JANE'S TIMELY GARDENING TIPS

Hi there, I'm Jane the gardening person. I've been in the gardening arena for many years, on TV, radio, writing in magazines and taking garden tours. The big thing I love is plants of all shapes and sizes, edibles, indoor, fruiting, ornamentals... they are all so fascinating. They keep me involved, because without them, where would our world be?

Every so often I will give you my impression of some plants that my friend Di has in her catalogue. Enjoy.

- Jane Edmanson

PLANTS FROM JANE EDMANSON'S: FROM THE GROUND UP

Jane has described a range of plants in her must have gardening book. We have found one of our favourite plants in there; *Echium candicans* - Pride of Madeira. The name itself inspires thoughts of exotic locations and colours. It is a hardy plant that creates an eye-catching spring display with spires of blue-purple flowers up to 60cm long rising above a neat mound of foliage. It is ideal for exposed, hilly sites and coastal areas where drainage is good, and at the back of shrubby perennial borders where low-water usage plants are being grown. Prune off spent flower spikes, but avoid heavy pruning. It will often only live for four or five years, but is still worth it for the spectacular impact. If grown in a suitable position it often self-seeds giving years of enjoyment.
