

Elizabeth MacGregor
Violas & Cottage Garden Plants
2009

TERMS of BUSINESS

Important - Please Read This: Most parcels are sent via. FedEx and are usually delivered by express parcel vans during working hours on weekdays only, not by the normal postman. In case no one is in, it is important that you fill in the 'Delivery Instructions' box at the bottom of the order form. Please describe briefly where you would like the parcel left, or give an alternative delivery address nearby. The driver will also put a card in your letter-box. These instructions are sent to the FedEx computer, as well as appearing on the label, enabling the driver to leave the parcel without signature, rather than return it to the Depot.

Channel Isles orders will be sent International Standard, Northern Ireland, Highlands & Islands, I.O.M. & Scillies orders will be sent by Royal Mail Standard service, Courier surcharges to these areas are higher than ever and the service no faster in our experience. Prices as tabled below.

If you will be away in March, April or May, please let us know & we will avoid sending your parcel just before, or whilst you are away.

E.C. orders (excl. Channel Isles): Sent via. EuroExpress. Minimum order value of plants £70. If you want to pay by credit card, include the details on the order form but please do not send payment with your order, as soon as I know what plants I am able to supply, I will send a confirmation of your order and invoice. There is no easy formula for working out the postage cost.

Non E.C. Export Orders: We no longer accept orders from outside the E.C.

Payment: Payment with order please, cheques payable to Elizabeth MacGregor. If you want to pay by card we will not charge your card account until dispatch of the order, but please note that for Credit Cards we make a surcharge of 3% to cover the additional cost. Debit or Maestro cards are not surcharged

All orders received by the beginning of March will be acknowledged. I will try to acknowledge later orders. Orders from N.T. & N.T.S. Gardens on official order forms will be invoiced on dispatch. Carriage on orders not prepaid will be invoiced at cost.

Dispatch: Please note that orders are only sent during March, April and May. No autumn deliveries. Orders are dealt with in order of

receipt. I will send an email or postcard when your parcel is dispatched, this will enable you to make enquiries if your parcel is delayed. As you will imagine, by March there is a long queue of orders to be sent, please be patient and only phone if really necessary. Orders can be collected from the nursery, we will let you know when your order is ready for collection.

Prices: All Violas, Violettas & Violets are priced at £3.00 per plant. Other plants priced individually. Minimum order is for six plants in total. These prices will be held until the end of October 2009, so orders made before then, for Spring 2010 delivery, are at Spring 2009 prices.

Substitutes: This catalogue is produced after plants have been propagated for next year, so that early in the season, everything listed should be available. Please tick the boxes on your order form to let me know your preference if any plant should be sold out. A list of soldouts is available on the website, or I can send a list by return, if you send a s.a.e., or by fax if you phone or fax.

Postage & Packing: All plants are in half litre pots or larger, carriage charges reduce proportionally for larger orders. For UK including the Channel Isles, use the table below to work out the amount to add for p&p.

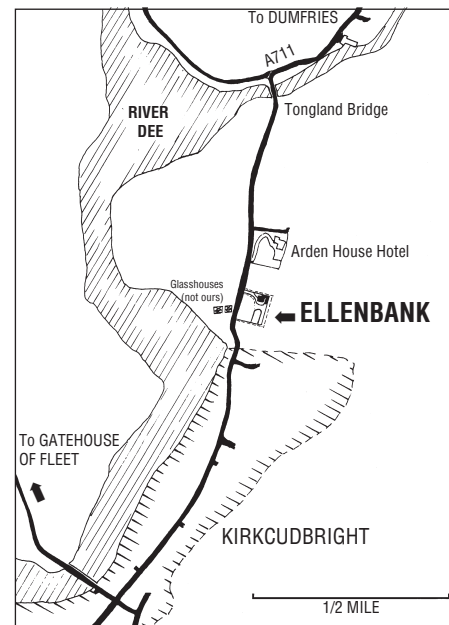

Order value	P&P Add
Up to £20.00	£8.00
£20.05-£25.00	£8.50

£50.05-£60.00	£11.00
£60.05-£70.00	£11.50
£70.05-£80.00	£12.00
£80.05-£90.00	£12.50
£90.05-£100.00	£13.00
each extra £10	add £0.50
to max P&P	
£200 and over	£18.00

Last orders for Spring 2009 by May 9th.

Opening times:

The nursery will be open April 24th to October 5th 2009, on Fridays, Saturdays & Mondays between 10.00am & 5.00pm.

A wide selection of plants may be seen in our walled garden and stock beds. The nursery has other plants, not included here, either too large to post, or not in sufficient quantity for listing.

Ellenbank is one mile north of the centre of Kirkcudbright, on the A711. Customers coming from the Dumfries direction will cross Tongland Bridge, past The Arden House Hotel look out for stone pillars and Ellenbank sign, on the left, half a mile south of the bridge. Kirkcudbright is on the south-west coast of Scotland, 50 miles west of Carlisle.

Specially Selected;

We choose a collection for you at a discounted price.

Collection of 10 Violas £26.00 + p&p. Violas must have one of the longest flowering seasons of all plants, beginning in May and continuing well into the Autumn. Easy to grow in rich, well-drained soil, they look wonderful at the front of an herbaceous border or beneath shrub roses, and are superb in raised beds, containers, or on the rockery.

Collection of 6 Asters £22.50 + p&p. Asters are indispensable for prolonging colour in the border well into Autumn, and make excellent cut flowers. Easy and vigorous plants, to grow in sun or part shade.

Collection of 6 Campanulas £22.50 + p&p. Campanulas are the very essence of the English flower border. They are breathtakingly beautiful in association with old shrub roses and other herbaceous plants, providing colour and interest from early Summer onwards.

Collection of 6 Geraniums £22.50 + p&p. The hardy Geranium must be one of the easiest border plants to grow well in virtually any garden position or soil, and consequently are becoming increasingly popular. As well as providing weed-proof ground cover with their excellent leafy foliage, most have a long flowering season, from late Spring to late Summer. They are available in a huge range of colours and many are also suitable for naturalizing in light woodland, or in the wild garden.

Collection of 6 Iris £22.50 + p&p. Essential plants for the herbaceous border, producing their main flower display in early summer. The strong upright foliage continues to be an excellent foil for other herbaceous plants.

Collection of 6 Penstemons £22.50 + p&p. With their strong upright habit, and their brilliant colour range, Penstemons add colour and interest to the flower border from July onwards, at a time when many flowers are past their peak. Wonderful cut flowers. Easy to grow, preferably in a sunny position.

If you order more than one collection of a species, please let me know if you would prefer all different, or multiples. (i.e. 2 or 3 of each variety for planting together.)

VIOLA

A collection of 10 named Violas, selected by me, is offered for £26.00 plus p&p.

All Violas are priced at £3.00

Viola 'Alethia'

Strong grower, producing a profusion of rich lavender-blue flowers, yellow eye.

Viola 'Ardross Gem'

Beautiful blue & gold flowers, 2.5cm. across. Very compact foliage which forms neat ever-green mats, 30cm. across on an established plant.

Viola 'Aspasia' AGM

Lovely elongated flowers 2cm. across, top petals creamy white, lower petals deep yellow. Very floriferous, scented plant, forming a large clump.

Viola 'Columbine'

Exquisite viola with scented white flowers, heavily striped with blue. Vigorous compact habit. Very lovely & highly recommended.

Viola 'Desdemona'

Tiny pale blue & white flowers. Vigorous, makes a large clump.

Viola 'Devon Cream'

(EM) Exquisitely shaped flowers of a soft cream colour, faint rays & a lovely scent.

Viola 'Eastgrove Blue Scented'

Very scented mid-blue flowers, 4.5cm. across. Very vigorous perennial habit, spreading 50cm. or more. Originated at Eastgrove Cottage Nursery in Worcestershire.

Viola 'Fabiola'

Tiny 2cm. lavender-blue flowers in profusion. Orange eye. Very vigorous and perennial, making compact neat clumps.

Viola 'Fiona'

Very scented white flowers slightly flushed with pale blue. Excellent vigorous perennial habit.

Viola 'Glenholme'

(EM) Exceptionally good new cultivar with pale yellow, orange-eyed flowers. The best yellow Viola I've come across for vigour & flower power. Almost certainly a seedling of V. 'Ivory Queen'

AGM - RHS Award of Garden Merit

(EM) - Raised by Elizabeth MacGregor

(PBR) - Plant breeders rights apply.

Viola 'Inverurie Beauty' AGM

An exceptionally hardy and perennial Viola of Scottish origin, with large, deep violet-purple flowers. Makes excellent ground cover, clumps to 50cm across.

Viola 'Irish Molly'

Bronzy-yellow flowers with a copper centre, 4cm. across. A very unusual old variety.

Viola 'Jane Mott'

Scented creamy-white flowers with a yellow eye. Vigorous and perennial.

Viola 'Judy Goring'

Bright lemon-yellow scented flowers from early summer 'till autumn. Reputed to be the best and most perennial yellow Viola.

Viola 'Julian'

Slightly frilled flowers, 3cm. across, of a beautiful clear mid-blue with a yellow eye. Flowers so profusely the foliage is entirely covered. Makes neat compact clumps.

Viola 'Juno'

Elongated deep purple flowers with a white eye. Very vigorous & perennial. Makes enormous clumps.

Viola 'Kitty White'

Vigorous and long lived perennial habit, masses of blue flowers fading to white in the centre, from May until the frosts. *Plate G*

Viola 'Louisa'

A strongly scented Viola, purple flowers suffused with dusky pink and a contrasting yellow eye. Unusual and vigorous. Clumps 35-40cm. across.

Viola 'Maggie Mott' AGM

Highly scented silvery-mauve flowers with a cream centre, 5cm. across. A very free flowering & popular old variety.

Viola 'Martin' AGM

Lovely deep violet-blue flowers with a yellow eye. 3cm. across. Very neat perennial habit.

Viola 'Mauve Radiance'

Deep lavender-mauve flowers 4cm. across with yellow eye. A very vigorous & long lived plant. Very useful where a simple pure colour is required.

Viola 'May Mott'

Very similar to 'Maggie Mott' & probably a seedling. The upper petals pale silvery-blue, lower petals cream edged with pale blue. Flowers profusely & is very scented.

Viola 'Mrs Lancaster'

Lovely pure white flowers, 3cm. across, with yellow eye. Possessing an exceptionally strong perfume. Seems happy growing in quite deep shade as long as it has enough moisture.

Viola 'Myfawny'

A very pretty Viola, the scented flowers attractively marbled pale lavender and white.

Viola 'Pasha'

(EM) Lovely new Viola producing a profusion of flowers in an unusual bright dusky pink enhanced by maroon rays. Makes a good clump.

Viola 'Petra'

A mound of tiny pale blue, yellow-eyed flowers all summer. Very profuse flowering with a strong perennial habit.

Viola 'Roscastle Black'

Vigorous, perennial clump former with numerous elongated navy-black flowers enhanced by a yellow eye.

Viola 'Vanessa'

(EM) Masses of soft lilac-pink flowers, enhanced by a maroon central blotch.

Viola 'Vita'

Pale pink flower, 3cm. across with a yellow eye. Originated at Sissinghurst Castle.

Viola 'Wasp'

(EM) V. 'Jackanapes' seedling and even more enchanting. A similar combination of yellow & mahogany brown but with added mahogany blotches on the three lower petals.

Viola 'Woodlands Cream'

Large circular scented flowers, rich cream when first opening, becoming striped with pale blue. The combination of cream & striped flowers together is lovely. Vigorous old variety.

VIOLETTA

Violetta 'Buttercup'

Deep yellow, sweetly-scented flowers, 2.5cm. across, produced very freely over neat compact foliage.

Violetta 'Cinders'

(EM) A lovely little plant with scented bi-coloured flowers, buttercup yellow centre surrounded with soft purple. Neat clumps, 20cm. across.

Violetta 'Little David' AGM

Creamy-white slightly frilled flowers, 3cm. across. Vigorous & long lived plant, strongly scented.

Violetta 'Raven'

(EM) Velvety, very deep purple (near black) flowers with striking yellow eye. Very vigorous low spreading mats.

Violetta 'Rebecca'

Exquisite, frilled, creamy-white viola edged & heavily flecked with dark lavender-blue. Strongly scented.

VIOLA CORNUTA

The following cornuta species are very hardy perennial plants. They will form large clumps which may easily be increased by division. Ideal for rockeries or at the front of herbaceous borders.

Viola cornuta 'Alba' AGM

A very vigorous white form. Excellent ground cover, even in shade. Seeds itself in the most inhospitable places in the garden.

Viola cornuta 'Belmont Blue'

Lovely very pale sky-blue flowers, 2.5cm. across, all summer. Very vigorous & makes good ground cover.

Viola cornuta 'Blue Butterfly'

(EM) Dainty pale blue flowers, enhanced by a bright orange eye. Has a vigorous compact habit, a lovely new cultivar.

Viola cornuta 'Boughton Blue'

Nearly identical to V. c. 'Belmont Blue', with slightly fuller flower. Excellent vigorous habit.

Viola cornuta 'Brimstone'

(EM) Soft subtle colouring of pale cream delicately overlaid & veined with pale slatey-blue.

Viola cornuta 'Butterpat'

(EM) A new V. cornuta which appeared in our nursery garden, a seedling from V. c. 'Pat Kavanagh'. Typical elongated cornuta shaped flowers, rich yellow with a few delicate dark rays, paler reverse and a violet spur. Strongly scented.

Viola cornuta 'Cleopatra'

(EM) Superb new cultivar making a large perennial clump to 50cm. across. Scented, pale cream flowers with contrasting deep violet rays and spur.

Viola cornuta 'Clouded Yellow'

(EM) Beautiful combination of pale creamy yellow overlaid with pale slatey-blue streaks and veins. A lovely and most unusual cultivar.

Viola cornuta 'Gypsy Moth'

(EM) A good cultivar with a typical cornuta elongated flower shape. Upper petals very pale blue, lower petals creamy white. Vigorous long-lived habit.

Viola cornuta 'Kitten'

Pale blue flowers veined with navy-blue whiskers. Excellent vigorous perennial habit.

Viola cornuta 'Maiden's Blush'

An excellent new cultivar, probably a sport from V. c. 'Victoria Cawthorne'. Produces a mass of very pale blush-pink and cream flowers all summer. A lovely new colour.

Viola cornuta 'Minor' AGM

A lovely miniature cornuta only 8-10cm. high, but with a spreading habit. Pale mauve flowers 2cm. across.

Viola cornuta 'Minor Alba'

Very compact form of V. c. 'Alba', 15cm. high. Very floriferous producing a mass of tiny white flowers all summer.

Viola cornuta 'Pale Apollo'

(EM) Excellent new cultivar producing large cream flowers which gradually become suffused with pale blue at the edges. Makes a large floriferous perennial clump.

Viola cornuta 'Spider'

(EM) Excellent new cultivar with elongated 'Spidery' deep lavender purple petals. Has a carpeting habit similar to cornuta minor cultivars from which it almost certainly originates. 15cm. high.

Viola cornuta 'Victoria Cawthorne'

Striking deep pink flowers in profusion all summer & autumn. One of the most beautiful of all Violas to appear in recent years.

Viola cornuta 'Victoria's Blush'

(EM) A lovely new cultivar, a seedling from V. c. 'Victoria Cawthorne'. The palest possible pink, deeper in the centre with dark maroon whiskers. Typical vigorous cornuta habit.

Viola cornuta violacea

A very vigorous Viola, deep violet-mauve flowers held on long stems. I find this the best and most perennial purple cornuta.

Viola cornuta 'Winona Cawthorne'

Flowers in a very pleasing combination of pale-blue & cream. Typical vigorous cornuta habit.

VIOLA ODORATA

'Sweet Violets' should be planted in partial shade and moisture retentive soil. To obtain the best blooms, runners should be removed regularly.

Viola odorata 'Large Flowered Blue'

Highly scented, large lavender-blue flowers, held well above the foliage.

Viola odorata 'Queen Charlotte'

A compact variety with numerous, highly scented mid-blue flowers.

Viola odorata 'Rosea'

Sweetly scented, very pale pink form.

COTTAGE GARDEN PLANTS**ACHILLEA**

Achillea millefolium £ 4.10

'Appleblossom'

Soft rose-pink flowers beautifully set off by the grey-green foliage. Easy in sun with good drainage. 75cm. high. (Syn. Achillea m. 'Apfelblüte')

Achillea millefolium 'Red Velvet' £ 4.10

Very deep cherry-red flowers on 60cm. stems, easily grown in full sun and free draining soil.

Achillea 'Pretty Belinda' £ 4.10

Lovely compact new cultivar producing strong upright stems carrying bright pink flowers, all summer to autumn, especially if dead-headed. For sun and good drainage. 50cm. *Plate A*

ACONITUM

Poisonous; irritant to and via skin

Aconitum lycoctonum £ 4.10

subsp. vulparia

Spikes of creamy yellow hooded flowers in mid-summer. 120cm. high.

AGAPANTHUS

Agapanthus 'Midnight Star' £ 4.50

Dark blue bells from July to September. 60cm. high. Hardy. (Syn. A. 'Navy Blue')

ALCEA

Alcea x Althaea 'Parkallee' £ 4.10

Fantastic new Hollyhock hybrid producing pale creamy-yellow, semi-double flowers with a contrasting central boss of dark maroon stamens. Very long flowering, July to November. Best in sun and ordinary soil. 1.8 metres high. Much more perennial and far less susceptible to rust than usual Hollyhocks. *Plate A*

Plate A

Anemone leveillei

Anemone t. 'Robustissima'

Anemone hybrida 'Rosenschale'

Anemone hybrida 'Pamina'

Anemone pavonina

Achillea 'Pretty Belinda'

Alcea x Althaea 'Parkallee'

Alcea x Althaea 'Parkrondell'

Aster novae-angliae 'Septemberrubin'

Aster amellus 'Violet Queen'

Aster x frikartii 'Mönch'

Astrantia 'Hadspen Blood'

Alcea x Althaea 'Parkrondell' £ 4.10
Fantastic new Hollyhock hybrid, hairy grey-green lobed leaves and numerous spikes of semi-double deep pink flowers. Looks especially good September - October and into November. Sun and ordinary soil. 2m. *Plate A*

Alcea 'Apple Blossom' £ 4.10
A new Hollyhock with very double pom-pom flowers in a lovely soft apple blossom pink. 1.5-1.8m. high.

Alcea pallida £ 4.10
Grey-green lobed and tall stems of single lilac-rose flowers from June to September. 1.8-2m.

Alcea rosea £ 4.10
'Chater's Double Icicle'
Spectacular Hollyhock with large pure-white double flowers held on tall stems. Fantastic for the back of the border. 1.5-1.8m. high.

ALCHEMILLA

Alchemilla vetteri £ 4.10
Rarely grown dwarf species. Nice for ground cover, typical lime green flowers. 15-20cm.

AMSONIA

Amsonia tabernaemontana £ 4.10
Good long-lived perennial with strong upright willow-like stems holding slatey-blue starry flowers. 60cm. high.

ANEMONE SPECIES

Anemone barbulata £ 4.10
Like a smaller and more delicate version of *Anemone rivularis*, lovely. 30cm. high.

Anemone flaccida £ 4.10
Very rewarding plant for a cool shady position or woodland edge. Soft brown, beautifully marked foliage & pure white single flowers in spring and early summer. 15-30cm. high.

Anemone leveillei £ 4.10
Branching stems carry lilac backed white flowers in profusion. Similar to *A. rivularis* but larger in both leaf and flower. 60cm. *Plate A*

Anemone nemorosa 'Alba Plena' £ 4.10
Exquisite rosette of pure white very double flowers 15cm. high. Good coloniser beneath shrubs or trees. In flower March to May.

Anemone obtusiloba alba £ 4.10
Exquisite long flowering Anemone with yellow-centred white flowers, flushed dark blue on the reverse. In flower continuously from May to September. 20cm. high.

Anemone pavonina £ 4.10
Showy early flowering Anemone for a well-drained sunny spot. Large vivid-red single flowers February to April. 25cm. *Plate A*

Anemone ranunculoides £ 4.10
Vigorous spreading wood-Anemone with bright yellow flowers in spring. 10cm high.

Anemone rivularis £ 4.10
A favourite anemone with upright branching stems carrying masses of blue-backed white flowers with contrasting blue anthers. Looks especially good planted in drifts, in naturalistic planting. Easy in any soil. 50-60cm. high.

Anemone rupicola £ 4.30
Very attractive plant for a well drained position in the rock garden. Large white silky flowers held well above the foliage during July & August. 30cm. high.

Anemone sylvestris 'Elise Fellmann' £ 4.50
Rare double white form of the 'Snowdrop Anemone'. Spreading slowly to make a clump. Flowering April to June. For well drained humus rich soil in sun or part shade. 30cm. high.

Anemone trullifolia £ 4.50
Clumps of soft green foliage produce the most exquisite blue flowers, varying in shade from palest sky-blue to deep, almost royal-blue. Flowers profusely in early summer, then intermittently until autumn. Easily grown in fertile and not too dry soils, in sun or part shade. 15-20cm. high.

Anemone trullifolia alba £ 4.50
As beautiful as the blue form, with yellow centred white flowers, dark blue on the reverse.

Japanese Anemones

There are few plants more lovely in late summer & autumn than the Japanese Anemones. Spreading quickly in compost enriched soils they are equally happy in sun or part shade. Strong stems carry masses of golden centred flowers in shades of pink & white, from early August until the frosts.

Anemone hupehensis £ 4.10
'Hadspen Abundance' AGM
Deep pink flowers on 60cm. high stems in late summer & autumn.

Anemone hybrida 'Honorine Jobert' AGM £ 4.10
Pure white, single flowers for months in late summer & autumn. 120cm. high.

Anemone hybrida 'Lady Gilmour' £ 4.10
A sumptuous cultivar with large blowsy semi-double pale-pink blooms in late summer and autumn. 70cm. high.

Anemone hybrida 'Pamina' AGM £ 4.10
Very choice and distinctive cultivar with deep pink double flowers forming a perfect rosette around the yellow centre. 70cm. *Plate A*

Anemone hybrida 'Queen Charlotte' AGM £ 4.10
Very large semi-double soft-pink flowers. 120cm. high. Syn. A. h. 'Königin Charlotte'

Anemone hybrida 'Richard Ahrends' £ 4.10
Earlier flowering with large very pale creamy-pink flowers in abundance. From late July until autumn. 80-100cm. high.

Anemone hybrida 'Rosenschale' £ 4.10
Very choice, with large single, very deep pink bowl shaped flowers from early August to the end of autumn. Easy and vigorous. 70cm. high. *Plate A*

Anemone hybrida 'Serenade' £ 4.10
Soft pink semi-double flowers. Lovely. 70cm. high.

Anemone hybrida 'Whirlwind' £ 4.10
A excellent compact cultivar, with pure-white semi-double flowers. 60cm. high.

Anemone tomentosa 'Robustissima' £ 4.10
An extremely vigorous colonizer which produces an abundance of soft pink flowers from July until autumn, 3 or 4 weeks earlier than other Japanese Anemones. 120cm. *Plate A*

ANEMONOPSIS

Anemonopsis macrophylla £ 4.50
Tall leafless stems carry very pale lilac waxy flowers. Very choice in cool shade and humus-rich soil. 60cm. high.

ANTHEMIS

The following Anthemis cultivars are indispensable garden plants, continuously and profusely flowering from early summer until the autumn frosts. They grow best in full sun and well-drained soil.

Anthemis cupaniana AGM £ 4.10
Mounds of silver foliage covered in masses of single white daisies. 30cm. high.

Anthemis nobilis 'Flore Pleno' £ 4.10
A lovely form of camomile which makes mats of fresh-green, intensely aromatic ferny foliage topped by very double white pom-pom flowers in mid-summer. 12cm. high. Syn. *Chamaemelum 'Flore Pleno'*

Anthemis 'Susanna Mitchell' £ 4.10
An excellent form with silvery foliage and large creamy-primrose daisies. 50cm. high.

Anthemis tinctoria 'E. C. Buxton' £ 4.10
A lovely old cultivar with cool lemon-yellow flowers. 60cm. high.

Anthemis tinctoria 'Pride of Grallach' £ 4.10
Large rich-yellow single daisies on this reliable old cultivar. 60cm. high.

Anthemis tinctoria 'Sauce Hollandaise' £ 4.10
Dwarf & bushy habit with very pale creamy-white flowers. 40cm. tall.

Anthemis tinctoria 'Wargrave' £ 4.10
Excellent very free flowering form producing pale creamy-yellow daisies all summer. 60cm. high.

ANTHERICUM

Anthericum ramosum £ 4.30
From tufts of grassy leaves arise airy divided spikes of tiny white flowers, reminiscent of *Gypsophilla*. Fertile soil & sun, 90cm. high

ARTEMISIA

Artemisia absinthium 'Lambrook Mist' AGM £ 4.10
Essentially a fabulous silver foil for other plantings with deeply divided pure silver silky foliage, on strong upright stems. Like all silvers, prefers sun and good drainage. 60cm. high.

Artemisia arborescens 'Faith Raven' £ 4.10
Lovely lacy silver foliage plant for dry gardens. makes a bushy clump to 50cm. high.

Artemisia stelleriana 'Mori's Form' £ 4.10
A first rate silver foliage plant of deeply fingered silver leaves, very prostrate habit. 15cm. high. Syn. A. s. 'Boughton Silver'

ASARUM

Asarum europaeum £ 4.10
Glossy dark evergreen leaves eventually form a neat, compact, dense weed-proof carpet. Unobtrusive brown flower in early summer. Prefers a shady spot. 10cm. high.

ASTER

The following Asters are all trouble-free vigorous plants which start to flower in early September, extending the flowering season considerably in the garden. A special collection of 6 Asters is offered for £22.50 plus p&p. See page 2.

Aster amellus 'King George' AGM £ 4.10
Reliable old cultivar with large rich-purple-blue flowers in August and September. 60cm. high.

Aster amellus 'Pink Zenith' £ 4.10
Good compact cultivar with clear-pink, yellow centred daisies 6cm. across. Very free flowering, September to October. 50cm. high. Syn. A. a. 'Rosa Erfüllung'

Aster amellus 'Violet Queen' AGM £ 4.10
A beautiful old variety for the border front. Intense violet flowers in September & October. 40cm. tall. (syn. Aster a. 'Veilchenkönigin')

Plate A

Aster cordifolius 'Silver Spray' £ 4.10
A strong grower with dainty white flowers. 60cm. high.

Aster ericoides 'Cinderella' £ 4.10
A mass of tiny white flowers with prominent yellow centres on bushy upright plants. Invaluable for late summer display. 45cm. tall.

Aster ericoides f. prostratus 'Snow Flurry' AGM £ 4.10
Spreading prostrate form with masses of tiny white flowers in September to October. Ideal cascading over a wall or in a big pot. 15cm. high to 70cm across.

Aster ericoides 'Pink Cloud' AGM £ 4.10
Very aptly named, a mass of tiny, starry pink daisies create a wonderful hazy effect in Autumn. 70 cm. high.

Aster ericoides 'Rosy Veil' £ 4.10
Masses of tiny pale pink flowers creating an hazy effect on upright plants. 45cm. tall.

Aster x frikartii 'Mönch' AGM £ 4.10
Large clear lavender-blue flowers from July 'till October, 90cm. high.

Plate A

Aster 'Kylie' AGM £ 4.10
Hybrid of A. novae-angliae x A. ericoides with a tall branching habit and masses of small pale pink flowers, September to October. Sunny position, 130cm. high.

Aster 'Little Carlow' AGM £ 4.10
Generally regarded as one of the best Asters, with very bright lavender-blue flowers in pro-

fusion from late August to October. 80-90cm. high

Aster novae-angliae 'Crimson Beauty' £ 4.10
Sturdy stems, 90cm. high, carry dark red-violet flowers.

Aster novae-angliae 'Lachsglut' £ 4.10
Vibrant dark cerise-pink flowers with yellow centres. 120cm. high.

Aster novae-angliae 'Pink Parfait' £ 4.10
Yellow centered, clear sugar-pink single flowers. 120cm. high.

Aster novae-angliae 'Purple Cloud' £ 4.10
Strong stems carry soft smoky blue-purple flowers. Makes huge floriferous clumps, 100cm. high.

Aster novae-angliae 'Purple Dome' £ 4.10
Masses of deep violet-purple flowers on a compact plant. 50cm. high.

Aster novae-angliae 'Septemberrubin' £ 4.10
Large sprays of dark purple-red flowers, enhanced by golden central disc. Very floriferous, September to October. 1.5m. high.

Plate A

Aster 'Photograph' AGM £ 4.10
A. cordifolius hybrid, producing masses of tiny pale lavender-blue flowers in large airy sprays. September to October, 90cm high.

Aster 'Pink Star' £ 4.10
A beautiful cultivar with elegant, upright 90cm. stems which carry masses of tiny, pale-pink yellow-centred daisies. Creates a dainty starry effect.

Aster 'Ringdove' AGM £ 4.10
A mass of tiny, starry, pale lilac-blue flowers, early September to November. 90cm. high

ASTRANTIA

Astrantia 'Hadspen Blood' £ 4.30
A superb Astrantia with deep wine-red flowers. Very floriferous all summer. Easy in a good soil, in sun or part shade. Divisions from the true form 45cm. high.

Plate A

Astrantia 'Madeleine' £ 4.30
Large pure white, green-tipped flowers in profusion. Useful and easy plant for sun or part shade. 60cm. high.

Astrantia major 'Ruby Wedding' £ 4.30
Deep ruby-red flowers, held on dark stems. 45cm. high. Definitely one of the best dark Astrantias.

Astrantia maxima AGM £ 4.30
A very beautiful plant with large vibrant rose-pink, broad-petalled flowers for a long season. 60cm. high.

Plate B

BAPTISIA

Baptisia australis £ 4.30
Slim spikes of soft indigo blue lupin-like flowers in early summer. Attractive black seed pods. 90cm. high.

BERKHEYA

Berkheya multijuga £ 4.10
Showy thistle-like plant with brilliant yellow flowers. Sun lover, for a free draining site. 60cm. high.

Plate C

Berkheya purpurea £ 4.10
Spiny leaves with clusters of very large lavender daisies with dark centres. Flowers from mid-summer to late autumn. 60cm. high. Hardy but likes a hot spot & good drainage.

BRIMEURA

Brimeura amethystina £ 4.00
Exquisite bulbous plant with slender green leaves and spikes of tubular sky-blue flowers in spring to early summer. Ordinary soil in sun or part shade. 10-20cm. high.

BRUNNERA

Brunnera macrophylla 'Jack Frost' £ 4.50
Spectacular new introduction from the U.S.A. Dramatic silver frosted leaves veined & edged with green. Sprays of blue forget-me-not flowers in early summer. 50cm high.

CAMASSIA

Camassia quamash 'Blue Melody' £ 4.10
Truly striking cultivar, as beautiful in leaf as in flower. Very neatly variegated leaves, striped gold & green, Bright blue flowers in May & June. 30cm. high.

Camassia quamash 'Orion' £ 4.10
Beautiful bulbous plant with deep blue flowers in early summer. Good for naturalising in a wild garden area. 40cm. high

CAMPANULA

A special collection of 6 Campanulas is offered for £22.50 plus p&p. See page 2.

Campanula 'Burghaltii' AGM £ 4.10
Large amethyst buds open to 8cm. long pale pinkish-grey narrow bells. Grows 60cm. high. A rare hybrid, always in short supply.

Campanula glomerata 'Caroline' £ 4.10
Nicely spreading clumps of lilac-pink bells on 40cm. stems.

Campanula lactiflora 'Blue Cross' £ 4.10

An exceptionally strong growing selection with mid-blue bells. Fantastic at the rear of a large herbaceous border, from July to late September. Makes a huge clump, 150cm. high by 120cm.

Campanula lactiflora 'Loddon Anna' AGM £ 4.10

Branching heads produce an absolute mass of soft pink flowers from mid-summer on. Particularly lovely with shrub roses. 150cm. *Plate B*

Campanula lactiflora 'Prichard's Variety' AGM £ 4.10

A deep lavender-blue form of this outstanding Campanula. Produces a large clump of tall stout stems topped with a masses of flowers, early summer to early autumn. 120cm. *Plate B*

Campanula makaschvilii £ 4.10

A new plant from the Caucasus mountains. Arching stems hold numerous pink & white bells along their length. 45cm. *Plate B*

Campanula persicifolia 'Gawen' £ 4.10
Pure white cup & saucer flowers on wiry stems. 60cm. high.

Campanula persicifolia 'Powder Puff' £ 4.10
Large very double white flowers on sturdy stems. Sun, 60cm. high.

Campanula punctata 'Alina's Double' £ 4.10

A particular favorite with pale creamy-pink, double hose-in-hose flowers. Good spreader in sun or part shade. 50cm. high.

Campanula punctata 'Cherry Bells' £ 4.10

Outstanding cultivar with very large vivid pink bells & a vigorous spreading habit. Never seems to be out of flower. 40cm. *Plate B*

Campanula punctata f. rubriflora 'Vienna Festival' £ 4.10

Dark foliage and stems carry large deep purple-red bells. June & July, 40cm. high.

Campanula punctata 'Wine 'n' Rubies' £ 4.10

Large red-purple bells held on dark stems. June-July, 30cm. high.

Campanula 'Purple Sensation' £ 4.10
Large deep-violet-blue bells on 60cm. stems. Sun or semi-shade. Ordinary garden soil.

Campanula 'Samantha' £ 4.10
Very compact cultivar with bright blue upward facing saucer shaped flowers. Long summer season especially if dead-headed. Excellent edging or for underplanting roses. Ordinary garden soil, 25cm. high.

Campanula 'Saraastro' £ 4.10
A new hybrid, producing large deep violet-blue bells. Clump forming, 60cm. high.

Campanula takesimana 'Beautiful Truth' £ 4.10
Very unusual with the white bell shaped flowers split into narrow segments, creating a spidery effect. 40cm. high.

Campanula 'Van-Houttei' £ 4.10
A lovely old hybrid, producing large smokey-blue bells for a long Summer period. 45cm.

CENTAUREA

Centaurea atropurpurea £ 4.10
Deep crimson-purple thistle like flowers on tall upright stems. June to September. 120cm.

Centaurea 'Jordy' £ 4.10
This has become my favorite centauria, making clumps of grey-green foliage which shows the maroon-black cornflowers to perfection. Easy in ordinary soil and sun. 35cm. *Plate B*

Centaurea montana 'Carnea' £ 4.10
A good pink form of the Mountain Knapweed, with its cornflower like blooms. In flower early summer. Prefers sun. 40cm. high.

Centaurea pulcherrima £ 4.10
Clump former with deeply-divided silver foliage. In mid-summer, semi-double rose-pink flowers emerge from papery buds held on stiff wiry stems. For full sun and free-draining soils. 30-40cm. high.

Centaurea ruthenica £ 4.10
Pale yellow flowers in July and August. This is considered to be the choicest yellow Knapweed. Best in a poor dry soil. 90cm. high.

CEPHALARIA

Cephalaria gigantea £ 4.10
Giant Scabiosa with tall airy stems holding large pale yellow flowers, lovely at the back of the border. 3m. high.

CICHORIUM

Cichorium intybus £ 4.10
The culinary Chicory makes an unusual ornamental plant with startlingly blue dandelion-like flowers studding the tall stems during the summer months. For a sunny spot & well drained soil. 120cm. high.

Cichorium intybus 'Roseum' £ 4.10
Rose-pink miniature dandelion-like flowers studding the tall stems all summer. For a sunny & well drained site. 120cm. high. *Plate B*

CIRSIUM

Cirsium rivulare 'Atropurpureum' £ 4.50
A very ornamental thistle, producing stout stems with dark maroon-red thistle flowers. Long summer season & deservedly very popular. 90cm. high.

CLEMATIS

Clematis 'Buckland Beauty' £ 7.50
Tiny pink ribbed bell flowers, pale inside, which darken as they mature. A hybrid of *C. texensis*. Flowering mid summer. 2.5m. *Plate B*

Clematis 'Duchess of Edinburgh' £ 7.50
This double white clematis dates back to 1875. Flowers May to June, 1.5-2m. high.

Clematis florida var. flore-pleno £ 7.50
An unusual old Japanese cultivar, producing very double rosettes of cool greenish-white flowers. From early summer until autumn. For a warm sheltered wall. 2-3m. high. *Plate B*

Clematis florida var. sieboldiana £ 7.50
Creamy white flowers with a contrasting purple centre makes this a unique and outstanding variety. Grows best against a sheltered sunny wall, or in a container. Very long flowering, June to September. 2-3m. high. *Plate B*

Clematis 'H. F. Young' AGM £ 7.50
Very large flowers, 20cm. across, in a bright and beautiful mid blue, with contrasting creamy stamens. Flowers profusely from ground level in May to June and again in September. 2.5m. high. *Plate B*

Clematis integrifolia £ 6.00
An easily grown herbaceous Clematis with rich blue nodding bell-shaped flowers from July to September. 90cm. tall.

Clematis 'Lasurstern' AGM £ 7.50
A reliable, very floriferous old cultivar. Large deep lavender-blue flowers with contrasting cream stamens and pointed petals with wavy margins. First flush of flowers in May to June & again in August to September. 2.5m. high.

Clematis montana rubens £ 7.50
Bronzed foliage makes a good foil for dark pink flowers which are vanilla scented. Flowering May & June. Very vigorous, to 6m. high.

Clematis 'Niobe' AGM £ 7.50
A compact cultivar with large, deep-burgundy-red velvety flowers, produced very freely for

Plate B

Astrantia maxima

Clematis 'Buckland Beauty'

Clematis 'H. F. Young'

Clematis florida var. sieboldiana

Clematis florida var. flore-pleno

Centaurea 'Jordy'

Cichorium intybus 'Roseum'

Campanula punctata 'Cherry Bells'

Campanula makaschvilii

Campanula l. 'Prichard's Variety'

Campanula lactiflora 'Loddon Anna'

Erigeron 'Snow White'

a long season. Good in containers. May to September, 2.5-3 m. high.

Clematis 'Perle d'Azur' £ 7.50
Large open sky-blue flowers, in profusion July-September. Up to 3m. high.

Clematis 'Prince Charles' AGM £ 7.50
Very compact and free flowering cultivar with a mass of mauve-blue flowers from late June to September. 2m. high.

Clematis 'Rooguchi' £ 7.50
Very unusual cultivar with deep, almost navy-blue tubular flowers, recurving at the lips. Beautiful from June to September. 2.5m. high.

Clematis texensis 'Gravetye Beauty' £ 7.50
Ruby-red tulip shaped flowers, opening as they mature. A very unusual and desirable Clematis. July to September. 1.5 - 2.5 metres high.

Clematis texensis 'Princess Diana' £ 7.50
Deep vibrant pink tulip shaped flowers produced from August to October. Very different and choice, looks wonderful grown through a large shrub. 2 - 2.5 metres high.

Clematis triternata rubro-marginata AGM £ 7.50
This hybrid between *C. viticella* and *C. flammula* has masses of little starry flowers in a combination of white and dusky-red from July to September. Very strong 'Hawthorn' scent, easy on a sunny wall or through a small tree. 5m. high.

Clematis urticifolia £ 6.00
Urn shaped upward facing scented blue flowers on this unusual shrub-like species. Good amongst herbaceous perennials. 1.5m. high.

Clematis viticella 'Alba Luxurians' AGM £ 7.50
A superb old cultivar of exceptional vigour. Green tipped white flowers enhanced by dark maroon stamens, from July to September. Easy and vigorous. One of the few white late flowering Clematis 3-4m. high.

Clematis viticella 'Madame Julia Correvon' AGM £ 7.50
Beautiful vibrant rosy-red flowers with contrasting golden stamens. Very vigorous and floriferous. July to September, 3-4 metres high.

Clematis viticella 'Polish Spirit' AGM £ 7.50
An outstanding new cultivar, very free flowering with rich purple-blue flowers from July to September. 3-4m. high.

Clematis viticella 'Purpurea Plena Elegans' £ 7.50
A very old double variety with deep dusky pink flowers, reminiscent of the blooms of an old rose. Easy and vigorous. Flowering July to September. 3-4m. high.

CROCOSMIA
Previously known as Montbretias, Crocosmias are superb late summer flowering plants, easy in any ordinary garden soil, in sun or part shade. They also make very good cut flowers.

Crocossia x crocosmiiflora 'Babylon' £ 4.10
Very large open bright-red flowers, later than other Crocosmias, from end August onwards. 75cm. high.

Crocossia x crocosmiiflora 'Canary Bird' £ 4.10
A superb late summer to autumn flowering plant, with pale green foliage and pale apricot-yellow flower spikes. Very vigorous cultivar quickly making a large floriferous clump. 50cm. high.

Crocossia x crocosmiiflora 'Carmin Brilliant' AGM £ 4.10
Masses of small orange-red flowers with contrasting yellow interior. 70cm. high.

Crocossia x crocosmiiflora 'Gerbe d'Or' £ 4.10
Bronze leaves make a good foil for the soft-apricot-yellow flowers. 60cm. high.

Crocossia x crocosmiiflora 'Kiatschou' £ 4.10
Very compact clumps producing a mass of yellowish apricot flowers. 40-45cm. high.

Crocossia x crocosmiiflora 'Merryman' £ 4.10
Compact cultivar with rich-yellow flowers, marked delicately with red inside and on reverse of petals. 45cm. high.

Crocossia x crocosmiiflora 'Saracen' £ 4.10
Bronze flushed foliage makes a good foil for tomato-red flowers with a golden-yellow central zone. 75cm. high. Must be one of the best compact red cultivars. *Plate C*

Crocossia x crocosmiiflora 'Star of the East' £ 4.10
Excellent cultivar with enormous star-shaped clear orange flowers. September and October flowering. 60cm. high.

Crocossia x crocosmiiflora 'Zeal -unnamed' £ 4.10
Vast clumps of large pleated leaves, from which emerge tall arching spikes of large, pure-orange-red flowers. Makes a spectacular display. 80cm. high. (Previously listed as 'Zeal Tan') *Plate C*

Crocossia 'Culzean Peach' £ 4.10
Tubular flower in a peachy-orange shade. Very floriferous. 80cm. high.

Crocossia 'Ellenbank Canary' £ 4.10 (EM)
Occurred in our nursery stock beds in the middle of a clump of *C. 'Canary Bird'*. Vigorous more upright and taller stems with large canary yellow flowers. 70cm. high.

Crocossia 'Ellenbank Skylark' £ 4.10 (EM)
Tall graceful stems carry large open starry flowers, burnt-orange with a cream central zone. August to September. 75cm. high.

Crocossia 'Golden Fleece' £ 4.10
Freely produced clear yellow flowers in early autumn. 50cm. high.

Crocossia 'Joey Hoey' £ 4.10
Compact and very free flowering with bi-coloured flowers, buttercup yellow with contrasting red reverse. 50cm. high.

Crocossia 'Jupiter' £ 4.10
Soft apricot yellow with contrasting red markings. 50-60cm. high.

Crocossia 'Limpopo' £ 4.30
New hybrid with large pinkish flowers shading to apricot in the throat. Long flowering, July to October. 75cm. high.

Crocossia 'Mars' £ 4.10
A free flowering & compact cultivar. Bi-coloured flowers, soft apricot-yellow inside, with red reverse. 60cm. high.

Crocossia masoniorum 'Rowallane' £ 4.10
A striking chrome-yellow form of *C. masoniorum*. Clumps of long pleated leaves with large upward-facing flowers carried on arching spikes. 90cm. high.

Crocossia 'Mistral' £ 4.10
Brilliant deep-red, large flowered cultivar, very floriferous. 90cm. high.

Crocossia 'Severn Sunrise' AGM £ 4.10
Exceptionally vigorous grower with strong upright growth. Large peachy-orange flowers become suffused with a soft pink flush as they mature. 60cm. high.

Crocossia 'Spitfire' £ 4.10
A tall strong grower with upright arching stems carrying large dark red flowers. Makes a large plant. 90cm. high.

DAHLIA
Dahlia 'Bishop of Llandaff' AGM £ 4.10
Clumps of deep mahogany-purple foliage are a perfect foil for the semi-double brilliant red flowers. Superb in a red border. May be overwintered outside in very mild gardens, or store tubers in a cold greenhouse. 90cm. high.

Dahlia x cosmos 'Mexican Black' £ 4.50
Very interesting new hybrid, with slightly scented, near black Cosmos-like flowers held above Dahlia-like foliage. I advise lifting the large tuberous roots, unless in a particularly mild area. Fertile soil and semi-shade. *Plate C*

DEUTZIA
Deutzia pulchra £ 5.00
Deutzias are good flowering shrubs for adding structure to the herbaceous border. This species produces a mass of pure white single starry flowers in late spring and early summer. 1.8m. high. Easy in any fertile soil, sun or part shade.

Deutzia scabra 'Candidissima' £ 5.00
Very showy upright shrub producing a mass of tiny honey-scented pure white double flowers, from early to mid-summer. 1.8m. high. Easy in any soil, sun or part shade. *Plate C*

DIANTHUS
Dianthus 'Elizabethan' £ 4.10
A very unusual cultivar with large scented creamy-white flowers, edged maroon-black. 30cm. high. *Plate C*

Dianthus 'Tatra Ghost' £ 4.10
Pale grey foliage with beautifully scented white flowers, marked with palest pink. 25cm. high and 40 cm. across. *Plate C*

DIERAMA
Dierama dracomontanum £ 4.10
Reliable floriferous species with dangling pink bells in July to August. 70cm. high.

Dierama igneum £ 4.10
An unusual, compact species of Angels Fishing Rod. Warm-pink dangling bells on 60cm. arching stems. Likes good rich, free-draining soil.

Dierama pulcherrimum £ 4.10
Superb 'Angel's Fishing Rod' with long grassy evergreen leaves, producing tall arching wiry stems of deep pink bells. 120cm. high

DIPLARRHENA

Diplarrhena latifolia £ 4.50
Larger in all its parts than *D. moraea*. Beautiful pure white three-petalled flowers. For a sunny sheltered site. 60cm. high.

ECHINACEA

Echinaceas thrive in fertile well-drained soil, in full sun. Poor drainage in winter can lead to losses. Cut back spent flowers to encourage longer display.

Echinacea angustifolia £ 4.10
Lovely species with pale purple-pink petals drooping from an orange-brown central cone. 75 cm. high.

Echinacea 'Harvest Moon' £ 4.60
Stunning new cultivar with large golden-orange flowers with orange central cones. July to September. 60cm. high. Syn. E. 'Matthew Saul'

Echinacea pallida 'Hula Dancer' £ 4.10
Long narrow drooping petals, in the palest possible pink, fall from a large central cone. 80cm. high.

Echinacea paradoxa £ 4.10
Pure yellow petals droop down from a large brown central cone. Very unusual species from central U.S.A. 80cm. high.

Echinacea purpurea 'Fragrant Angel' PBR £ 4.60
A new variety, huge flowers have green-tipped white petals around a green central cone. Lovely scent. 75cm. high.

Echinacea purpurea 'Magnus' £ 4.10
Flowers in an intense carmine-red with wide horizontal petals. Very long lasting cut flower. 100cm. high.

Echinacea purpurea 'Primadonna White' £ 4.10
Vigorous grower, stout stems carry pure white daisies, with horizontal petals around an orange-brown cone. Fertile well-drained soil and sun. 80cm. high.

Echinacea purpurea 'Rubinstern' £ 4.10
Clumps of deep green leaves produce stout 120cm. high stems, carrying large daisy-like flowers, intensely carmine-red surrounding a large orange-brown central boss.

Echinacea purpurea 'Sunrise' £ 4.60
Strong stems produce large pale apricot-yellow flowers with greenish central cones. Late summer flowering July to October. For sun and well drained fertile soil. 75cm. high. *Plate C*

Echinacea tennesseensis 'Rocky Top' £ 4.10
Large dark-eyed, cerise-pink flowers from July to October. 60cm. high.

ERIGERON

Erigeron 'Quakeress' £ 4.10
Numerous narrow-petalled single daisies in a soft lilac blue. Very floriferous from early summer to autumn. Vigorous and easy, likes sun. 50cm. high.

Erigeron 'Snow White' £ 4.10
Lilac buds open to pure-white fine petalled daisies. In flower from early summer to autumn. Excellent border front plant for a sunny position. 40cm. high. *Plate B*

ERYNGIUM

An extraordinary group of plants, often with strong metallic-blue colouring to flowers and stems. Their main cultural need is an open situation in sun and free-draining but fertile soil. If in doubt, a bucket-full of grit incorporated into the planting area makes a huge difference to root growth and subsequent vigour.

Eryngium alpinum 'Blue Star' £ 4.40
The largest-flowered species with a mass of intensely-blue soft feathery bracts surrounding a cylindrical flower head. Prefers deep fertile well-drained sunny site. 60-70cm. high.

Eryngium alpinum 'Slieve Donard' £ 4.40
Very vigorous and long-lived cultivar producing huge clumps of rounded foliage. The upright stems produce huge feathery flowers, silver as they open, gradually becoming deep violet-blue. Highly recommended. 70cm. *Plate C*

Eryngium bourgatii 'Oxford Blue' AGM £ 4.40
Makes a very decorative mound of deeply cut basal leaves, heavily marked and spotted white. Branching heads of silvery-blue flowers produced in June - July. For sun & good drainage. 45cm. high.

Eryngium 'Forncett Ultra' £ 4.40
Superb compact hybrid producing large spiky intensely metallic-blue flowers & stems. 50cm. high. Sun & good drainage.

Eryngium 'Jos Eijking' £ 4.50
Stunning 'Sea Holly', flowers, stems & leaves all becoming an intense metallic lavender-blue. Very vigorous and strong upright grower. 90cm. high. (PBR)

Dianthus 'Tatra Ghost'

Deutzia scabra 'Candidissima'

Eryngium alpinum 'Slieve Donard'

Eryngium x 'Cobalt Star'

Eryngium x zabelii 'Violetta'

Eryngium x oliverianum AGM £ 4.40

A superb sea-holly with both flowers and stems becoming an intense metallic blue. A very reliable plant that spreads to make an enormous clump. 60cm. high. Wonderful dried.

Eryngium planum 'Blue Glitter' £ 4.30

Branching stems carry numerous small brilliant blue flowers all summer. 80cm. high.

Eryngium x 'Cobalt Star' £ 4.40

(EM) A new E. bourgatii hybrid from our nursery, producing vigorous clumps of intensely cobalt-blue flowers for a particularly long season. Makes a multi-branched plant, 70cm. high. For sun and good drainage. *Plate C*

Eryngium x 'Lapis Blue' £ 4.50

(EM) Introduced at Tatton this summer, another of our new hybrids with a long season of showy flowers. Turning from silver to the most intense blue, repeat flowering until autumn. Compact, 40cm. high.

Eryngium x zabelii £ 4.40

Branching stems carry deep metallic-blue flowers in mid-summer. Taller and more upright than E. x oliverianum. 90cm. high.

Eryngium x zabelii 'Violetta' £ 4.40

Stunningly good cultivar with violet-blue stems and flowers, the darkest colouring I have seen. 80cm. high. *Plate C*

EUPATORIUM

Eupatorium purpureum £ 4.50

subsp. maculatum 'Atropurpureum' AGM

An impressive plant for the back of the border or wild garden, making a huge clump 2.5m. high and 2m across. Dark maroon-purple stems carry large flat flower heads of a soft pinky-maroon shade. The nectar filled flowers are a magnet for bees and butterflies in September & October.

EUPHORBIA

Harmful if eaten, skin & eye irritant.

Euphorbia cornigera £ 4.10

Huge yellow flower-heads, for a long season, on 120cm. stems which become brilliant red in the autumn.

FILIPENDULA

Filipendula purpurea 'Nephele' £ 4.30

Very floriferous with pink flowers fading nicely to creamy-white. Prefers moist soil in sun or semi-shade. 100cm. high.

GAILLARDIA

Gaillardia x grandiflora £ 4.10

'Amber Wheels'

Large golden-yellow daisies with fringed petal tips and a beautifully contrasting amber-red central cone. Good spreading clump-former. Sun and ordinary soil. 75cm. high.

GALEGA

Galega officinalis £ 4.10

Large bushy clumps of pinnate foliage bearing spikes of soft pale-blue & white flowers all summer. 100cm. high.

GENTIANA

Gentiana asclepiadea £ 4.30

The Willow Gentian makes a first rate, long lived perennial, improving year by year especially if grown in rich deep soil and shade or semi-shade. 60cm. high stems are studded with dark gentian-blue flowers for most of their length. In flower late summer and autumn.

Gentiana asclepiadea £ 4.30

'Pink Swallow'

A good pink flowered selection. 40cm. high.

GERANIUM

A special collection of 6 Hardy Geraniums is available for £22.50 plus p&p. See page 2.

Geranium 'Ann Folkard' AGM £ 4.10

Superb hybrid of G. psilostemon and G. procurrens with black-centered, bright magenta-purple flowers. Spreads to form a large clump, up to a metre across or just as happy climbing into surrounding plants. Exceptionally long flowering season, early May to end October.

Geranium 'Anne Thomson' £ 4.10

A new hybrid with dramatic, magenta-purple black-centered flowers. Makes a compact clump 30cm. high and 60cm. across. Very long flowering season, May to end October. *Plate D*

Geranium clarkei £ 4.10

'Kashmir White' AGM

Attractive white flowers, delicately veined with maroon. Main flush of flowers in early summer, & then intermittently until autumn. 30cm.

Geranium 'Elke' £ 4.50

Compact, long-flowering new cultivar. Bright pink flowers edged white with a white centre. 25cm. high.

Plate D

Geranium w. 'Buxton's Variety'

Geranium 'Rozanne'

Geranium 'Anne Thomson'

Hemerocallis 'Lullaby Baby'

Gladiolus saundersii

Iris sibirica 'Butter & Sugar'

Kirengeshoma palmata

Helianthus 'Lemon Queen'

Inula hookeri

Iris 'Ellenbank Damsel'fly'

Iris sibirica 'Baby Sister'

Iris sibirica 'Silver Edge'

Geranium 'Ivan' £ 4.10

G. psilostemon hybrid, producing large, dark-eyed, pale magenta flowers in profusion. Early summer flowering followed by further flushes in August to September. 50cm. high.

Geranium lambertii 'Swansdown' £ 4.10

A lax, mound-forming plant 60cm. across. The saucer shaped white flowers with crimson centres are considered to be one of the most beautiful of all Geraniums, and are in flower from mid-summer to autumn. Seen at its best when grown on a bank or raised bed.

Geranium nodosum £ 4.10

This Geranium gives a nonstop display from May until the frosts. Small but very numerous lilac-purple flowers over glossy foliage. Very valuable for its long display, neat upright habit & ability to thrive in shade, even under trees. 40cm. tall.

Geranium orientalitibeticum £ 4.10

Excellent & unusual dwarf Geranium whose marbled foliage in different shades of green, makes it worth growing as a foliage plant alone. Its bright-pink, white centred flowers are an added bonus, produced during June & July. 20cm. high. Steady colonising habit makes it excellent ground cover

Geranium x oxonianum 'Rebecca Moss' £ 4.10

Large flowers in the most delicate, palest possible pink. Exquisite. 50cm high.

Geranium x oxonianum 'Wageningen' £ 4.10

A vigorous cultivar, quickly making weed-proof clumps with deep salmon-pink flowers for a long season from June onwards. 40cm.

Geranium 'Patricia' £ 4.10

Superb new G. psilostemon x G. endressii hybrid producing large magenta flowers with a distinct black eye. Long flowering season, May to September. 70cm. high

Geranium pratense 'Plenum Violaceum' AGM £ 4.10

An exquisite double-flowered cultivar with neat rosette flowers in a rich violet-blue, tinged purple in the centre. A well grown clump is a magnificent sight. 60cm. high & 60cm. across.

Geranium pratense -Victor Reiter strain £ 4.10

Fabulous seed strain which produces clumps of dark coppery-maroon foliage which sets off the lavender-blue flowers beautifully. June to July. 50cm. high.

Geranium psilostemon AGM £ 4.10

A superb species, quickly forming a large clump. Dark magenta-pink flowers with a contrasting black eye and veining. 80cm. high.

Geranium 'Rozanne' PBR £ 4.50

Undoubtedly the best new cultivar, G. w. 'Buxton's Variety' obvious in its parentage. Produces very large vivid blue flowers with distinctly paler centres. Exceptionally long flowering from end of May until early November. Easy in any soil. 40cm. high. *Plate D*

Geranium shikokianum £ 4.10

Lovely species with clumps of marbled foliage. White centred rose-pink flowers mid-summer and into autumn. Rarely grown but very garden-worthy. Prefers semi-shade. 30cm. high.

Geranium 'Sirak' £ 4.10

Outstanding hybrid producing dense and compact clumps 60cm. high. Smothered in large dark pink flowers all summer.

Geranium wallichianum 'Buxton's Variety' AGM £ 4.10

Attractively marked foliage. Spode-blue flowers with distinctive white centres. Flowers from June, well into the autumn. 30cm. *Plate D*

Geranium wallichianum 'Pink Buxton' £ 4.50

Similar to G. 'Buxtons Variety' in habit with attractive lilac-pink, white centered flowers.

GEUM

Geum 'Bell Bank' £ 4.10

A lovely form with double soft-pink flowers. Prefers a rich fertile soil. 30cm. high.

Geum 'Dolly North' £ 4.10

Semi-double, brilliant orange flowers for a long summer season. Makes a big clump. 40cm.

Geum 'Flames of Passion' PBR £ 4.30

Semi-double red flowers in early summer. 50cm. high.

Geum rivale 'Album' £ 4.10

Large clumps of ground-covering foliage and attractive nodding white flowers in green calyces, produced in early summer. 30cm. high.

Geum 'Sigiswang' £ 4.10

Compact clumps produce vivid fiery-orange-red flowers for a long season. 30cm. high.

GILLENIA

Gillenia trifoliata £ 4.50

A dainty Plant with wiry reddish stems carrying white flowers with a contrasting red calyx. Thrives in semi-shade. Mid-summer flowering 60cm. high.

GLADIOLUS

Gladiolus papilio £ 4.10

Tall stems carry hooded flowers in a subtle combination of cream & soft purple, beautifully marked inside. Increases freely in a sheltered, well drained position. 90cm. high.

Gladiolus papilio 'Ruby' £ 5.00

Ruby-red nodding flowers in late summer and early autumn. Tall growing, 1.2m. high. Sun and good drainage.

Gladiolus saundersii £ 4.50

Beautiful S. African species. Long slender grey-green foliage with striking salmon-red flowers, lower petal suffused with cream. 60-90cm high. Sun and good drainage. *Plate D*

GYPSOPHILA

Gypsophila paniculata 'Festival White' £ 4.10

Beautiful airy cloud of tiny double pure white flowers from July to August. Vigorous and long-lived in sun and good drainage. 50cm. high.

HELENIUM

Heleniums provide the backbone of the herbaceous border from July to September. Colours range from purest yellow to deepest mahogany-brown. Best grown in fertile free-draining soil & sun.

Helenium 'Butterpat' AGM £ 4.10

Golden yellow flowers on compact upright stems. Mid summer to autumn. Often considered the best yellow Helenium. 60cm. high.

Helenium 'Goldlaczweg' £ 4.10

Neat bushy grower with deep gold flowers maturing to mahogany with a brown centre. 70-80cm. high.

Helenium 'Red Army' £ 4.10

Excellent compact cultivar with dark burnt red flowers. Near black central boss. 100cm.

Helenium 'Red Glory' £ 4.10

Deep terracotta-red flowers, brown central disc, on 70cm. stems from July to October.

Helenium 'Ruby Tuesday' £ 4.10

Excellent compact variety with an abundance of very dark red flowers. July to September. 60cm. high.

Helenium 'Sahin's Early Flowerer' AGM £ 4.10

Excellent relatively compact form, producing vibrant, stripy burnt terracotta and orange flowers, fading to pale marmalade. Long and profuse flowering from June to October. 50-60cm. high.

Helenium 'The Bishop' £ 4.10

Vigorous, compact form with rich-yellow daisies enhanced by a dark brown velvety central boss. Good clump former. 45cm. high.

Helenium 'Wyndley' £ 4.10

Excellent reliable old cultivar. Flowers open a rich yellow, becoming suffused dusky orange as they mature. Indispensable in the late Summer to Autumn border. 70cm. high.

HELIANTHUS

Helianthus 'Lemon Queen' AGM £ 4.10

Tall upright stems carry large pale yellow daisies. Makes a huge floriferous clump from August well into the autumn. 150cm. *Plate D*

HELIOPSIS

Heliopsis helianthoides var. scabra 'Summer Nights' £ 4.10

Robust long lived plants related to the perennial sunflower. Purple-red stems carry golden-yellow daisy flowers with orange-red centres. Mid-June to September. 120cm. high.

HELLEBORUS

Somewhat poisonous; skin irritant

Helleborus x hybridus -white spotted & blotched (Ashwoods) £ 5.00

Vigorous grower with large white saucer-shaped flowers, spectacularly spotted and marked with dark maroon. For composty fertile soils. 50cm. high.

HEMEROCALLIS

Virtually indestructible garden plants, vigorous and easy in most garden conditions, in sun or part shade. Stout stems bear branching clusters of Lily-like flowers during the summer.

Hemerocallis 'American Revolution' £ 4.60

One of the darkest forms, with lily-shaped, velvety, deep maroon-black flowers. 75cm. high.

Hemerocallis 'Anzac' £ 4.50

Large dramatic flowers in a dark russety-red. 70cm. high.

Hemerocallis 'Arctic Snow' £ 4.60

Superb and popular Day-Lily with large, slightly ruffled ivory-cream flowers with a green throat. 60cm. high.

Hemerocallis 'Big Bird' £ 4.50

Vigorous grower with very large pure lemon yellow flowers held on tall stems, well above the foliage. Highly recommended. 70cm. high.

- Hemerocallis 'Black Magic'** £ 4.50
Dark bronzy-maroon trumpets with a yellow interior. Vigorous, 60cm. high.
- Hemerocallis 'Catherine Woodbery'** £ 4.50
A large flowered Day-Lily, with pale orchid-pink, scented flowers. Easy in sun or semi-shade. 60cm. high.
- Hemerocallis 'Cream Drop'** £ 4.50
A miniature form making low dense clumps with soft creamy-yellow flowers. 30cm. high.
- Hemerocallis 'Crimson Icon'** £ 4.50
Small rich-rosy-red flowers on a compact plant. 40cm. high.
- Hemerocallis 'Double River Wye'** £ 4.60
Neat pale-lemon-yellow double flowers held well above foliage on strong upright stems. 50cm. high.
- Hemerocallis 'Edna Spalding'** £ 4.50
Very pretty star-shaped mid-pink flowers. Robust constitution. 65cm. high.
- Hemerocallis 'Entrasette'** £ 4.50
Large dark maroon-red flowers with paler centre. Upright stems. 60cm. high.
- Hemerocallis 'Final Touch'** £ 4.60
Beautiful bi-colour with very tall upright stems carrying fragrant creamy-pink and pale lavender flowers, for an exceptionally long season. 80cm. high, for ordinary garden soil in sun or part shade.
- Hemerocallis 'Gentle Shepherd'** £ 4.60
A beautiful form of Day-Lily, creamy-white flowers with a green throat. 60cm. high.
- Hemerocallis 'Hemlock'** £ 4.50
Wide petalled rich clear red with a green throat. Vigorous, 60cm. high.
- Hemerocallis 'Ice Carnival'** £ 4.60
Fragrant near-white green throated flowers from mid-July to September. 70cm. high.
- Hemerocallis 'Little Wine Cup'** £ 4.50
Miniature form, producing numerous flowers in a soft maroon shade. 30cm. high.
- Hemerocallis 'Little Zinger'** £ 4.50
Award winning, clear red with a contrasting green throat. Compact, 40cm. high.
- Hemerocallis 'Lullaby Baby'** £ 4.50
Exquisite rounded and ruffled ice-pink flowers for a long season. 45cm. high. *Plate D*

- Hemerocallis 'Moonlit Masquerade'** £ 4.50
This cultivar has one of the most strongly contrasting colour combinations in a day-lily, creamy alabaster flowers with a purple-black eye. 65cm. high.
- Hemerocallis 'Night Beacon'** £ 4.50
Stunning deepest purple which does not fade even in hot sun, contrasting green-gold throat. 70cm. high.
- Hemerocallis 'Sammy Russell'** £ 4.50
Neat compact clumps of narrow leaves & numerous terracotta-red flowers during the summer. 30cm. high.
- Hemerocallis 'Siloam Baby Talk'** £ 4.50
Miniature form with pastel creamy-pink flowers and a darker rose eye. 30-40cm. high.
- Hemerocallis 'Snickelfritz'** £ 4.60
Unusual semi-double flowers, very pale creamy-yellow. one of the earliest to come into flower. 40cm. high.
- Hemerocallis 'Song Sparrow'** £ 4.50
Lovely miniature 'Day-Lily' with numerous orange-yellow flowers for a long season. 30cm.
- Hemerocallis 'Stella D'Oro'** £ 4.50
A miniature form. Numerous apricot-yellow flowers for a long season. Slight scent. 30cm.
- Hemerocallis 'Tuscawilla Tigress'** £ 4.60
Very showy, large Marigold-orange petals, each with a gold mid rib, creating a stripey effect. 50cm. high.
- Hemerocallis 'Varsity'** £ 4.50
Large, very pale creamy-apricot-pink flowers. 50cm. high. Very floriferous.
- HOSTA**
- Hosta 'Francee' AGM** £ 4.50
An excellent, very vigorous old cultivar, with large deep-green leaves, neatly edged white. Lavender flowers.
- Hosta 'Guacamole'** £ 4.50
Superb award winning Hosta of medium size. Glossy chatreuse leaves with a wide green margin. Large fragrant white flowers in late summer.
- Hosta 'Krossa Regal' AGM** £ 4.50
A vigorous Hosta with greyish-blue foliage and a very elegant tall vase-shaped habit.

ILIAMNA

- Iliamna remota** £ 4.10
Wild Hollyhock from N. America. Tall spikes of abundant rosy-purple mallow-like flowers above large Maple-like leaves. Excellent back of border plant. 1.5m. high.

INULA

- Inula hookeri** £ 4.10
Good herbaceous plant producing narrow-rayed, pale yellow daisies, 8cm. across, from July to September. Quickly makes a clump 50cm. high, very effective coloniser in difficult sites. *Plate D*

- Inula racemosa 'Sonnenspeer'** £ 4.10
Huge plant for the wild garden. Tall spikes of large narrow-rayed yellow daisies in late summer. 200cm. high.

IRIS

- Somewhat poisonous; skin irritant**
A special collection of 6 named Iris is available for £22.50 plus p&p. See page 2.

- Iris 'Broadleigh Mitre'** £ 4.10
(Pacific Coast Hybrid) Very large Imperial Purple flowers, in profusion. 45cm. high.

- Iris chrysographes AGM** £ 4.10
A beautiful plant with near-black velvety flowers in early summer. Neat grassy foliage is attractive all year. 40-45cm. high.

- Iris chrysographes 'Ellenbank Nightshade'** £ 4.10
(EM) Our selection of the species with deep navy- blue-purple flowers. 45cm. high.

- Iris chrysographes 'Mandarin Purple'** £ 4.10
A superb hybrid, with very free flowering habit, producing deep rich purple flowers held well above the foliage. 50cm. high.

- Iris chrysographes 'Rubra'** £ 4.10
A superb form with velvety plum-coloured flowers. 40cm. high.

- Iris 'Ellenbank Damselfly'** £ 4.60
(EM) Hybrid between I. forestii and I. delavayi that occurred in our nursery garden. Produces a mass of dainty flowers in a subtle shade of pale parchment yellow and slatey-blue. Vigorous clump-former. Looks very good with Viola 'Clouded Yellow' which has similar colouring. 80cm. high. *Plate D*

- Iris ensata 'Azuma-kagami'** £ 5.00
Huge bluish-white flowers heavily veined with dark lilac. Beautiful compact grower. 60cm. high.

- Iris ensata 'Cry of Rejoice'** £ 4.50
Large lavender-mauve flowers, in June to July. 80cm. high.

- Iris ensata 'Moonlight Waves'** £ 4.10
Very large, flat, full petalled flowers in a soft primrose-creamy-white. Sunny position in good soil that doesn't dry out too much. 70cm. high.

- Iris ensata 'Pink Frost'** £ 4.50
Superb Iris for moist position with large, very pale pink flowers. From end June to early August. 90cm. high.

- Iris ensata 'Rose Queen'** £ 4.10
A lovely cultivar with pale pink flowers. 70cm. high.

- Iris ensata 'Ruffled Dimity'** £ 4.30
Huge pale lilac flowers covered in deep blue veining. 80cm. high.

- Iris ensata 'Sensation'** £ 4.50
Stunning violet-blue double flowers on 65cm. stems. Rich moist soil in sun or part shade.

- Iris x robusta 'Gerald Darby' AGM** £ 4.30
A most spectacular Iris, beautiful in all stages of growth. The base of each leaf is stained dark purple, as are the flower stems which carry large blue flowers in mid-summer. Grows in any good soil as well as in shallow water margins. Needs space, forming a clump 1-1.5m across in a few years.

- Iris sibirica; Totally trouble free Iris which flourish in any position, damp or dry. Make large clumps of grassy leaves which are a good foil for other herbaceous plants. In flower from June.**

- Iris sibirica 'Annemarie Troeger' AGM** £ 4.10
Superb large flowered deep blue. Vigorous, quickly making a large clump. 90cm. high.

- Iris sibirica 'Baby Sister'** £ 4.10
Very compact & prolific, with large lavender-blue flowers, marked white on the falls. Fantastic for front of border or rockery. 30-35cm. high. *Plate D*

- Iris sibirica 'Butter & Sugar' AGM** £ 4.10
An unusual cultivar with large flowers, in a lovely combination of pale creamy-yellow and white. 60cm. high. *Plate D*

- Iris sibirica 'Gerbel Mantel'** £ 4.10
Large pale creamy-yellow flowers, delicately marked with darker veins. 75cm. high.

Iris sibirica 'Lady Vanessa' £ 4.10

Large flowers in shades of rosy-amethyst. 70cm. high.

Iris sibirica 'Silver Edge' AGM £ 4.10

An outstanding new cultivar with large, rich blue flowers edged with silvery white. Very vigorous. 70cm. high. *Plate D*

Iris sibirica 'Snow Queen' £ 4.10

Excellent vigorous large flowered white. 60cm. high.

Iris sibirica 'Steve' £ 4.10

Excellent clump former with large velvety, deep violet flowers. 60cm. high.

Iris sibirica 'Wisley White' £ 4.10

Pristine pure white flowers held in a prolific mass well above the foliage. 90cm. high.

Iris sibirica 'Zweites Hundert' £ 4.10

Very strong & tall growing with large rich royal-blue flowers. 100cm. high.

KIRENGESHOMA

Kirengeshoma palmata £ 4.10

Waxy, pale primrose-yellow flared bells in August and September, on a dense shrubby plant to 90cm. high. Best grown in part shade in humus-rich soil. *Plate D*

KNAUTEA

Knautea macedonica £ 4.10

Long curving stems carry numerous pincushion flowers of an unusual ruby-crimson shade, rarely seen in the garden. Likes ordinary soil in sun or part shade. 45-60cm.

KNIPHOFIA

The 'Red Hot Pokers' have become deservedly popular with their sturdy flower spikes and extraordinary range of colours, flowering summer to autumn, they need full sun & deep free-draining soil. In severely cold areas a winter mulch of leafmould is advisable.

Kniphofia 'Dingaan' £ 4.10

New cultivar with pale bronze-yellow flower heads, emerging from green buds. 120cm. high.

Kniphofia 'Earliest of All' £ 4.10

Slender soft coral-red spikes, 50cm. high. June to September.

Kniphofia 'Painted Lady' £ 4.10

Tall robust spikes of rich cream tipped with coral. One of the best, making large very free flowering clumps. 100cm. high.

Kniphofia 'Tawny King' £ 4.10

An exceptionally good variety with stout bronze stems. Tawny apricot buds open to cream. Very strong floriferous plant. 120cm. high.

Kniphofia 'Wrexham Buttercup' £ 4.10

Fantastically vigorous, robust plant with great fat pokers a glorious deep buttercup yellow, from August to September. Tall upright stems to 120cm. high.

LATHYRUS

Lathyrus niger £ 4.10

Unusual herbaceous pea, with dark pinky-violet flowers in mid-summer. 40-50cm high.

LEUCANTHEMUM

Leucanthemum x superbum £ 4.50

'Old Court'

A superb old form of the Shasta Daisy in which the pure white petals are very narrow, and create a delightful shaggy effect. 60-70cm. high. *Plate E*

Leucanthemum x superbum £ 4.10

'Sonnenschein'

Large pale lemon-yellow single daisies. Very attractive and different. 45cm. high.

Leucanthemum x superbum £ 4.10

'Sunny Side Up'

Excellent new cultivar with strong upright stems carrying large pure-white semi-double flowers of great substance, with contrasting yellow centres. Highly recommended, easy in an ordinary soil in sun or part shade. 75cm. high. *Plate E*

LIBERTIA

Libertia 'Amazing Grace' £ 4.50

Clumps of evergreen bronze-green, stiff, narrow foliage, topped by three-petalled white flowers in June & July. 75cm. high.

Libertia grandiflora AGM £ 4.10

Large evergreen clumps of Iris like leaves. Numerous spikes of unusual three petalled flowers in pure white. In flowers late May-July. 60-90cm. high. *Plate E*

LIGULARIA

Ligularia dentata £ 4.50

'Britt-Marie Crawford'

A new variety with dark glossy chocolate-maroon leaves, dark purple on reverse and large deep orange-yellow flowers. August to September. 100cm. high. (P.B.R.)

Plate E

Lythrum salicaria 'Blush'

Nomocharis pardanthina

Libertia grandiflora

Leucanthemum x s. 'Old Court'

Leucanthemum x s. 'Sunny Side Up'

Lychnis flos-cuculi 'White Robin'

Lobelia sessilifolia

Malva moschata 'Apple Blossom'

Morina longifolia

Meconopsis x cookei

Meconopsis 'Lingholm'

Meconopsis b. 'Hensol Violet'

Ligularia 'The Rocket' AGM £ 4.40

A superb plant for a moist position. Very tall near-black spikes, studded with clear yellow flowers. 1.8 m. high.

LILIUM

Lilium mackliniae £ 4.50

A superb dwarf Lily for the border, with large pale-pink bell shaped nodding flowers in June and July. Easy to grow in moisture retentive soil. 30-40cm high.

Lilium nepalense £ 4.50

Outstanding Himalayan lily with very large pendant blooms in a pale creamy green shade with a strongly contrasting mahogany central area. For organic but well drained soil, or good in pots of gritty compost. 60cm. high.

LOBELIA

Lobelia 'Red Velvet' £ 4.10

Upright spikes of velvety flowers in a very dark garnet-red shade. July to September. 80cm. high.

Lobelia sessilifolia £ 4.10

Slender upright spikes of intense royal-blue flowers in July and August. Good clump-forming perennial. Easy in any soil, 60cm. high.

Plate E

LUPINUS

Lupinus nootkatensis £ 4.10

Interesting N. American species, making compact clumps of soft downy foliage, above which are held blue and white lupin flowers in June and July. 45cm. high.

LYCHNIS

Lychnis cognata £ 4.10

Most unusual clear tangerine flowers from July onwards. Good perennial plant for sun or part shade in ordinary garden soil. 40cm. high.

Lychnis flos-cuculi £ 4.10

'White Robin'

Lovely white form of 'Ragged-Robin' with starry white flowers on red tinted upright stems in early summer. 40cm. high.

Plate E

Lychnis viscaria £ 4.10

'Splendens Plena' AGM

Neat clumps of narrow leaves. 30cm. stems carry very showy bright pink double flowers.

LYSIMACHIA

Lysimachia barystachys £ 4.10

Vigorous and quickly spreading perennial producing reddish stems which set off the pure white flower spikes beautifully. 75cm. high.

LYTHRUM

Lythrum salicaria 'Blush' AGM £ 4.10

Numerous pale pink flower spikes from strong bushy plants in late summer to autumn. 75cm. high.

Plate E

MAGNOLIA

Magnolia wilsonii £ 5.00

A favorite shrub, fast growing graceful spreading branches carry large very fragrant bowl shaped flowers with contrasting red central cone. Flowers young. Eventually becoming a small tree, 3m. plus high. (small plants)

Plate F

MALVA

Malva moschata 'Apple Blossom' £ 4.10

Pale pink form of this exquisite mallow, which flowers continuously from June to September. Neat habit, 50cm. high. Easy on ordinary garden soil in sun or part shade.

Plate E

MECONOPSIS

Meconopsis betonicifolia alba £ 4.50

A beautiful pure white form of the Himalayan Blue Poppy. For fertile, compost enriched soil. 60cm. high.

Meconopsis betonicifolia £ 4.50

'Hensol Violet'

An unusual strain producing flowers of a deep dusky violet-pink. 60cm. high.

Plate E

Meconopsis x cookei £ 4.80

An unusual, rarely available hybrid of the blood red M. punicia and the blue harebell M. quintuplinervia. Drooping open flowers in a subtle shade of dusky-pink. For well drained and composted soil. 20cm. high.

Plate E

Meconopsis 'Lingholm' £ 4.50

This Himalayan blue poppy produces large (10-15cm. across) deep-sky-blue flowers in early summer. Soundly perennial if grown in fertile compost-enriched soil that drains well in winter. Prefers cool semi-shade. 60cm. high.

Plate E

MORINA

Morina longifolia £ 4.10

From clumps of prickly, thistle like leaves arise stout stems studded with tubular flowers, white, turning pink. Beautiful for a long season. 75cm. high.

Plate E

NEPETA

Nepeta sibirica £ 4.10

This upright, clump forming Nepeta is a lovely late-flowering addition to the herbaceous bor-

Thalictrum actaeifolium

der. Grey-green aromatic foliage with 60cm. stems of spode blue tubular flowers. A lovely long-flowering plant which spreads freely in well drained soil.

Nepeta 'Six Hills Giant' £ 4.10
This is a most vigorous form of the popular Cat-Mint. Grey foliage and a continual display of lavender-blue flowers for a very long season. 50cm. high. Looks fantastic billowing over a low wall or onto a path.

Nepeta subsessilis £ 4.10
Large blue flowers held on strong upright stems from early June to late August. Showy and prolific. 60cm. high.

Nepeta subsessilis 'Pink Dreams' £ 4.10
Abundance of soft pink flowers from May to September, especially if dead headed. 60cm. high.

NOMOCHARIS

Nomocharis pardanthina £ 4.50
A supremely beautiful plant, closely related to the lily, which produces 90cm. stems carrying open lily-like flowers, pale pink heavily spotted with maroon. For well drained humus rich soil in a cool site. *Plate E*

ORNITHOGALUM

Ornithogalum magnum £ 4.10
Bulbous perennial producing upright fat spikes of starry white flowers in late spring and early summer. For fertile well-drained soil in sun. 60cm. high. *Plate F*

Ornithogalum pyramidale £ 4.10
Tall pyramidal heads of white flowers on this bulbous plant, April to June. 70cm. high.

ORTHROSANTHUS

Orthrosanthus laxus £ 4.10
Clusters of pale Wedgwood blue starry flowers above clumps of Iris-like leaves. For warm gardens with good drainage & sun. 45cm. high.

OURISIA

Ourisia coccinea £ 4.10
Elegant mat-forming evergreen perennial, producing wiry stems with vivid scarlet tubular flowers during the Summer. For cool moist positions. 20cm. high. *Plate F*

OXALIS

Oxalis magellanica flore plena £ 4.10
A tiny but vigorous carpeting plant, making dense mats of tiny foliage with extraordinary very double white flowers. 5cm. high.

Oxalis oregana £ 4.10
Ground hugging clover-shaped leaves make a neat carpet. Pinky-mauve saucer shaped flowers in April & May. Lovely in woodland areas or ground cover between shrubs. 25cm. high.

PAPAVER ORIENTALE

Oriental poppies have huge crinkly flowers which make a wonderful display in early summer. They are easy to please in a sunny position.

Papaver orientale 'Beauty of Livermere' AGM £ 4.10
A tall variety with dark red flowers. 90cm. high.

Papaver orientale 'Beauty Queen' £ 4.10
An unusual cultivar with very large pale amber flowers. 60cm. high.

Papaver orientale 'Cedar Hill' £ 4.10
Soft pink flowers with distinct black central blotches. 50cm. high.

Papaver orientale 'Fornett Summer' £ 4.10
A very striking poppy with deep pink fringed petals. For a sunny & well drained site. 60cm. high.

Papaver orientale 'Garden Glory' £ 4.10
Very large, fringed, deep salmon-pink flowers. 80cm. high.

Papaver orientale 'Indian Chief' £ 4.10
A spectacular cultivar with large flowers in an extraordinary shade of mahogany-red. 70cm. high.

Papaver orientale 'Juliane' £ 4.10
A lovely vigorous cultivar, with extra large poppies in a delicate shade of pale-pink. 60cm. high.

Papaver orientale 'Karine' AGM £ 4.10
A beautiful introduction with upward facing saucer shaped poppies in a delicate soft pink. 50cm. high. *Plate G*

Papaver orientale 'Lady Frederick Moore' £ 4.10
Beautiful very large flowers in pale creamy pink. 60cm. high.

Papaver orientale 'Little Dancer' £ 4.10
A lovely cultivar with soft pink flowers. 70cm. high.

Papaver orientale 'Manhattan' £ 4.10
Spectacular new cultivar, large plummy-red flowers with dark central blotches. 80cm. high.

Papaver orientale 'Perry's White' £ 4.10
A vigorous old variety with large white flowers. 60cm. high.

Papaver orientale 'Sinbad' £ 4.10
Very large red flowers held on strong upright stems. 80cm. high.

Papaver orientale 'Springtime' £ 4.10
Large flowers in a very soft pastel pink. 60cm. high.

Papaver orientale 'Sultana' £ 4.10
This form of the oriental poppy has huge papery flowers in a most unusual shade of deep luminous raspberry pink. 60cm. *Plate G*

Papaver orientale 'Tiffany' £ 4.10
New cultivar. Strong straight stems hold dark dusky maroon-pink flowers, with black central blotches. 80cm. high.

Papaver orientale 'Türkenlouis' £ 4.10
Superb cultivar with huge dark-scarlet flowers with fringed edges. 60cm. high.

Papaver orientale 'Turkish Delight' AGM £ 4.10
A superb vigorous variety with soft pink flowers. 60cm. high.

Papaver orientale 'White Karine' £ 4.10 (EM)
A white seedling of P. o. 'Karine', from our nursery. Similar saucer shaped pure white flowers with dark central blotches. Compact and free flowering. 50cm. high.

Papaver orientale 'White King' £ 4.10
Huge white flowers with contrasting black basal blotches. 70cm. high.

PENSTEMON

Penstemons are invaluable plants for extending the flowering season from July until the autumn. They prefer full sun & a well drained soil. In cold areas, a few autumn cuttings may be advisable. Only prune plants in the Spring when the new basal growth is appearing, as the old top growth will help to protect plants from severe frosts.

A special collection of 6 Penstemons is offered for £22.50 plus p&p. See page 2.

Penstemon 'Alice Hindley' AGM £ 4.10
Spikes of large lavender-mauve flowers, white within. Strong grower to 75cm. high.

Penstemon 'Apple Blossom' AGM £ 4.10
Pink buds open to white flowers, flushed pink. Similar, though more compact, to P. 'Osprey' 50cm. high.

Penstemon 'Blackbird' £ 4.10
Very dark maroon flowers on a strong growing plant. 60cm. high.

Penstemon 'Castle Forbes' £ 4.10
Large clear red flowers with very distinct white throat. Vigorous, 45-60cm. tall. Flowers continually until the frosts.

Penstemon 'Cherry' AGM £ 4.10
Large cherry-red flowers on vigorous 75cm. spikes. July onwards.

Penstemon 'Chester Scarlet' AGM £ 4.10
Large dark red flowers. Vigorous grower. 75cm.

Penstemon 'Ellenbank Amethyst' £ 4.40
Extraordinarily good seedling from our penstemon stockbed. Bicolour flowers, white-edged rosy-purple, rather like a brighter and more vivid P. 'Alice Hindley'. Tall upright graceful habit. 90cm. high.

Penstemon 'Ellenbank Cardinal' £ 4.40
Large flowers of good quality and substance in a dark ruby-red, pale within. A very striking hybrid of P. 'Garnet' and P. 'Castle Forbes' which occurred in our Penstemon stockbed. 90cm. high.

Penstemon 'Firebird' £ 4.10
Brilliant red flowers from July onwards. Vigorous, to 60cm. tall. Syn. P. 'Schoenholzeri'

Penstemon 'Garnet' £ 4.10
Dark garnet-red flowers, glossy slender leaves. Very vigorous & long flowering, June-October. 60cm.

Penstemon glaber £ 4.10
Very vigorous spreading plant producing a succession of lilac-pink flowers. 30cm. tall.

Penstemon grandiflorus £ 4.10
An interesting species penstemon with clumps of blue-green foliage with strong stems of lavender-blue flowers. 60cm. high.

Penstemon 'Hidcote Pink' AGM £ 4.10
Large mid-pink flowers streaked heavily with deeper pink inside. One of the hardiest and most vigorous of the pink Penstemons. 60cm. Sun & good drainage.

Penstemon 'Madame Golding' £ 4.10
A most elegant plant with strong upright spikes of narrow, deep coral pink flowers. Lovely and different. 90cm. high.

Penstemon mensarum £ 4.10

Uncommon species carrying whorls of small but impressive deep blue flowers on stems up to 60cm. high. For a free draining rock garden site in sun.

Penstemon 'Mother of Pearl' £ 4.10

A subtle combination of white, pale amethyst & blue, rather like a paler P. 'Sour Grapes'. 60cm. high.

Penstemon 'Pennington Gem' AGM £ 4.10

Large mid-pink flowers with a pure white throat. Vigorous & one of the hardiest. 75cm. high.

Penstemon 'Sour Grapes' AGM £ 4.10

The Beth Chatto form which is a very vigorous plant producing flowers in a lovely mixture of blue, pale amethyst & cream. 90cm. high.

Penstemon 'True Sour Grapes' £ 4.10

This cultivar has been reintroduced in recent years as the true form. Very attractive soft purple flowers produced profusely from mid-summer onwards. 60cm. high.

Penstemon 'White Bedder' AGM £ 4.10

White flowers delicately flushed with palest pink. 60cm. high.

PERSICARIA

Persicaria bistorta £ 4.10
'Superba' AGM

A mass of clear pink spikes, almost constantly from June until autumn. Prefers a fertile & not too dry soil. 90cm. high.

PHLOMIS

Phlomis italica £ 4.10

Clumps of soft grey felted foliage make a good foil for the pale pink hooded flowers. Easy in a sunny well drained site. 80cm. high.

Phlomis russeliana £ 4.10

Huge heart-shaped leaves make large weed-proof clumps. Stout stems 90cm. high bear whorls of butter-yellow hooded flowers during the summer. A statuesque plant, requiring lots of space. *Plate F*

PHLOX

Phlox carolina 'Magnificence' £ 4.10

Tall stems of glossy green leaves carry slender spikes of dark lilac-pink highly scented flowers. Vigorous & healthy in sun or part-shade. 70cm. high.

Phlox 'Charles Ricardo' £ 4.10

Scented lavender-blue flowers cover a mound 30cm. high. Border front, or looks wonderful

grown in a pot, showing off its cascading habit. May to July.

Phlox 'Chattahoochee' AGM £ 4.10

Scented, blue flower with a red eye, making a 25cm. mound. Grows well in semi-shade & slightly moist soil, or looks wonderful grown in pots which show off its cascading habit. May to July.

Phlox carolina subsp. angusta £ 4.10

Pretty rosy-violet scented flowers create a light airy plant, flowering profusely from early July to September. 45cm. high.

Phlox maculata 'Natascha' £ 4.10

Strongly scented white flowers with a pink splash on each petal, creating a starry effect. 80cm. high.

Phlox maculata 'Reine du Jour' £ 4.10

Spikes of pure white flowers enhanced by pale red eyes. For sun or part shade in a fertile soil. *Plate F*

Phlox paniculata 'Blue Paradise' £ 4.10

Strong grower with highly scented dark lavender-blue flowers. 70cm. high.

Phlox paniculata 'David' £ 4.10

Large heads of heavily scented pure white flowers for a long season between July and November. Reputed the best white Phlox. Strong vigorous habit. 90cm. high. Voted perennial of the year 2002 by Perennial Plant Association.

Phlox paniculata 'Monica Lynden-Bell' £ 4.10

Spikes of highly scented, very pale-pink flowers emerging from dark buds. *Plate F*

Phlox paniculata 'White Admiral' AGM £4.10

An extremely vigorous Phlox, producing strong upright stems. (Rarely needs staking) Strongly scented pure white flower, one of the last to bloom. 135cm. high.

PIMPINELLA

Pimpinella major 'Rosea' £ 4.10

Like a refined, pink flowered cow-parsley. Makes a nice spreading plant in ordinary soil. 60cm. high.

POLEMONIUM

Polemonium carneum 'Apricot Delight' £ 4.10

A seed strain producing flowers in a combination of apricot & lilac. Summer flowering. 45cm. high.

POTENTILLA

Potentilla alba £ 4.10

A favourite ground cover plant with grey-green lupin-like leaves topped by lots of orange-eyed white flowers. Spring to early summer flowering, repeating in late summer to autumn. Sun or part shade. 10cm. high.

Potentilla 'Arc en Ciel' £ 4.10

Excellent cultivar producing large double flowers in darkest mahogany with pale terracotta highlights. Long flowering season, July to October. 45cm. high. *Plate F*

Potentilla atrosanguinea £ 4.10

The silvery lobed leaves are a perfect foil for dark blood-red flowers. Summer flowering. 45cm. high & 60cm. across

Potentilla 'Emilie' £ 4.10

Double dark maroon-red flowers for a long summer season. Similar to P. 'Arc en Ciel', though slightly darker. 45cm. high.

Potentilla 'Flambeau' £ 4.10

Clumps of downy silver-green foliage set off the dark scarlet-red single flowers to perfection. July to September. 70cm. high. Makes a large floriferous clump.

Potentilla 'Flamenco' £ 4.10

Intense scarlet velvety flowers with darker eye, over mounds of deep green leaves. 40cm.

Potentilla x hopwoodiana £ 4.10

Unusual cultivar with soft salmony-pink flowers, fading to a pale creamy-pink, further enhanced by a dark red eye. Vigorous clump former. 40cm. high.

Potentilla x hybrida 'Jean Jabber' £ 4.10

Clumps of soft downy silver foliage and spreading prostrate stems of bright yellow & orange flowers. Lovely and unusual. 20cm. high.

Potentilla nepalensis 'Ron McBeath' £ 4.10

Compact, very floriferous, with numerous bright pink flowers for a long season. 40cm. high

Potentilla nepalensis 'Shogran' £ 4.10

Excellent compact form with brilliant carmine-rose flowers all summer. 15cm. high.

Potentilla 'White Queen' £ 4.10

Good early flowering white, yellow-centred form. In flower May and June. 40cm. high.

Potentilla 'William Rollison' AGM £ 4.10

Double orange-red flowers for a long summer season. Likes a sunny spot. Prostrate habit, lovely spilling over a path or low wall. 45cm.

PRIMULA

Primula x bulleesiana £ 3.70

Vigorous floriferous hybrid producing candelabras of vibrant pinky-red flowers in late May and June. Best grown in moist soils or by stream or pond in open or semi-shade. Will naturalize freely in the right conditions. 40cm. high.

Primula cockburniana yellow-flowered £ 3.70

Rare pure buttercup-yellow form of this exquisite small Candelabra. For shady peaty soil. 30-45cm. high

Primula 'Don Keefe' £ 4.30

Unique variety with large deep dusky orange-red flowers from April to June. 20cm. high.

Primula florindae AGM £ 3.70

Very fragrant drooping bell-shaped yellow flowers on strong 40cm. high stems. Long flowering season, often well into late summer, & its scent, especially in the evening, is unbelievable.

Primula florindae 'Orange & Red Forms' £ 3.70

Strongly scented plants in shades of orange-terracotta and red. *Plate F*

Primula 'Harlow Car' £ 3.70

A vigorous and easy Candelabra Primrose. Dark orange buds open to pale orange whorls. 50cm. high.

Primula japonica 'Apple Blossom' £ 3.70

Candelabras of delicate pale-pink flowers, enhanced by a darker eye. 60cm. high.

Primula japonica 'Postford White' AGM £ 3.70

Typical Candelabra habit, but with yellow eyed pure white flowers. 60cm. high. *Plate F*

Primula poissonii £ 3.70

A lovely Candelabra Primrose producing evergreen rosettes from which 60cm. high whorls of deep purplish red flowers are produced in early summer. For a moisture retentive soil.

Primula prolifera AGM £ 3.70

Syn. P. helodoxa An excellent Candelabra Primrose, with slender stems carrying whorls of clear lemon yellow flowers, creating a cool airy graceful effect. Likes a moist soil. 60cm.

Primula pulverulenta 'Bartley's Strain' £ 4.00

An exceptionally beautiful strain of Candelabra, pale shell-pink flowers with a startling dark red eye. 45cm. high.

PULMONARIA

Pulmonaria 'Mawson's Blue' £ 4.10
Dark green unspotted leaves, dark blue flowers. Very similar to P. 'Blue Ensign', possibly slightly darker. 20cm. high.

Pulmonaria 'Roy Davidson' £ 4.10
An American introduction with dark green leaves, heavily and evenly spotted silver. The flowers are a lovely soft pale-blue, fading to pink and are very profuse in spring and early summer. 30cm. high.

PULSATILLA

Pulsatilla alpina subsp. apiifolia £ 7.50
Clumps of ferny foliage produce upright stems carrying exquisite enormous pale yellow flowers in early summer, followed by very decorative seed heads. Rare and beautiful. For free draining and fertile soil. 40cm. high.

RANUNCULUS

Caution - Toxic if eaten.

Ranunculus acontitifolius £ 4.50
flora pleno AGM

'The Fair Maids of France', an ancient plant, dating back to the 16th century. Exquisite pure white densely-double flowers produced in profusion in late spring and early summer. 45cm. high. Prefers a moist soil.

ROSCOEIA

Roscoea auriculata 'Floriade' £ 4.30
Award winning strong growing cultivar with very large purple flowers, 5cm. across. Late summer to autumn. 40cm. high.

Roscoea cautleyoides AGM £ 4.30
Soft yellow orchid-like flowers appear in early summer. Easy in fertile soil, sun or part shade. 40cm. high.

RUDBECKIA

Rudbeckia fulgida sullivanii £ 4.10
'Goldsturm' AGM
Large bright yellow daisies with black centres produced profusely from mid-August to end October. One of the best plants for that season. Likes sun. 60cm. high.

Rudbeckia fulgida var. deamii £ 4.10
Strong upright stems of vivid yellow daisies with contrasting black central cones. Taller and more airy effect than R. 'Goldsturm'. Flowers profusely from August to end October. 90cm.
Plate F

Rudbeckia maxima £ 4.10
Very different from other Rudbeckia. Clumps of broad glaucous grey-green basal leaves.

Tall upright stems carry flowers composed of golden drooping petals surrounding a long black central cone. 120cm. high.

SALVIA

Salvia glutinosa £ 4.50
Clump forming perennial with large heart shaped leaves. Attractively marked pale yellow flowers held on 90cm. stems from mid-summer to mid-autumn. Sun, in ordinary soil.

SANGUISORBA

Sanguisorba menziesii £ 4.10
Clumps of elegant pinnate foliage produce 80cm. spikes of deep maroon bottle-brush flowers from May to July. Easy in ordinary soil, not too dry, in sun of part shade.

Sanguisorba obtusa £ 4.10
Arching stems of large bottle-brush flowers, rich rose-pink, above handsome clumps of toothed grey-green leaves. June to September. 120cm. high.

SAPONARIA

Saponaria officinalis 'Betty Arnold' £ 4.10
Pure white double flowers on 60cm. stems. Can be invasive, but excellent late summer and autumn flowering.

SCABIOSA

Scabiosa caucasica 'Kompliment' £ 4.10
Large flowered, dark lavender form. For sun and good drainage. 60cm. high.

Scabiosa caucasica 'Perfecta' £ 4.10
Strong grower with large lavender-blue flowers. For sun and good drainage. 50cm. high

Scabiosa caucasica 'Perfecta Alba' £ 4.10
Large white flowers all summer. 80cm. high. Well drained sunny spot.

SCHIZOSTYLIS

The 'Kaffir Lily' makes a wonderful display in the autumn garden, coming into flower in September and continuing until November. The silky textured flowers resemble miniature Gladiolus, and are held on spikes 30-45cm. high. They prefer rich moist soil and full sun. Very vigorous, quickly making a spreading mat that will benefit from division every few years.

Schizostylis coccinea alba £ 4.10
This rare pure white form of the Kaffir Lily makes large clumps of sword-like leaves. Flowers produced from September to November. A very good cut flower. 45cm. high.

Schizostylis coccinea 'Big Moma' £ 4.10
Large mid-pink flowers of good substance. Tall and vigorous. 60cm. high.
Plate G

Schizostylis coccinea 'Elburton Glow' £ 4.10
Glowing deep-salmon-pink. Excellent floriferous habit. 50cm. high.

Schizostylis coccinea 'Major' AGM £ 4.10
Large flowers in a beautiful luminous crimson-red. Indispensable for the autumn garden. 50cm. high.

Schizostylis coccinea 'Oregon Sunset' £ 4.10
Vibrant dark salmon-pink flowers through late summer and autumn. Very good clump former. 60cm. high.

Schizostylis coccinea 'Pink Marge' £ 4.10
Neat pointed pink flowers attractively marked with darker pink flecks. September to November. 45cm. high.
Plate G

Schizostylis coccinea 'Salome' £ 4.10
Large flowers in a beautiful luminous dark pink. Autumn flowering, earlier than most. 50cm. high.

Schizostylis coccinea 'Zeal Salmon' £ 4.10
Stems of large, deep-salmon-pink flowers from the end of August until frosts. 50cm. high.
Plate G

SENECIO

Senecio polyodon £ 4.30
Vigorous carpet forming plant which produces erect slender stems, carrying rosy-purple daisy like flowers with a yellow central disc. Summer to early autumn. Best in sun and well drained soil. 30cm. high

SIDALCEA

Sidalcea 'Elsie Heugh' £ 4.30
A beautiful perennial for a sunny border, producing spikes of pale pastel pink flowers with delicate fringed petals. July - Aug. 90cm.

Sidalcea 'Sussex Beauty' £ 4.50
Spikes of glowing pink satiny flowers, produced profusely from July to September. Vigorous and strong grower, 90cm. high. Best in sun and fertile soil.

SILENE

Silene 'Rolley's Favorite' £ 4.10
Vigorous new hybrid producing a continuous display of bright pink flowers. Spring to autumn if dead-headed. 40cm. high.

SOLIDASTER

x Solidaster luteus 'Lemore' AGM £ 4.10
Wiry stems carry open heads of tiny lemon-yellow daisies from July onwards. A very pleasing border plant, excellent for cutting. 60cm. high.

STOKESIA

Stokesia laevis 'Mary Gregory' £ 4.10
Large soft-yellow flowers in July-September. 40cm. high.

TANACETUM

Tanacetum parthenium 'Rowallane' £ 4.10
Attractive aromatic fresh green foliage. Very neat, pure white fully double flowers in profusion during June to August. 40cm. high.

TEUCRIUM

Teucrium fruticans £ 4.50
An aromatic silvery shrub with whorls of pale-blue flowers held in terminal racemes. For a sunny well-drained, sheltered site, preferably against a wall. 100cm. high.

THALICTRUM

Thalictrum actaeifolium £ 4.30
One of the most beautiful species with distinctive Actaea like foliage. Tall stems carry largish pale lilac-white fluffy flowers. Rich fertile soil. 50-60cm. high.
Plate F

Thalictrum dasycarpum £ 4.30
North American species having tall upright stems flushed maroon-red and carrying large heads of palest lavender flowers. Foliage turns yellow in autumn and looks fantastic against the red stems. 1.5-1.8 metres high.

Thalictrum decorum £ 4.30
Very showy plants with beautiful maidenhair foliage and deep lilac-purple flowers for a long late-summer season. 100cm. high.

Thalictrum delavayi AGM £ 4.10
(Syn. T. dipterocarpum) From beautiful maidenhair foliage arise 120cm. high stems carrying masses of tiny lilac flowers with prominent creamy stamens.

Thalictrum delavayi 'Album' £ 4.30
Spectacular pure white form. Fertile soil. Sun or semi-shade. 100-120cm. high.

Thalictrum delavayi £ 4.10
'Hewitt's Double' AGM

In this cultivar the flowers are composed of tiny double deep-lilac rosettes. Very beautiful. 100-120cm.

Thalictrum diffusiflorum £ 4.80

Very beautiful and rarely available species. Very large lilac flowers, 4cm. across, above clumps of grey-green glaucous foliage. Can be difficult to establish in the garden, but thrives in a container with gritty compost for me. 70-80cm. high.

Thalictrum 'Elin' £ 4.10

The most robust and tallest is this outstanding hybrid between *T. flavum glaucum* & *T. rochebrunianum*. Produces sturdy stems 3 metres high, topped with sprays of bi-coloured lavender & yellow flowers. June to August.

Thalictrum filamentosum £ 4.30

Another beautiful species with lilac buds opening to fluffy white flowers on a compact bushy plant. long flowering season from early May to early August. 40-50cm. high. Easy in ordinary fertile soil, sun or part shade. *Plate F*

Thalictrum kiusianum £ 4.10

Miniature woodland species from Japan, making little spreading clumps of fluffy, rosy-purple flowers in June to August. For rock garden or trough, leafy humus rich soil, part shade. 12-15cm. high.

Thalictrum reniforme £ 4.10

Large pinky lilac flowers filled with cream stamens over clumps of beautifully shaped ferny foliage. Flowers June to August. 80-90cm. high.

Thalictrum rochebrunianum £ 4.10

One of the strongest *Thalictrum* species with large clumps of glaucous, purple-tinted foliage. Very tall stout upright stems carry a mass of soft-purple flowers filled with yellow stamens. 150cm. high. *Plate F*

Thalictrum sphaerostachyum £ 4.10

Robust species making clumps of glaucous grey-green foliage and 120cm. stems, carrying large terminal pannicles of sulphur-yellow flowers in July and August.

Thalictrum x 'Splendide' £ 4.50

New hybrid between *T. delavayi* and *T. elegans* producing tall vigorous red stems carrying a mass of soft purple flowers filled with cream stamens. 1.3m. high

TRADESCANTIA

Strong clumps of lush green leaves and a long succession of 3-petalled vibrant-coloured flowers all summer

Tradescantia albiflora £ 4.10
'Little Doll'

Compact variety producing pale blue flowers continuously from May to October. 25cm. high. For ordinary garden soil in sun or part shade.

Tradescantia albiflora £ 4.10
'Little White Doll'

A new, compact, continuously flowering cultivar. Numerous white flowers, tinted pale blue in the centre, from May to October. 25cm. high.

Tradescantia 'Danielle' £ 4.10

Large pure white flowers, 40cm. high.

Tradescantia 'Mariella' £ 4.10

Numerous large mid-blue flowers all summer. 35cm. high.

Tradescantia 'Sylvana' £ 4.10

Vibrant deep-pinky-red flowers. 40cm. high.

Tradescantia 'Zwanenburg Blue' £ 4.10

Deep vibrant blue flowers all summer. 50cm

TRICYRTIS

Tricyrtis formosana £ 4.10

The Toad Lily is a most unusual and rather exotic looking late-summer perennial, flowering in August to October. Upright stems carry pale-lilac flowers heavily spotted with dark maroon and marked yellow in the throat. Quickly forms a large hardy clump in humus-rich soil. 70cm. high.

TRIFOLIUM

Trifolium rubens £ 4.10

One of the showiest clover species. Numerous upright stems holding large cylindrical bottle-brush flower spikes in a lovely reddish-purple shade. Easy in ordinary soil and sun. 60cm.

TRITONIA

Tritonia disticha subs. rubrolucens £ 4.10

A very graceful addition to the late summer garden. Grassy clumps produce wiry stems of delicate warm-pink tubular lily-like flowers. Tough easy habit belied by its delicate appearance. Prefers sun. 60cm. high. *Plate G*

Plate G

Schizostylis coccinea 'Big Moma'

Schizostylis coccinea 'Pink Marge'

Schizostylis coccinea 'Zeal Salmon'

Tritonia disticha subs. rubrolucens

Rudbeckia fulgida var. deamii

Papaver orientale 'Sultana'

Veronica g. 'Barbara Sherwood'

Viola 'Kitty White'

Papaver orientale 'Karine'

Verbascum 'Ellenbank Jewel'

Verbascum 'Coitswold Beauty'

Trollius x cultorum 'Cheddar'

TROLLIUS

Trollius x cultorum 'Alabaster' £ 4.50

Beautiful pale cream form of the Globe Flower, producing numerous cup-shaped flowers in May and June. Prefers a fertile moist soil. 60cm. high.

Trollius x cultorum 'Cheddar' £ 4.50

Delightful pale creamy yellow globe flowers, open and upward facing. For rich moist soil. Sun or part shade. 70cm. high. *Plate G*

VALERIANA

Valeriana officinalis £ 4.10

Delightful airy domed heads of tiny, pink-tinged white flowers on tall upright stems. June to August. Lovely in a naturalistic planting scheme or cottage garden. Vigorous clump former. 120cm. high.

VERBASCUM

Verbascum chioxii £ 4.10 **'Wedding Candles'**

Multi branched flower stems carry pure white flowers with contrasting violet filaments. Good perennial for sun and free drainage. 100cm. high.

Verbascum 'Cotswold Beauty' £ 4.10

Excellent reliable old hybrid, making very large clumps and producing 90cm. spikes of large, dark-eyed, warm peachy-pink flowers from June to August. Sun and good drainage.

Plate G

Verbascum 'Ellenbank Jewel' £ 4.10

(EM) A beautiful hybrid, raised at our nursery (*V. chioxii album* x *V. phoeniceum*). Tall slender spikes of pale peachy-apricot flowers. Repeat flowers throughout the summer. 70cm. high.

Plate G

Verbascum phoeniceum 'Violetta' £ 4.10

Spikes of velvety violet-purple flowers all summer. 60cm. high.

Verbascum 'Spica' £ 4.10

Clumps of soft grey felted foliage with enormous spikes of creamy-white flowers. Good drainage and sun essential. 180cm. high.

VERONICA

Veronica gentianoides £ 4.10 **'Barbara Sherwood'**

A beautiful cultivar, much larger in leaf & flower than the type. Cool pale blue flower spikes in early summer. 50cm. high. *Plate G*

Veronica gentianoides 'Robusta' £ 4.10

An excellent form, coming into flower slightly earlier than others in this group. Makes spreading clumps with soft blue flowers in early summer. 45cm. high.

Veronica gentianoides £ 4.10 **'Tissington White'**

Not actually white but the palest possible blue. In flower a little later than the others in this group, & repeat flowering in early Autumn. Very neat evergreen spreading habit. 45cm.

Veronica longifolia 'Lilac Fantasy' £ 4.10

Upright lilac-blue flower spikes in July to August, ordinary soil in sun or part shade. 55cm. high.

VERONICASTRUM

Veronicastrum virginicum £ 4.10 **'Album'**

Slender graceful white spikes on bronzed stems create a delightful vertical effect, from July to end September. Easy in any soil, sun or part shade. 130cm. high.

Veronicastrum virginicum £ 4.10 **'Pink Glow'**

A lovely clump-forming perennial, producing tall upright stems of slender soft-pink flower spikes in late summer & autumn. Good for a strong vertical effect. 120cm. high.

WALDSTEINIA

Waldsteinia ternata £ 4.10

Totally weed suppressing, vigorous, semi-evergreen ground cover for woodland or dry banks. Bright yellow flowers in late spring and early summer. 15cm. high.

WATSONIA

Watsonia 'Stanford Scarlet' £ 4.50

Spectacular spikes of scarlet flowers in late spring and summer. Good perennial for a sheltered sunny frost-free site. 90cm. high.

Front cover features Papaver orientale 'Karine' in the garden at Ellenbank.
