YOUR ONE SOURCE

RON BRUM
Regional Sales Director
Ball Seed

Tagawa has partnered with Ball Seed® for many years to provide professional growers with a fast, efficient and economical trucking network. With guaranteed ship weeks and temperature-controlled trucks, this system delivers healthy, ready-to-transplant products directly to your greenhouse.

Through this long-lasting partnership with Ball Seed we are able to develop the highest level of customer service to help you grow your business, and we continue to expand our services to cover all of your needs from our state-of-the-art facilities based in Denver, Colorado.

We are proud to offer a strong prefinished program, with young prefinished plants ready for retail in Spring and Fall. Growers who want to turn their facilities or retail spaces more quickly and profitably will love this solution!

To meet the growing succulent demand in the marketplace, Tagawa has also introduced a comprehensive program, featuring 16 succulent assortments.

At Tagawa, we want to be your one source for liners, plugs, succulents and prefinished plants – to help your business thrive.

Ron Brum

DEPENDABLE DELIVERY NETWORK

Our partnership with Ball Seed connects us to the most extensive dedicated grower truck delivery network, covering all of North America.

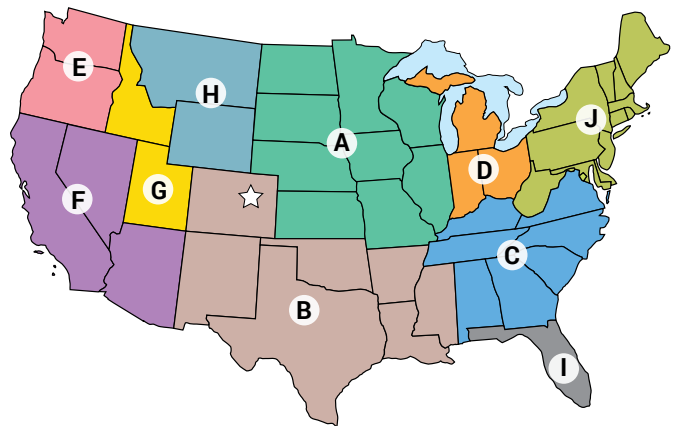

This ensures you receive your products directly to your door (in most cases) at the lowest possible cost. Our fast, efficient and economical system includes guaranteed ship weeks and orders shipped in temperature-controlled trucks – so all products delivered to your greenhouse are healthy and ready to transplant and thrive.

You can easily track the progress of your shipment with “One Click Tracking” through our business management tool, **WebTrack®** at BallSeed.com/WebTrack. This easy ordering and tracking system also allows you to set a five-day advance phone notification of your product’s estimated time of arrival, to help keep your production team on schedule.

ONE-STOP-SHOP FOR PLUGS

Tagawa's state-of-the-art facilities focus on the most efficient plug production – offering more than 2,300 unique seed varieties. Think of us as your “one-stop-shop” for plugs.

Available exclusively through Ball Seed, Punch 'N Gro® is a labor-reducing, low-cost, manual transplanting machine that is mobile, easy to use and produces consistent, quality products.

Plus, you can order your favorite crops as time-saving Plug Punchables™ and Premium Plug Punchables™ Liners. Choose from a full lineup of best-selling varieties, including the most popular standard and premium seed-grown products, plus an extensive listing of the top-performing vegetative items. Plug Punchables are produced by the best suppliers, located strategically across the United States and Canada for the most efficient delivery.

In addition to our 288, 324, 432, and 512, we offer a tray configuration that allows more plugs to be added per tray for better value for our customers. This economical tray now contains 128 versus 102 plugs, maximizing space for better freight rates.

Tagawa 128 and
288 Cell Plug Trays

Tagawa offers plugs for our popular bedding varieties, such as Wave® petunias, impatiens, marigolds and vinca, as well as vegetables such as tomatoes and peppers.

With over 50 years of plug production experience, Tagawa is able to provide all of the plugs you need and more!

Contact your Ball Seed or Tagawa sales rep for more information about labor-saving transplant bundling options available.

And, visit WebTrack to learn more about our full seed listing.

PUNCH 'N GRO®

Perfect plug placement every time! Punch 'N Gro arrives at your greenhouse fully assembled and allows you to use a range of tray sizes with a variety of crops. See page 69 for more information on Punch 'N Gro!

SUCCESS WITH SUCCULENTS

&
MORE

Gardeners in every age range and level of expertise find succulents appealing. The popularity of these low-maintenance varieties has increased over the last few years, and interest continues to grow.

To answer this demand, Tagawa now offers 16 succulent assortments, each including five varieties, along with a vast array of individual succulent varieties.

Our succulent liners can be delivered on a grower truck to the Midwest, Southeast and Southwest.

Tagawa's Sales Manager, Ron Newble, brings years of succulent expertise to our program, and aided in the selection of these products with your success in mind.

Please contact your Ball Seed sales rep or Tagawa Greenhouses for more information.

SAVE TIME AND LABOR WITH PREFINISHED PLANTS

Discover the perfect solution to quick and profitable turns for your facilities or retail spaces.

Spring Prefinished

During the Winter months, we get young plants started in 4.25-in. (11-cm) pots in perfectly controlled greenhouses. The prefinished plant is ideal for use in hanging baskets and combos by Week 6. From here, our Southeast and Midwest customers only need about two weeks and a simple routine to bring these plants to market. Our customers save time, labor and energy with the quick turnaround of these full and healthy, retail-ready plants. You get what you need – as soon as possible.

A TO Z LISTING OF ALL VARIETIES

On the following pages, you will find an alphabetical listing of our top products, including an expanded offering of vegetative varieties, from A to Z. This listing includes varieties that are new to the industry, as well as varieties that Tagawa is offering for the first time.

The available tray size(s) is included with each listing for your convenience. Tagawa is your one source for liners, plugs and prefinished plants. Let us help you grow your business!

DON'T WAIT TO AUTOMATE!

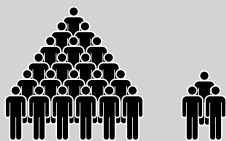

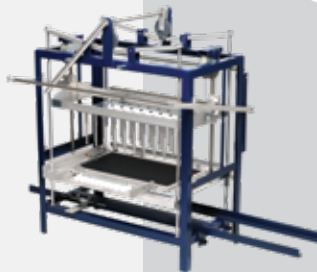

PAYS FOR ITSELF IN 3 BUSINESS DAYS!

The simple, mobile Punch 'N Gro[®] machine provides highly efficient, high-speed transplanting without the need for electricity. It was invented by Tagawa more than 20 years ago.

This labor-saving machine pushes plugs through the tray into finished containers without damaging the cuttings, resulting in stronger, healthier roots. It requires almost no maintenance!

Ask your Ball Seed sales rep about this and other labor-saving transplant bundling options available.

PUNCH 'N GRO[®]

REDUCE LABOR

- 3 workers can transplant the same amount as 15 by hand
- Easy to operate – requires little instruction or oversight

GROW GREEN

- No fuel or energy required – uses mechanically-assisted human power

ACHIEVE CONSISTENT RESULTS

- Even, uniform transplants in every cell
- Same depth and soil compaction, regardless of the operator
- Reduces need for growth regulators to "even out" plant

SHIP AND SELL BETTER PRODUCT

- Less plant shock
- Less shrink
- Sell faster

WEEKLY CROP APPLICATION REPORTS EXCLUSIVELY FROM TAGAWA

FAST, CONVENIENT, 24/7 ONLINE ACCESS

Unlike other suppliers, Tagawa updates WebTrack®, our business management tool, weekly with “crop application reports” of what chemicals were last applied to our products. You can use this to decide how your plugs and liners should be treated after transplant.

For information on Tagawa products and services, call **877 864-0584**.
