be found on Page 31 and 32.						
Norway, Crimson King	☀	30-40'	25-30'	-	-	reddish-bronze	Deep maroon colored leaves; rounded habit with dense branching
Crimson Sentry	☀	25-30'	10-12'	-	-	reddish-bronze	Maroon colored leaves; heavily branched with columnar habit
Drummondii	☀	30-40'	25-30'	-	-	yellow	Light green leaves with creamy white margins; oval habit
Princeton Gold	☀	30-40'	25-30'	-	-	yellow	Leaves emerge bright yellow, mature to lime green; oval-rounded habit
Norway-Hybrid, Crimson Sunset	☀	30-40'	20-25'	-	-	reddish-bronze	Glossy deep purple leaves hold color into summer; upright habit
Red, October Glory	☀	40-50'	30-40'	red	April	orange-red	Glossy green leaves; broad oval to rounded habit
Redpointe	☀	40-50'	25-30'	red	April	brilliant red	Rich, deep green leaves; broad pyramidal habit; fast growing
Red-Hybrid, Autumn Blaze	☀	50-60'	30-40'	-	-	orange-red	Rich green leaves; fast growing with upright branching
Matador	☀	40-50'	30-40'	-	-	vibrant red	Rich green leaves; fast growing with upright oval habit
Sugar, Fall Fiesta	☀	50-60'	30-40'	-	-	yellow/orange/red	Thick, leathery, glossy green leaves; upright-rounded habit
Sycamore, Regal Petticoat	☀	30-40'	25-30'	-	-	yellow/magenta	Burgundy tinged growth; summer leaves green w/maroon undersides
OAK	Once established, Oaks will grow and develop sturdy canopies, providing interesting foliage and bark texture.						
Kindred Spirit	☀	30-40'	8-10'	-	-	yellow/tan	Medium green leaves; narrow, tight columnar habit
Pin	☀	50-60'	30-40'	-	-	russet/bronze/red	Glossy green leaves; attractive branching in winter
Red	☀	50-60'	30-40'	-	-	russet to bright red	Glossy green leaves; rounded habit
Regal Prince	☀	40-50'	15-20'	-	-	yellow/bronze	Glossy green leaves with silvery undersides; narrow habit
Swamp White	☀	50-60'	40-50'	-	-	yellow/bronze	Wavy green leaves; broad open habit; tolerates moist soils
PEAR	One of the most popular flowering trees...beautiful in flower, foliage and fall color.						
Chanticleer	☀	30-40'	15-20'	white	May	plum	🦋🦋 Glossy green leaves; russet colored fruit in fall; narrow pyramidal habit
PLANETREE , London, Exclamation	☀	50-60'	25-30'	-	-	yellow	Large maple like leaves; attractive peeling & flaking bark
SASSAFRAS	☀	30-40'	20-25'	yellow	April	yellow/red/purple	Unique mitten-shaped green leaves; blue fruit in fall; upright/rounded habit
SWEETGUM , Slender Silhouette	☀	30-40'	6-8'	-	-	orange-burgundy	Deep green star-shaped leaves; narrow columnar habit; seedless
TULIPTREE	☀	50-60'	30-40'	green-yellow	June	golden yellow	Unique shaped green leaves; very fast growth rate
Emerald City	☀	40-50'	20-25'	green-yellow	June	clear yellow	Unique shaped dark green glossy leaves; upright to oval habit
WILLOW	These fast growing trees love water, making them great for low lying areas. Colorful bark provides winter interest.						
Golden Curly	☀	30-40'	20-25'	-	-	golden	Golden yellow twisted stems & twigs; curly, green leaves
Niobe Weeping	☀	50-60'	50-60'	-	-	golden	Golden colored weeping branches; green leaves

SYMBOL KEY

= Sun

These plants need at least 8 hours of direct sunlight.

= Partial Shade

These plants need a minimum of 4 hours of direct sunlight and a maximum of 8 hours. Avoid hot afternoon sun.

= Shade

These plants need less than 4 hours of direct sunlight. Avoid hot afternoon sun.

= Butterfly

These plants attract butterflies.

= Hummingbird

These plants attract hummingbirds.

= Fragrant

These plants have a fragrance.

= New

This plant is new for 2018!

Fruits

Plant Name	Height	Spread	Harvest Time	Fruit Color	Fruit	Pollinator
APPLE , Arkansas Black Semi-Dwarf ☆	12-15'	12-15'	Oct. 1-15	crimson-black	firm, crisp, tart flavor	requires a second variety
Braeburn Semi-Dwarf	12-15'	12-15'	Nov 10-20	orange-red	crisp, sweet flavor	requires a second variety
Cortland Semi-Dwarf	12-15'	12-15'	Oct 5-20	dark red	crisp, sweet w/hint of tart flavor	requires a second variety
Empire Semi-Dwarf	12-15'	12-15'	Sept 15-30	red/yellow	crisp, moderately tart flavor	requires a second variety
Gala Semi-Dwarf	12-15'	12-15'	Sept 1-15	red blush	firm, crisp texture, sweet flavor	requires a second variety
Ginger Gold Semi-Dwarf ☆	12-15'	12-15'	Aug 15-30	yellow-green	crisp flesh with mildly tart flavor	requires a second variety
Golden Delicious Semi-Dwarf	12-15'	12-15'	Sept 25-Oct 5	golden-yellow	crisp texture, sweet flavor	requires a second variety
Granny Smith Semi-Dwarf	12-15'	12-15'	Nov 1-15	shiny green	tart flavor	requires a second variety
Honeycrisp Semi-Dwarf	12-15'	12-15'	Sept 15-30	red/yellow	very crisp texture, sweet & juicy	requires a second variety
Kinderkrisp Semi-Dwarf	12-15'	12-15'	Aug 15-30	red/yellow	crisp, juicy, sweet flavor	requires a second variety
Liberty Semi-Dwarf	12-15'	12-15'	Sept 15-30	red/yellow	crisp, juicy, tart flavor	requires a second variety
McIntosh Semi-Dwarf	12-15'	12-15'	Sept 15-30	cherry red/yellow	firm flesh, tart flavor	requires a second variety
Red Delicious Semi-Dwarf	12-15'	12-15'	Oct 1-15	bright red	crisp flesh, sweet flavor	requires a second variety
Red Prairie Spy Semi-Dwarf	12-15'	12-15'	Oct 1-15	red	firm flesh, tart flavor	requires a second variety
SnowSweet Semi-Dwarf	12-15'	12-15'	Sept 15-30	bronze red	white flesh, sweet-tart flavor	requires a second variety
Urban (4 Varieties)	8-10'	2-3'	Sept 15-30	red, gold or green	flavors vary among varieties	Any other Urban Apple
Zestar	12-15'	12-15'	Aug 15-30	red	crisp flesh, sweet-tart flavor	requires a second variety
APRICOT , Chinese Dwarf	8-10'	8-10'	July 1-15	orange	yellow-orange flesh w/sweet flavor	self-pollinating
Goldcot Dwarf	8-10'	8-10'	July 20-30	golden	firm orange flesh w/ sweet flavor	self-pollinating
Moongold Dwarf	8-10'	8-10'	July 15-30	orange	yellow-orange flesh w/sweet flavor	requires a second variety
Scout Dwarf	8-10'	8-10'	Aug 1-15	bronze/gold-red	mild to sweet flavor; freestone	more fruit w/second variety
Sungold Dwarf	8-10'	8-10'	Aug 1-15	orange/gold	gold flesh w/sweet flavor; freestone	requires a second variety
Westcot Semi-Dwarf ☆	12-15'	12-15'	July 20-30	yellow	mild sweet flavor; freestone	self-pollinating
ARONIA BERRY , Black, Viking ☆	4-5'	4-5'	September	lustrous black	astringent; similar to very dry red wine	self-pollinating
BLACKBERRY , Babycakes	3-4'	3-4'	Aug-Sept	black	medium, sweet flavor; thornless	self-pollinating
Chester Thornless	4-5'	4-5'	July	black	large, sweet flavor; thornless	self-pollinating
Triple Crown	4-5'	4-5'	July	black	large, sweet flavor; thornless	self-pollinating
BLUEBERRY , Blueberry Glaze	2-3'	2-3'	mid-late July	dark blue	small, wild berry flavor	more fruit w/second variety
Bluecrop	3-4'	3-4'	early-mid July	blue	large, sweet flavor	more fruit w/second variety
Blueray	5-6'	5-6'	late July-early Aug	blue	large; sweet flavor	more fruit w/second variety
Jelly Bean	1-2'	1-2'	mid-late July	blue	large, sweet flavor	more fruit w/second variety
Jersey	5-6'	5-6'	late July-mid Aug	dark blue	sweet flavor	more fruit w/second variety
Northland	4-5'	4-5'	mid-late July	dark blue	sweet, wild berry flavor	more fruit w/second variety
Patriot	5-6'	5-6'	early-mid July	light blue	very large, tangy; sweet flavor	more fruit w/second variety
Peach Sorbet	1-2'	2-3'	mid-late July	blue	medium, sweet flavor	more fruit w/second variety
Perpetua	4-5'	3-4'	mid summer	blue	sweet flavor; repeat fruiting in fall	more fruit w/second variety
Pink Icing	2-3'	3-4'	early-mid July	blue	large, sweet flavor	more fruit w/second variety
CHERRY , Bush Carmine Jewel	5-6'	5-6'	July 1-15	purple-red	light red flesh with sweet-tart flavor	self-pollinating
Bush Juliet ☆	6-8'	4-5'	July 15-30	dark red	red flesh with sweet flavor	self-pollinating
Bush Romeo	6-8'	5-6'	July 15-30	dark red/black	red flesh with tart flavor	self-pollinating
Danube Semi-Dwarf	8-10'	10-12'	July 20-30	dark red	tender yellow flesh, tart flavor	self-pollinating
Evans Bali Semi-Dwarf	12-15'	10-12'	July 15-30	deep dark red	semi firm flesh w/ sweet-tart flavor	self-pollinating
Lapin Semi-Dwarf	12-15'	10-12'	July 15-30	deep purple	large; light red flesh w/sweet flavor	self-pollinating
Meteor Dwarf	8-10'	8-10'	July 1-15	bright red	tender yellow flesh, tart flavor	self-pollinating
Montmorency Semi-Dwarf	12-15'	12-15'	June 20 - July 5	bright red	tender yellow flesh, tart flavor	self-pollinating
Rainier Semi-Dwarf	12-15'	10-12'	July 1-15	golden yellow	yellow flesh with sweet flavor	requires a second variety
Regina Semi-Dwarf	12-15'	10-12'	July 5-15	deep wine red	reddish-purple flesh w/sweet flavor	requires a second variety
Whitegold Semi-Dwarf	12-15'	10-12'	June 15-30	red	yellow flesh with sweet flavor	self-pollinating
CURRANT , Red Lake	5-6'	5-6'	July-August	red	tart flavor	self-pollinating
ELDERBERRY , Adams	8-10'	8-10'	Aug-Sept	bluish-black	firm and juicy w/ sweet flavor	more fruit w/second variety
York	8-10'	8-10'	Aug-Sept	purplish-black	firm and juicy w/ sweet flavor	more fruit w/second variety
FIG , Brown Turkey	5-6'	5-6'	July-frost	purplish-brown	elongated fruit; sweet flavor	self-pollinating
Chicago Hardy	6-8'	5-6'	Aug-frost	purplish-brown	medium-sized; sweet flavor	self-pollinating
GOOSEBERRY , Hinnomaki Red	5-6'	5-6'	August	red	large fruits with excellent flavor	self-pollinating
GRAPE , Canadice Seedless	depends on training		late Aug-early Sept	red	seedless, sweet flavor	self-pollinating
Concord Seedless	depends on training		mid-late Sept	blue-black	seedless, sweet flavor	self-pollinating
Himrod Seedless	depends on training		late Aug-early Sept	golden-yellow	seedless, sweet flavor	self-pollinating
Reliance Seedless	depends on training		late Aug-early Sept	red	seedless, sweet flavor	self-pollinating

Plant Name	Height	Spread	Harvest Time	Fruit Color	Fruit	Pollinator
HONEYBERRY , Sugar Mountain, Blue	5-6'	5-6'	Honeyberries produce clusters of large, blue fruit in June-July that have a sweet taste, similar to a blueberry or raspberry. They are extremely hardy and very easy to grow. Honeyberries are high in vitamin C, potassium, antioxidants, and fiber.			more fruit w/second variety
Sugar Mountain, Eisbar	5-6'	5-6'				more fruit w/second variety
Yezberry, Honey Bunch	4-5'	4-5'				more fruit w/second variety
Yezberry, Sugar Pie	3-4'	3-4'				more fruit w/second variety
KIWI , Issai	depends on training		Sept-Oct	green	smooth-skinned, sweet flavor	self-pollinating
NECTARINE , Arctic Glo Dwarf	8-10'	8-10'	Aug 1-15	crimson over cream	white and red flesh w/ sweet flavor	self-pollinating
Fantasia Dwarf	8-10'	8-10'	Aug 15-Sept 10	yellow w/red blush	sweet yellow flesh; freestone	self-pollinating
Mericrest Dwarf	8-10'	8-10'	August 10-25	bright red	bright yellow flesh, tangy flavor	requires a second variety
Sunglo Dwarf	10-12'	10-12'	Aug 15-30	red	gold/yellow flesh w/ sweet flavor	self-pollinating
PAWPAW , Common	15-20'	15-20'	Sept-Oct	brownish-black	creamy, banana-like flavor	requires a second Pawpaw
PEACH , Elberta Dwarf	10-12'	10-12'	Aug 25-Sept 10	yellow w/red blush	sweet yellow flesh; freestone	self-pollinating
Frost Dwarf	10-12'	10-12'	August 1-15	yellow w/red blush	sweet yellow flesh; freestone	self-pollinating
Polly Dwarf	10-12'	10-12'	August 15-30	white w/red blush	sweet yellow flesh; freestone	self-pollinating
Redhaven Dwarf	10-12'	10-12'	August 1-15	yellow w/red blush	sweet yellow flesh; freestone	self-pollinating
Reliance Dwarf	10-12'	10-12'	August 1-15	yellow w/red blush	sweet yellow flesh; freestone	self-pollinating
Saturn Dwarf	10-12'	10-12'	August 1-15	red w/yellow blush	sweet white flesh; freestone	self-pollinating
PEAR , Asian, Shinko Dwarf	12-15'	10-12'	Aug 25-Sept 10	golden brown	crisp, sweet flavor	requires a second variety
Asian, Tawara Semi-Dwarf	12-15'	10-12'	Aug 25-Sept 10	light brown	large, crisp, sweet	requires a second variety
Bartlett Semi-Dwarf	12-15'	10-12'	Aug 25-Sept 10	yellow	medium-large, firm, sweet	requires a second variety
Bosc Semi-Dwarf	12-15'	10-12'	October 1-15	russet brown	medium-large, tender, smooth	requires a second variety
Comice Dwarf Semi-Dwarf	12-15'	10-12'	August 15-30	yellow w/ red blush	tender flesh with sweet flavor	requires a second variety
D'Anjou Semi-Dwarf	12-15'	10-12'	August 15-30	green w/yellow blush	large, fine texture; sweet	requires a second variety
Red Bartlett Semi-Dwarf	12-15'	10-12'	Sept 15-30	bright to deep red	large, golden-white; sweet	requires a second variety
Summercrisp Semi-Dwarf	12-15'	10-12'	August 10-25	green w/red blush	crisp flesh with sweet flavor	requires a second variety
PLUM , Elephant Heart Dwarf	8-10'	8-10'	August 10-25	dark red	red flesh with sweet flavor	requires a second variety
Green Gage	10-12'	10-12'	August 1-15	yellow-green	sweet, honey-like flavor; freestone	requires a second variety
Italian Prune Dwarf	8-10'	8-10'	Aug 25-Sept 10	dark blue	firm yellow flesh, sweet; freestone	self-pollinating
Santa Rosa	8-10'	8-10'	July 15-30	red-purple	Large fruit w/ sweet amber flesh	requires a second variety
Shiro Dwarf	10-12'	10-12'	July 25-Aug 10	luminous yellow	firm sweet yellow flesh	requires a second variety
Stanley Prune Dwarf	8-10'	8-10'	Aug 25-Sept 10	dark blue	firm yellow flesh, sweet; freestone	self-pollinating
RASPBERRY , Caroline	4-5'	2-3'	August-frost	red	large, sweet	self-pollinating
Heritage	3-4'	3-4'	July-Frost	red	large, sweet	self-pollinating
Latham	4-5'	2-3'	July	red	large, sweet	self-pollinating
Raspberry Shortcake	2-3'	2-3'	July	red	large, very sweet	self-pollinating
SASKATOON , Regent	5-6'	5-6'	June	purple-black	large, sweet	self-pollinating

fruit tree pollination basics

Fruit Tree Pollination is the process by which pollen from the male flower parts are transferred to the female parts by pollinating insects, thus resulting in seed and fruit development. Weather plays a vital role during the flowering period. Frost/freeze events, prolonged rains or high winds can reduce pollination success and therefore quantity of fruit. Bee activity is critical, so having other inviting spring blooming plants nearby will increase your chances of successful pollination.

Selected tree varieties are able to produce fruit on their own, hence the term *SELF-POLLINATING*. Most **Apricot, Tart Cherry, Nectarine, Peach** and **European Plum** fall into this category. However, heavier crops will occur if a different variety of that type is available to cross-pollinate with.

The remaining tree varieties, including **Apple, Pear, Sweet Cherry** and **Japanese Plum** require a *SECOND VARIETY* of the same tree type to properly cross-pollinate with. Please note that 2 trees of the same variety will not pollinate each other. Locate cross-pollinating varieties within 50' of one another to help insure bee activity and pollen exchange between the trees.

• ALMOND - Partially Self-Pollinating (best with 2 varieties)

• APPLE - Requires a second variety

These varieties have a wide range of bloom times. Compatible cross pollinators should bloom at about the same time, so select from the same or adjoining groups; an early and late variety together will not bloom together, but an early+mid or mid+late combination should be successful.

Some Apple varieties may be listed twice due to range of bloom:

- **EARLY:** Braeburn, Empire, Ginger Gold, Kinderkrisp, McIntosh
- **MID:** Cortland, Gala, Golden Delicious, Honeycrisp, Liberty, McIntosh, Red Delicious, Snow Sweet, Urban, Zestar
- **LATE:** Arkansas Black, Golden Delicious, Granny Smith, Red Prairie Spy

Flowering Crab varieties can provide pollen as well. *EARLY/MID:* Cardinal *MID:* Coralburst, Prairifire, Royal Raindrops *MID/LATE:* Lollipop, Sargent Tina

• APRICOT - Most Varieties Self-Pollinating

Moongold & Sungold require a second variety, preferably each other.

• **CHERRY (SWEET) - Requires a second variety (Sweet only)**
Blackgold, Lapin, Rainier, Regina, Whitegold

• **CHERRY (TART) - Self-Pollinating**
Bush Varieties, Danube, Evans Bali, Meteor, Montmorency

• **MULBERRY - Self-Pollinating**

• **NECTARINE - Self-Pollinating**

• **PAWPAW - Requires a second Pawpaw tree for cross pollination**

• **PEACH - Self-Pollinating**

• **PEAR - Requires a second variety**

Asian Pears can be pollinated by a different Asian Pear, or also by Bartlett or Bosc. Other Pear varieties are fully compatible.

• **PLUM (EUROPEAN) - Self-Pollinating**
Empress, Green Gage, Italian Prune, Stanley Prune

• **PLUM (JAPANESE) - Requires a second variety (Japanese only)**
Elephant Heart, Red Ace, Santa Rosa, Shiro

Russian Sage		17

S	Plant Name:	Page Number:
Sagina (Moss)		8
Salix (Willow)		22,31,33
Salvia, Perennial		17
Sambucus (Elder or Elderberry)		19,34
Sandwort		17
Saskatoon		35
Sassafras		33
Scabiosa (Pincushion)		16
Schizachyrium (Little Bluestem Grass)		11
Sea Pink (Armeria)		12
Sedge		11
Sedum (upright)		17
Sedum, Ground Cover		9
Sempervivum (Hens and Chicks)		8
Serviceberry (Amelanchier)		18,30
Seven Sons Flower (Heptacodium)		30
Shadblow (Amelanchier)		30
Shamrock		5
Shasta Daisy (Daisy)		13
Siberian Bugloss (Brunnera)		4
Siberian Iris		15
Silver Lace Vine		7
Silvermound (Artemisia)		12
Sisyrinchium (Blue-Eyed Grass)		12
Smoketree		21,31
Snakeroot (Cimicifuga)		4
Snow in Summer		17
Snow on the Mountain		9
Snowball Bush (Viburnum or Hydrangea)		20,22,30,31
Solidago (Goldenrod)		14
Solomon's Seal		5
Sorbus (Mountain Ash)		31
Speedwell (Veronica)		17
Spicebush		21
Spiderwort		5
Spirea		22
Spruce		27-29
Spurge		17
St. Johnswort (Hypericum)		21
Stachys (Betony or Lamb's Ear)		12,15

S (con't)	Plant Name:	Page Number:
Stewartia		31
Stokes' Aster		17
Stokesia (Stokes' Aster)		17
Stoncrop (Sedum-upright)		17
Strawberry, Ornamental		17
Stylophorum (Wood Poppy)		5
Sumac		22
Summersweet (Clethra)		19
Sundrop (Evening Primrose)		14
Sunflower		17
Sweet Woodruff		9
Sweetgum		33
Sweetshrub		22
Sweetspire		22
Switch Grass		11
Syringa (Lilac)		21,30

T	Plant Name:	Page Number:
Tanacetum (Tansy)		17
Tansy		17
Taxodium (Baldcypress)		29
Taxus (Yew)		27,28
Thrift (Armeria)		12
Thuja (Arborvitae)		27-29
Thyme		9
Tiarella (Foamflower)		5
Tickseed (Coreopsis)		13
Tigerlily (Daylily or Lily)		9,10
Tilia (Linden)		33
Toad Lily		5
Toadflax		9
Torch Lily (Poker Plant)		16
Tradescantia (Spiderwort)		5
Tricyrtis (Toad Lily)		5
Trifolium (Clover)		8
Tritoma (Poker Plant)		16
Trumpet Vine		7
Tsuga (Hemlock)		28
Tuliptree		33
Turtlehead		5

V	Plant Name:	Page Number:
Vaccinium (Blueberry)		34
Valerian (Jupiter's Beard)		15
Veronica		17
Viburnum		22,31
Vinca (Myrtle)		8
Viola		5
Virgin's Bower (Clematis)		7
Virginia Creeper (Ivy)		7
Vitex		22
Vitis (Grape)		34

W	Plant Name:	Page Number:
Waldsteinia (Barren Strawberry)		8
Wand Flower (Gaura)		14
Weigela		22
White Cedar (Arborvitae)		27-29
White Clips (Bellflower)		12
Wild Indigo (Baptisia)		12
Willow		22,31,33
Windflower (Anemone)		12
Wisteria, Tree		31
Wisteria, Vine		7
Witchhazel		31
Wood Poppy		5

Y	Plant Name:	Page Number:
Yarrow		17
Yew		27,28
Yucca		17

NOTES:

It all begins with the soil...and more!

Soils 101

All types of plants will grow better when given the proper soil conditions. Many landscapes in developed areas have had much of the nutrient rich topsoil removed prior to construction, only to have a fraction of it replaced upon completion. The remaining "soil" is often a compacted, poorly aerated and sterile place for plant roots to grow. Not surprisingly, the worst areas are often near the foundation, sidewalks and patios - the most common places where we want to locate plants.

The key to planting success is to make it easy for new plant roots to quickly expand into the surrounding soil so they can breathe, gather water and nutrients, plus firmly anchor the plant. Many plant problems begin as a result of struggling roots, so the more you can do for your soil early on, the more you'll be rewarded in the future.

Rarely does anyone have perfect soil, but even good soils will benefit from the addition of organic materials such as **Bordine's Complete Planting Mix**, **Sphagnum Peat** or **Bumper Crop Organic Soil Builder**. Thoroughly dig in or rototill these amendments to a minimum depth of at least 6-8" in the planting area. The more you amend the soil, the better, whether by hand or with a rototiller. As you work the ground, discard any debris or stubborn clumps to make room for the additional materials.

If your planting areas feel more like a concrete driveway rather than a garden, then you have a little more to do. Initially, you will want to break up the ground to a depth of 8-10" before incorporating the above mentioned organic materials. Adding **Pine Bark Mulch** or **Mini-Nuggets** along with those amendments will help to acidify the soil as well as create aeration as they break down.

Fertilizing

When installing most woody plants (trees, shrubs & evergreens), one of the most beneficial ways of feeding your plants begins with something that is not a fertilizer at all. Naturally occurring fungi called mycorrhizae are often missing from many landscape soils and should be added back in. Their presence helps to expand the root systems of the plants they colonize. This symbiotic relationship is beneficial to both as the fungi bring water and dissolved nutrients to the roots whereas the plant provides the fungi with the sugars they need to proliferate. **MYKE® Growth Enhancer** is a blend of mycorrhizae that can be applied to the root ball and backfill soil of new plantings. Using the recommended amount of **MYKE®**, cover the root system with the powder-like product and then place the additional product into the planting hole. ***Unfortunately, plants from the Ericaceae family (Azalea, Pieris, Rhododendron and Blueberry) are unable to interact with mycorrhizae, so no benefit occurs.

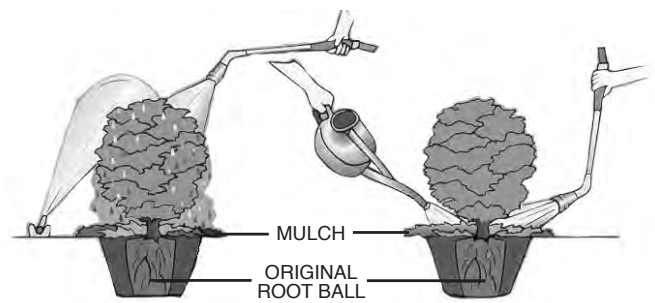

At planting time use a starter fertilizer like **Root 'n' Grow Root Stimulator** to promote early root formation and stronger root development. In addition, you can also incorporate any of the slow-release Espoma fertilizers like **Holly-tone**, **Tree-tone**, **Plant-tone** or **Rose-tone** at planting time to provide additional nutrients for expanding roots.

Mulching

Organic mulches add the finishing touch to your plantings by providing a consistent and colorful covering over the soil. In addition, mulch helps to protect roots from seasonal temperature extremes, lessen water loss from the soil, plus reduce erosion and weed growth. Over time, the gradual breakdown of mulch helps to replenish vital organic matter to the soil so that beneficial organisms may continue to thrive.

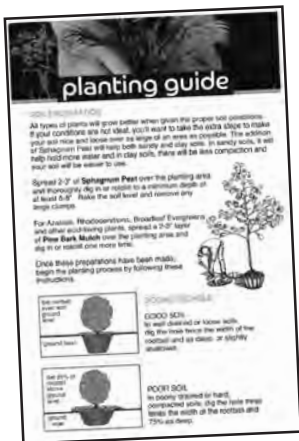

Watering

There is no magic formula on how often and how much water to apply. Just keep in mind that temperatures, precipitation, winds, sun exposure and soil all affect the needs of your plants. Check the moisture content of the root ball and then water as needed for the first full season and beyond. When you water, be sure to target the root ball and apply enough water to penetrate the full depth of the root system.

NO
Sprinklers or overhead watering may not provide enough moisture/water... as leaves shed the water outside of the root area.

YES
Apply water directly to the root area with a hose or watering can.

Set your plants up for success with this check-list of Bordine recommended products!

Soil Amendments

Bordine's Complete Planting Mix

A blend of Michigan composted pine bark, fresh pine bark, peat moss and perlite

Sphagnum Peat

Medium brown in color, fibrous textured and acidic, which is best for use as a soil amendment

Bumper Crop Organic Soil Builder

A premium soil builder for use around the garden, adding organic material & soil micro-organisms

Pine Bark Mulch

Mix with most soils for acid-loving plants

Pine Bark Mini-Nuggets

Good for acid-loving plants in heavier soil conditions

Fertilizers

Holly-tone

All Evergreen type plants & Blueberries

Tree-tone

All Shade, Flowering & Fruit Trees

Rose-tone

For more beautiful Roses

Soil Acidifier

Lowering soil pH, blue Hydrangeas

Bordine's Better Blooms Perennial, Tree & Shrub Food

All-purpose general fertilizer. Use all season long to promote lush growth and phenomenal flowers!

Bordine's Root 'n' Grow Root Stimulator & Plant Starter

Helps get flowers, trees & shrubs off to a strong start. Stimulates early root formation, stronger root development.

Ask us about the 5 year warranty with MYKE®

Receive a 5 year warranty on trees & shrubs purchased from us when you also purchase and use MYKE® tree & shrub transplanter (excludes the Ericaceae plant family like Rhododendrons and Blueberries)

MYKE® contains natural mycorrhizae which enhances root and shoot growth.

** In order for the MYKE® warranty to apply, plants and the recommended amount of MYKE® must be purchased on the same receipt.*
