VASTE PLANTEN & STEKBEDRIJF

Dear Customer,

Lisse, September 2022

Please find herewith our new catalogue for the 2023 season with a wide range of strong healthy and hardy perennials. We have been able to newly add no less than 54 mainly classical varieties, all monitored and tested for quite some time. We believe that this is a valuable broadening and deepening of our range.

Like before we would like to give you an indication for the timing regarding potting-periods to get the best result. Out of these periods availability of these products will be limited to avoid disappointment.

The 'W' rootcutting assortment is exclusively produced in early spring. The last few years we have seen an increasing demand for these rootcuttings. Our maximum production-capacity however will be limited and we will have to act accordingly upon accepting orders for these rootcuttings.

The 'K' (top)cuttings are available during a longer period but because of our wide assortment some varieties have limited availability during the season.

The tissue culture 'TC' range is only a small part of our range. This mainly concerns varieties with which we cannot achieve the intended product quality from unrooted cuttings. Due to the longer preparation of this product form, the delivery times are more limited.

Below an example of some varieties, the product form and the optimal delivery weeks in this catalogue. For any further information please contact the office or your representative.

Product form	from wk to wk	name
K	wk 16-40	Aster ericoides 'Snowflurry'
W	wk 20-30	Geranium hybride 'Johnson's Blue'
TC	wk 20-35	Persicaria ampl. 'Blackfield' PBR

All plugs are mechanically processed prior to delivery. As a result the plugs can easily be taken out of the tray. This saves time during handling and reduces the risk of damage to the plugs.

We believe that the introduction and production of cuttings in paper plug went well last season and we will continue this production method next season. Supplied as standard in tray D102.

Next year we will unfortunately not have the product Lavatera in our range. We are still looking for a way to be able to add this product again in a responsible manner, but we do not yet know whether we will succeed in this.

At Alkemade we remain active in the field of further improvement and deepening of the range of classic perennials and we hope to continue to offer you an attractive range. On request it is possible to receive the catalogue digitally. We can also send you an order form on request and by e-mail. Please send it to: [orders@gebr-alkemade.nl](mailto:orders@gebr-alkemade.nl)

On appointment you are very welcome to visit our nursery to convince yourself about the quality of our plants and last, but not least the skills, knowledge and dedication of the Alkemade-team.

With regards,  
Gebr. Alkemade B.V.  
Jaap van der Meij

### **Rooted cuttings perennials**

- Sale: The minimum sale is 1 tray per variety. The number per tray is 102, of which 100 will be charged unless stated/agreed otherwise.
- Price: Prices are in Euro's each, ex-nursery excluding VAT and valid from 01 Oct. 2022 up to 30 Sept. 2023. We reserve the right to adjust prices within the aforementioned period if unforeseen circumstances force us to do so.
- Order time: To deliver your order as complete as possible, we advise you to send your order before February 2023 via: [orders@gebr-alkemade.nl](mailto:orders@gebr-alkemade.nl)

### **The small order surcharge per order line is as follow:**

- 1 tray = 10 eurocent extra per plug
- 2 trays = 5 eurocent extra per plug
- 3 trays = 3 eurocent extra per plug
- 4 trays = 2 eurocent extra per plug
- 5 trays and more= prices as per catalogue.

For orders from our availability-lists a small order surcharge will also apply. However, if we offer less than 5 trays of the variety ordered we will not apply the order surcharge.

### **Terms of delivery**

These terms of delivery are applicable for all our offers, agreements and orders. Deviating conditions of our buyers can only be accepted if they are confirmed by us in writing.

Ownership of the goods will remain with the seller until the invoice has been fully settled by the buyer (including interest, other costs and fines). The risk of the goods is for the account of the buyer from the moment the goods leave the nursery of the seller.

Delivery weeks are confirmed as an indication. Delay in delivery will never allow the buyer to cancel the order nor give the right to compensation.

Complaints should reach us within 8 days after receiving the goods per registered mail. The date of the stamp is decisive. With each complaint a clear description of the complaint must be given.

### **The amount of a damage-claim can never be higher than the amount stated in the invoice**

Although every effort is made to deliver the plants in good condition and in time, unforeseen circumstances such as bad harvest, frost and damage can occur. These circumstances, relieve us from the obligation to deliver, even if the order has already been accepted and confirmed.

### **All prices and offers are non-binding.**

Plants are delivered in standard boxes VML/VMH, on pallets and on CC-trolleys. Costs of packaging are passed on at cost price. Provided the boxes/pallets are delivered back to us empty and undamaged packaging will be taken back at the cost price minus the following deductions:

VML	€ 0,12
VMH	€ 0,12
Pallets	€ 1,15

CC-trolleys must be changed at delivery

### **Payment should be made without deduction within 30 days from the date of invoice.**

In case of payment after the due date 1% interest per month will be charged for the full invoice-amount. All extra costs to collect the payment will be for the buyer.

The buyer is not authorized to deduct any amount from the purchase price due to a counterclaim made by him and/or to compensate and/or suspend payment of the price in any other way.

Dutch law applies to all agreements and orders. For any dispute Dutch law is applicable. Also in case of transaction with a buyer established outside the Netherlands.

**These terms of delivery are deposited at the Chamber of Commerce in The Netherlands.**

VASTE PLANTEN & STEKBEDRIJF

## PERENNIAL POWER

THE PROMOTIONAL ORGANISATION FOR THE PERENNIAL PLANT SECTOR

Perennial Power is a foundation with currently 50 participants that provides information about perennials and promotes the sale of these products in The Netherlands, Belgium, Germany, France, England and Poland.

**Team up with us** so that Perennial Power can get even more consumers interested in perennials by means of printed advertising, social media, the Perennial Power website, videos and visual material.

**JOIN US AS A PARTICIPANT IN PERENNIAL POWER!**

Send an e-mail to [info@perennialpower.nl](mailto:info@perennialpower.nl)
